SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-6160.

Title: General Aviation and Part 135 Activity Survey.

Form Numbers: 1800-54.

Type of Review: Renewal.

Background: Title 49, United States Code, empowers the Secretary of Transportation to collect and disseminate information relative to civil aeronautics, to study the possibilities for development of air commerce and the aeronautical industries, and to make long-range plans for, and formulate policy with respect to, the orderly development and use of the navigable airspace, radar installations and all other aids for air navigation. These data are necessary to assess performance of the Department of Transportation in meeting the strategic goal for General Aviation safety as described in the Destination 2025 Strategic Plan.

The agency and the National Transportation Safety Board (NTSB) use the exposure data, both by itself and in conjunction with aircraft age, to calculate accident rates, which are used to compare safety over time and safety performance among different aircraft types and configurations.

The agency and the NTSB will use the exposure data for public use aircraft to calculate accident rates for those aircraft. The NTSB is now required to investigate accidents involving public use aircraft. This is a responsibility assigned by Public Law 103-411.

Respondents: Owners of general aviation aircraft.

Frequency: Annual.

Estimated Average Burden per Response: 20 minutes.

Estimated Total Annual Burden: 39,000 responses; 13,000 hours.

Issued in Washington, DC, on November 4, 2020.

Parasha Vincent Flowers,

Program Manager, Program Management & Development Branch, AVP-220, Office of Accident Investigation & Prevention.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA-2020-0027-N-30]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of information collection; request for comment.

SUMMARY: Under the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, this notice announces that FRA is forwarding the Information Collection Request (ICR) abstracted below to the Office of Management and Budget (OMB) for review and comment. The ICR describes the information collection and its expected burden. On August 24, 2020, FRA published a notice providing a 60-day period for public comment on the ICR.

DATES: Interested persons are invited to submit comments on or before December 10, 2020.

ADDRESSES: Written comments and recommendations for the proposed ICR should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find the particular ICR by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Ms. Hodan Wells, Information Collection Clearance Officer, Office of Railroad Safety, Regulatory Analysis Division, Federal Railroad Administration, telephone (202) 493-0440, email: Hodan.Wells@dot.gov.

SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501-3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. See 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. On August 24, 2020, FRA published a 60-day notice in the **Federal Register** soliciting comment on

the ICR for which it is now seeking OMB approval. See 85 FR 52190. FRA received no comments related to the proposed collection of information.

Before OMB decides whether to approve the proposed collection of information, it must provide 30 days for public comment. Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507(b)-(c); 5 CFR 1320.12(d); see also 60 FR 44978, 44983, Aug. 29, 1995. OMB believes the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect.

Comments are invited on the following ICR regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the information will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology.

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

Title: Track Safety Standards; Concrete Crossties.

OMB Control Number: 2130-0592.

Abstract: In 2011, FRA mandated specific requirements for effective concrete crossties, for rail fastening systems connected to concrete crossties, and for automated inspections of track constructed with concrete crossties. FRA uses the information collected under 49 CFR 213.234 to ensure automated track inspections of track constructed with concrete crossties are carried out as specified in the rule to supplement visual inspections by Class I and Class II railroads, intercity passenger railroads, and commuter railroads.

Type of Request: Extension with change (revised estimates) of a currently approved collection.

Affected Public: Businesses.

Form(s): N/A.

Respondent Universe: 30 railroads.

Frequency of Submission: On occasion.

Total Estimated Annual Responses: 2,405.

Total Estimated Annual Burden: 279 hours.

Total Estimated Annual Burden Hour Dollar Cost Equivalent: \$19,888.

Under 44 U.S.C. 3507(a) and 5 CFR 1320.5(b) and 1320.8(b)(3)(vi), FRA informs all interested parties that a respondent is not required to respond to, conduct, or sponsor a collection of information that does not display a currently valid OMB control number.

Authority: 44 U.S.C. 3501–3520.

Brett A. Jortland,

Deputy Chief Counsel.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA–2018–0109 and NHTSA–2018–0074; Notice 1]

Consolidated Glass & Mirror, LLC, Receipt of Petitions for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Receipt of petitions.

