### Attachment 4. Client Questionnaire, Baseline, 12 and 18 months

Form Approved OMB No.: 0920-1218 Expiration Date: 02/28/2021

Public Reporting burden of this collection of information is estimated at 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NW, MS D-74, Atlanta, GA 30333; Attn: PRA (0920-1218).

**Note:** The *Client Questionnaire* is administered at three points: baseline (initiation of new treatment episode), 12 months later, and 18 months later. It is self-administered by clients on a laptop. FI is present at baseline administration but may or may not be present at 12 and 18-month administration. Questions are meant to learn more about client's experience of OUD treatment, demographics, quit attempts, use of MATs and counseling, economic measures, ED and hospital usage, employment, health insurance, housing, drug use (prescribed and illicit), overdoses, physical and mental health issues, criminal activity, and childhood experience of trauma. The questionnaire must be self-explanatory as it is self-administered by client with or without FI present.

**Programmer Note:** At the beginning of the web questionnaire, we will briefly describe the nature of the questions to be asked and include contact information for the National Suicide Prevention Lifeline, which is a national network of local crisis centers that provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week. The telephone number is 1-800-273-TALK.

The Flesh-Kincaid grade reading level is 5.3.

## I. Consent (CO)

CO1. Do you acknowledge that you have read, understand, and agree to provide your consent to participate in this survey questionnaire?
<ol> <li>1. □ Yes, I consent</li> <li>2. □ No, I do not consent</li> </ol>
Programmer Note: Include a link to the full text of the informed consent. Label the link:
CO2 Click <u>here</u> if you wish to review the informed consent document.
Programmer Note: If CO1=No, display the message:
You have indicated that you do not give your consent to participate in this study. If that is correct, confirm that you have withdrawn consent. A member of our research team will contact you to discuss your concerns. Be assured, you always have the right to not answer any question and to withdraw consent any time. If this is not correct, confirm that you do provide consent below and you will be taken to the next question.
<ol> <li>Yes, I consent [Return client to CO1]</li> <li>No, I do not consent [Go to END]</li> </ol>
II. Study Site Treatment Status (SS)
Programmer Note: MAT/COUN = type of treatment client is receiving at index facility. Codes are MMT, BUP, NTX, and COUN.
If MMT, use "methadone maintenance therapy"
If BUP, use "buprenorphine (e.g. Suboxone, Probuphine, generic)"
If NTX, use "naltrexone (e.g. Vivitrol, Revia, generic)"
If COUN, use "counseling"
FACILITY = the Short_Name of the index facility
START=the date that index treatment began
INDEX DAYS=days spent in INDEX treatment. If still in INDEX treatment, INDEX DAYS = (today-START). If no longer in INDEX treatment, INDEX DAYS=(date ended treatment ( $SS3$ ) – START)

### Peer Navigator/Provider Services (PN)

A "Peer Navigator" (also referred to as a "Peer Provider" or "Peer Support Specialist") refers to a person who uses their personally lived experiences with addiction and recovery in a treatment setting to promote recovery and resiliency for individuals with the same or similar conditions.

BASE: Ask if R is still enrolled in INDEX treatment (SS2 = Yes) plus the first quex where R says they are no longer enrolled in INDEX treatment (first time SS2 = No).

Programmer Note: The following definition should appear here and be available as clickable definition wherever the term Peer Navigator occurs.

PN1. [SS2=YES: Since you started your INDEX treatment at (FACILITY)/ FIRST TIME SS2=NO: While you were in your INDEX treatment]

were you offered services from a peer navigator?
1. □ Yes
2. □ No
BASE: If PN1=Yes
PN2. [SS2=YES: Since you began your INDEX treatment,/ [FIRST TIME SS2=No: At any time while you were in your INDEX treatment] how often did you met with a peer navigator?
<ol> <li>Less than once a month</li> <li>About once a month</li> <li>Several times a month</li> <li>About once a week</li> <li>Several times a week</li> <li>I never met with a peer navigator</li> </ol>
Programmer note: If R still in INDEX treatment, use "is". If no longer in INDEX treatment, use "was
BASE: If PN1=Yes
PN3. How helpful [SS2=YES:is/SS2=NO:was) your peer navigator to your recovery?
<ol> <li>□ Very helpful</li> <li>□ Somewhat helpful</li> <li>□ Somewhat unhelpful</li> <li>□ Not helpful at all</li> </ol>
