## **IV. Simplified Methodology: Plan and Policy Report**

Information in this report would be collected only from QHP Issuers who selected the simplified CSR reconciliation methodology with  $\geq$ 12,000 member months in the associated standard plan (in and out of Exchange).

Level 3 elements are collected only if the issuer has submitted effective parameters for the QHP Plan under the "Simplified Methodology: Effective Parameters Report" such that:

- If effective parameters were submitted for only self-only coverage, the QHP issuer should submit information for Levels 3A-3C, as applicable.
- If effective parameters were submitted for only self-only and other than self-only coverage, the QHP issuer should submit information for Levels 3A-3F, as applicable.
- If effective medical and pharmaceutical parameters were submitted for only self-only coverage, the QHP issuer should submit information for Levels 3G-3L, as applicable.
- If effective medical and pharmaceutical parameters were submitted for self-only coverage and other than self-only coverage, the QHP issuer should submit information for Levels 3G-3R, as applicable.
