

Environmental Health and Your Community

Introduction

The Agency for Toxic Substances and Disease Registry (ATSDR) (or insert name of state or local agency) works with other federal agencies, states, and local governments to assess health risks in communities where people may come in contact with dangerous chemicals.

We use the best science to respond and provide health information to community members, environmental groups, tribal governments, and state, local, and other federal agencies to prevent or lower harmful health effects from dangerous chemicals.

ATSDR (or insert name of state or local agency) receives laboratory test results from things like soil, water, and air samples collected by federal, state and local partners, and let people know if there are health risks.

Survey Instructions

The Program Evaluation Team of the Agency for Toxic Substances and Disease Registry (ATSDR) (or insert name of state or local agency) is conducting a survey to gather feedback on how effective and timely ATSDR (or insert name of state or local agency) is in informing communities. The information will be used to help public health staff improve what they do in a way that's best for community members.

We would like for you to complete the following survey.

CONSENT: Providing your contact information and taking part in this survey is completely voluntary. You may skip any question or stop at any time. Your responses and identity will be kept private to the extent allowed by law. Digital data will be stored in secure computer files. We will not release your identity in any ATSDR (or insert name of state or local agency) reports. Please be sure to get all of your questions about the survey answered by ATSDR (or insert name of state or local agency) before you begin.

By proceeding, you indicate that you are 18 years of age or older, and CONSENT to participate in this survey.

ATSDR estimates the average public reporting burden for this collection of information as 15 minutes per survey, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0923-0055).