SUMMARY: Consolidated Glass & Mirror, LLC (CGM), a subsidiary of Guardian Industries Corporation (Guardian), has determined that certain laminated glass parts do not fully comply with Federal motor vehicle safety standard (FMVSS) No. 205, *Glazing Materials*. Guardian filed two noncompliance reports dated April 15, 2020 and December 14, 2018. CGM petitioned NHTSA on May 23, 2018, and December 20, 2018, for a decision that the subject noncompliances are inconsequential as they relate to motor vehicle safety. This document announces receipt of CGM’s petitions.

DATES: The closing date for comments on the petition is December 10, 2020.

ADDRESSES: Interested persons are invited to submit written data, views, and arguments on this petition. Comments must refer to the docket number(s) and notice number cited in the title of this notice and may be submitted by any of the following methods:

- *Mail:* Send comments by mail addressed to the U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room

W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.

- *Hand Delivery:* Deliver comments by hand to the U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590. The Docket Section is open on weekdays from 10 a.m. to 5 p.m. except for Federal Holidays.

- *Electronically:* Submit comments electronically by logging onto the Federal Docket Management System (FDMS) website at <https://www.regulations.gov/>. Follow the online instructions for submitting comments.

- Comments may also be faxed to (202) 493–2251.

Comments must be written in the English language, and be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that comments you have submitted by mail were received, please enclose a stamped, self-addressed postcard with the comments. Note that all comments received will be posted without change to https://www.regulations.gov, including any personal information provided.

All comments and supporting materials received before the close of business on the closing date indicated above will be filed in the docket and will be considered. All comments and supporting materials received after the closing date will also be filed and will be considered to the fullest extent possible.

When the petition is granted or denied, notice of the decision will also be published in the **Federal Register** pursuant to the authority indicated at the end of this notice.

All comments, background documentation, and supporting materials submitted to the docket may be viewed by anyone at the address and times given above. The documents may also be viewed on the internet at https://www.regulations.gov by following the online instructions for accessing the dockets. The docket ID numbers for these petitions are shown in the heading of this notice.

DOT’s complete Privacy Act Statement is available for review in a **Federal Register** notice published on April 11, 2000 (65 FR 19477–78).

SUPPLEMENTARY INFORMATION:

I. Overview

CGM has determined that certain laminated glass parts do not fully

comply with paragraph S6 of FMVSS No. 205, *Glazing Materials* (49 CFR 571.205). On May 23, 2018, Guardian petitioned NHTSA for an inconsequential safety decision (49 U.S.C. 30118(d) and 30120(h) and 49 CFR part 556, *Exemption for Inconsequential Defect or Noncompliance*) without initially filing a noncompliance report (49 CFR part 573, *Defect and Noncompliance Responsibility and Reports*). Although NHTSA could have properly rejected this petition, it did not and prompted Guardian to file the required noncompliance report. Guardian finally did so on April 15, 2020. Guardian filed another noncompliance report dated December 14, 2018 and subsequently filed a second petition on December 20, 2018, for a decision that this second noncompliance is inconsequential as they relate to motor vehicle safety. Because the two petitions address similar issues, this document announces the receipt of the two CGM’s petitions.

This notice of receipt of CGM’s petitions is published under 49 U.S.C. 30118 and 30120 and does not represent any Agency decision or other exercises of judgment concerning the merits of the petition.

II. Equipment Involved

Approximately 223 laminated windshields manufactured on March 8, 2018, and shipped to IC Corp Tulsa Bus Plant for installation into Navistar buses are potentially involved.

Approximately 1,390 bus door window panes, manufactured between November 1, 2017 and March 29, 2018 are potentially involved. The window panes were sold to Vapor Bus for use in the fabrication of bus doors. Vapor Bus subsequently shipped the bus doors to Nova Bus for installation in their buses.

III. Noncompliance

CGM explained that the noncompliance is that the markings on the subject laminated glass panes do not fully meet the requirements specified in paragraph S6 of FMVSS No. 205. Specifically, the laminated glass panes shipped to IC Corp Tulsa Bus Plant were marked AS–2, when they should have been marked AS–1 and the bus window panes sold to Nova Bus were marked AS–S, when they should have been marked AS–2.

IV. Rule Requirements

Paragraph S6 of FMVSS No. 205 includes the requirements relevant to this petition. A manufacturer or distributor who cuts a section of glazing material, to which FMVSS No. 205 applies, for use in a motor vehicle or
