Sample Collection Screens**

Below are HAVA submission screens for several state MVAs. Screen shots vary slightly from State to State, although the information required is standardized when it goes from AAMVA to SSA.

Michigan

Here is a screen shot of the application used by the Michigan voting jurisdictions to enter the data. The 4 digit SSN field is grayed out, but is opened on specific transactions.

The screenshot shows a web-based application interface for Michigan HAVA submission. At the top, there are navigation buttons: Search, Save, Delete, Clear, Close, and Help. The main form area is divided into several sections:

- Header Information:** Jurisdiction, County, Status (with a dropdown menu showing 'Inspector'), Ward/Precinct, Eff. From, Entry Date (03/28/2014), Polling Location, Through, Operator, and Registration Location (with a dropdown menu).
- Personal Information:** Last Name, First Name, Middle Name, Suffix, Gender, Former Name, DOB, Phone Number, Perm. AV (checkbox), and Email Address.
- Identification:** MVIP ID (Confirmed) and SSN4 (grayed out).
- Address Information:** Residential Address (with sub-tabs for Residential and NTH) and Mailing Address (NON-UOCAVA). The residential address fields include Number, Suffix, Prefix, Street Name, Type, Suffix, Ext#, Post Office City, State, and Zip Code. A 'Find Street' button is located below these fields.
- Navigation:** A 'Voter Info' tab is active, showing sub-tabs for ID, MC, Com, Sig, Ch. Status, AV, Out of St., History, Address, and Petitions.

Vermont

The screenshot shows a web browser window titled "hava.sec.state.vt.us - Remote Desktop Connection" displaying the "Voter Editor" application. The interface is divided into several sections:

- Header:** "Last Updated: / / : : AM" and "Last Voted: / /".
- Personal Information:** Fields for Last Name, First Name, Middle Name, Suffix, Care Of, Mailing Salutation, Date of Birth, and Phone. Includes a "Registered Voters" button.
- Addressing:** Sections for Mailing Address, Legal Address, and Physical Location. Includes a "Copy Mailing to Legal" button.
- Verification:** A "Check for Duplicates" button with a warning icon and text: "Click the button above to look for previous registration(s) in VT and to notify clerks in former towns of residence to remove voter." Below it are fields for "Previous State Outside Vermont", "Previous Name/Alias", "Previous Mailing Address", and "Previous County, Town".
- Registration Status:** Checkboxes for "Is 18 or Over", "Oath Taken", "Is a U.S. Citizen", and "Is a Resident of Test Ville, VT". Includes a "VT DL Number" field and "Driver's License Verified" and "SSN Entry Verified" checkboxes.
- Buttons:** "Save Voter Data" (floppy disk icon), "Cancel" (red X icon), and "Verify VT License" (star icon).
- Footer:** "SOS Unique#: 0".

Arizona

Arizona's Secretary of State office accepts voter registrations from the fifteen Arizona counties and passes any new entries (Full Name, SSN last 4 digits and DOB) through to us here at the Motor Vehicle Division in a daily batch process. We then check to see if the full SSN search has already been verified on our Driver License Data Base and, if so, return the entry with a verified status. If the entry is not found on the MVD data base, or, the SSN verification has not been completed, we initiate the HAVV inquiry. We don't have access to the entry screens used by the Secretary of State but they accept:

Full Name

DOB

SSN (Last 4)

Address

Political Party affiliation

And, assign a unique voter ID to each registrant.

Texas

The screenshot shows a web browser window titled "screen_shot - Windows Picture and Fax Viewer" displaying the "eRegistry Voter Registration/Election Management System" interface. The page is titled "Voter Application" and includes a menu bar with "File", "Voter", "Task", "Utilities", and "Help". The main content area contains the following fields and options:

The Windows taskbar at the bottom shows the Start button, several application icons, and the system tray with the time 4:43 PM.

When a new Voter application is entered into the system (via the "eRegistry" GUI or through the import process) it goes through a process called "live check".

The portion of the "live check" that makes the call to the Department of Public Safety (DPS) which in turn makes a call to the Social Security Agency (SSA) requires the following pieces of information:

- Last Name
- First Name
- Last 4 Digits of the SSN
- Date of Birth

We will basically receive a "pass" or "no pass" status back. If it passes the voter application is approved. If it doesn't pass, the County's voter registrar has several options (1. reject the application, 2. send the applicant a notice, 3. approve the application, but blank out the SSN and mark/flag the voter application so that the voter would be required to show proper identification the first time the voter votes).

Note: Not all voter applications are sent to SSA, if they contain a Driver's License, then they've already been checked by DPS as to their identity and are not required to go through the SSA process. Also, if the voter application does not have an SSN then it would not need to go to SSA.
