

requirements of paragraph (i)(2) of Section 9.10. Non-nationwide CMRS providers will have an additional 6 months to submit their implementation plan.

Section 9.10(i)(4)(ii) requires that no later than 18 months from the effective date, each CMRS provider shall submit to the Commission a report on its progress toward implementing improved indoor location accuracy. Non-nationwide CMRS providers will have an additional 6 months to submit their progress reports. All CMRS providers shall provide an additional progress report no later than 36 months from the effective date of the adoption of this rule. The 36-month reports shall indicate what progress the provider has made consistent with its implementation plan.

Section 9.10(i)(4)(iii) requires that prior to activation of the NEAD but no later than 18 months from the effective date of the adoption of this rule, the nationwide CMRS providers shall file with the Commission and request approval for a security and privacy plan for the administration and operation of the NEAD.

Section 9.10(i)(4)(iv) requires CMRS providers to certify “that neither they nor any third party they rely on to obtain dispatchable location information will use dispatchable location information or associated data for any non-911 purpose, except with prior express consent or as otherwise required by law.” In addition, “[t]he certification must state that CMRS providers and any third party they rely on to obtain dispatchable location information will implement measures sufficient to safeguard the privacy and security of dispatchable location information.” As noted above, the Commission is revising this requirement to account for the fact that the NEAD has been discontinued.

Section 9.10(i)(4)(v) requires that prior to use of z-axis information to meet the Commission’s location accuracy requirements, CMRS providers must certify “that neither they nor any third party they rely on to obtain z-axis information will use z-axis information or associated data for any non-911 purpose, except with prior express consent or as otherwise required by law.” Further, “[t]he certification must state that CMRS providers and any third party they rely on to obtain z-axis information will implement measures sufficient to safeguard the privacy and security of z-axis location information.” This requirement is necessary to ensure

the privacy and security of any personally identifiable information that may be collected by the CMRS provider. As noted above, the Commission is revising this requirement to account for the fact that the NEAD has been discontinued.

Section 9.10(j) requires CMRS providers to provide standardized confidence and uncertainty (C/U) data for all wireless 911 calls, whether from outdoor or indoor locations, on a per-call basis upon the request of a PSAP. This requirement makes the use of C/U data easier for PSAPs.

Section 9.10(j)(4) also requires that upon meeting the timeframes pursuant to paragraphs (i)(2)(ii)(C) and (D) of this section, CMRS providers shall provide with wireless 911 calls that have dispatchable location or z-axis (vertical) information the C/U data required under paragraph (j)(1) of this section. Where available to the CMRS provider, floor level information must be provided with associated C/U data in addition to z-axis location information.

Section 9.10(k) requires CMRS providers to record information on all live 911 calls, including but not limited to the positioning source method used to provide a location fix associated with the call, as well as confidence and uncertainty data. This information must be made available to PSAPs upon request, as a measure to promote transparency and accountability for this set of rules.

The information collections contained in the Interagency Guidance are needed by institutions to manage their asset securitization activities in a safe and sound manner. Bank management uses this information

as the basis for the safe and sound operation of their asset securitization activities and to ensure that they minimize operational risk in these activities. There is no change in the method or substance of the information collection. The overall 257-hour increase in estimated annual burden (from 157 hours in 2017 to 414 hours currently) is the result of economic fluctuation. credit, market, operational, legal and reputational risks. A financial institution that engages in complex structured finance transactions should maintain a set of formal, written, firm-wide policies and procedures that are designed to allow the institution to identify and assess these risks. There is no change in the methodology or substance of this information collection. The estimated annual burden is unchanged.

6. *Title:* Affiliate Marketing/Consumer Opt-out Notices.

 7. *Title:* Retail Foreign Exchange Transactions.

