IV. Simplified Methodology: Plan and Policy Report

Information in this report would be collected only from QHP Issuers who selected the simplified CSR reconciliation methodology with \geq 12,000 member months in the associated standard plan (in and out of Exchange).

Level 3 elements are collected only if the issuer has submitted effective parameters for the QHP Plan under the "Simplified Methodology: Effective Parameters Report" such that:

- If effective parameters were submitted for only self-only coverage, the QHP issuer should submit information for Levels 3A-3C, as applicable.
- If effective parameters were submitted for only self-only and other than self-only coverage, the QHP issuer should submit information for Levels 3A-3F, as applicable.
- If effective medical and pharmaceutical parameters were submitted for only self-only coverage, the QHP issuer should submit information for Levels 3G-3L, as applicable.
- If effective medical and pharmaceutical parameters were submitted for self-only coverage and other than self-only coverage, the QHP issuer should submit information for Levels 3G-3R, as applicable.
