Attachment 6. Client Questionnaire, Baseline, 12 and 24 months

Form Approved OMB No.: 0920-xxxx Expiration Date: XX/XX/XXXX

Public Reporting burden of this collection of information varies from 40 to 60 minutes with an estimated average of 50 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NW, MS D-74, Atlanta, GA 30333; Attn: PRA (0920-XXXX).

PRIVACY ACT Section 7(a)(1)(b). The primary purpose for requesting the SSN is to assist with locating you and confirming your status if we are unable to contact you at contact information you provided. We will use your SSN to search vital records databases. You do not have to provide the requested information. Your response is voluntary. This collection is authorized under Section 301 of the Public Health Service Act (42 U.S.C. 241) 280-1a and covered by System of Records Notice (SORN) is 09-20-0136, "Epidemiologic Studies and Surveillance of Disease Problems".

Note: The *Client Questionnaire* is administered at three points: baseline (initiation of new treatment episode), 12 months later, and 24 months later. It is self-administered by clients on a laptop. FI is present at baseline administration but may or may not be present at 12 and 24-month administration. Questions are meant to learn more about client's experience of OUD treatment, demographics, quit attempts, use of MATs and counseling, economic measures, ED and hospital usage, employment, health insurance, housing, drug use (prescribed and illicit), overdoses, physical and mental health issues, criminal activity, and childhood experience of trauma. The questionnaire must be self-explanatory as it is self-administered by client with or without FI present.

Programmer Note: At the beginning of the web questionnaire, we will briefly describe the nature of the questions to be asked and include contact information for the National Suicide Prevention Lifeline, which is a national network of local crisis centers that provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week. The telephone number is 1-800-273-TALK.

The Flesh-Kincaid grade reading level is 5.3.