OMB Number: 3064–0182.
Form Number: None.
Affected Public: Insured state nonmember banks and state savings associations.
Burden Estimate:

SUMMARY OF ANNUAL BURDEN

Information collection description	Type of burden	Obligation to respond	Estimated number of respondents	Frequency of response	Estimated total annual responses	Estimated time per response (hours)	Estimated annual burden (hours)
Reporting Requirements	Reporting	Mandatory	1	On Occasion	1	16	16

<i>Total Third-Party Disclosure Burden.</i>							166
Recordkeeping Requirements.	Record-keeping.	Mandatory	1	On Occasion	1	1,332	1,332
<i>Total Recordkeeping Burden.</i>							1,332

Total Estimated Annual Burden: 1,514 hours.
General Description of Collection: This information collection implements section 742(c)(2) of the Dodd-Frank Act (7 U.S.C. 2(c)(2)(E) and FDIC regulations governing retail foreign exchange transactions as set forth at 12 CFR part 349, subpart B. The regulation allows banking organizations under FDIC supervision to engage in off-exchange transactions in foreign currency with retail customers provided they comply with various reporting, recordkeeping and third-party disclosure requirements specified in the rule. If an institution elects to conduct such transactions, compliance with the information collection is mandatory.

Reporting Requirements—Part 349, subpart B requires that, prior to initiating a retail foreign exchange business; a banking institution must provide the FDIC with a notice certifying that the institution has written policies and procedures, and risk measurement and management systems and controls in place to ensure that retail foreign exchange transactions are conducted in a safe and sound manner. The institution must also provide information about how it intends to manage customer due

diligence, new product approvals and haircuts applied to noncash margin.

Recordkeeping Requirements—Part 349 subpart B requires that institutions engaging in retail foreign exchange transactions keep full, complete and systematic records of account, financial ledger, transaction, memorandum orders and post execution allocations of bunched orders. In addition, institutions are required to maintain records regarding their ratio of profitable accounts, possible violations of law, records of noncash margin and monthly statements and confirmations issued.

Disclosure Requirements—The regulation requires that, before opening an account that will engage in retail foreign exchange transactions, a banking institution must obtain from each retail foreign exchange customer an acknowledgement of receipt and understanding of a written disclosure specified in the rule and of disclosures about the banking institution’s fees and other charges and of its profitable accounts ratio. The institution must also provide monthly statements to each retail foreign exchange customer and must send confirmation statements following every transaction.

The customer dispute resolution provisions of the regulation require

certain endorsements, acknowledgements and signature language as well as the timely provision of a list of persons qualified to handle a customer’s request for arbitration.

There is no change in the method or substance of the collection. At present no FDIC-supervised institution is engaging in activities that would make them subject to the information collection requirements. The agency is keeping the estimated number of respondents to one (1) as a placeholder in case an institution elects to engage in covered activities in the future. There has been no change in the frequency of response or in the estimated number of hours required to respond.

8. *Title:* Covered Financial Company Asset Purchaser Eligibility Certification.
OMB Number: 3064–0194.
Form Number: 7300/10.

Affected Public: Any individual or entity that is a potential purchaser of assets from (1) the FDIC as receiver for a Covered Financial Company (CFC); or (2) a bridge financial company (BFC) which requires the approval of the FDIC, as receiver for the predecessor CFC and as the sole shareholder of the BFC (e.g., the BFC’s sale of a significant business line).

Burden Estimate:

Covered Financial Company Asset Sales Purchaser Eligibility Certification.	Reporting	Mandatory	10	On Occasion	30 Minutes	5

Total Estimated Annual Burden: 5 hours.

General Description of Collection: Assets held by the FDIC in the course of liquidating any covered financial company must not be sold to persons who contributed to the demise of a covered financial company in specified ways (e.g., individuals who profited or engaged in wrongdoing at the expense of the failed institution, or seriously mismanaged the failed institution). 12 CFR part 380 requires prospective purchasers to complete and submit a Purchaser Eligibility Certification (PEC) to the FDIC. The PEC is a self certification by a prospective purchaser that it does not fall into any of the categories of individuals or entities that are prohibited by statute or regulation from purchasing the assets of covered financial companies. The PEC will be required in connection with the sale of assets by the FDIC, as receiver for a CFC, or the sale of assets by a BFC which requires the approval of the FDIC, as receiver for the predecessor CFC and as the sole shareholder of the BFC. There is no change in the methodology or substance of this information collection. The estimated annual burden is unchanged.
