

DEPARTMENT OF THE INTERIOR**Office of the Secretary****Privacy Act of 1974, As Amended; Establishment of a New System of Records**

AGENCY: Office of the Secretary.

ACTION: Proposed establishment of a new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (5 U.S.C. 552a), the Department of the Interior is issuing public notice of its intent to add a new Privacy Act system of records notice to its inventory: Interior, DOI-89, "Grants and Cooperative Agreements: FBMS." This new notice covers records previously covered in Privacy Act system of records notice Interior, DOI-90, "Federal Financial System."

DATES: Comments must be received by September 8, 2008.

ADDRESSES: Any persons interested in commenting on this new, proposed system of records may do so by submitting comments in writing to the Office of the Secretary Acting Privacy Act Officer, Linda Thomas, U.S. Department of the Interior, MS-116 SIB, 1951 Constitution Avenue, NW., Washington, DC 20240, or by e-mail to Linda_Thomas@nbc.gov.

FOR FURTHER INFORMATION CONTACT: Office of the Secretary Acting Privacy Act Officer, Linda Thomas, U.S. Department of the Interior, MS-116 SIB, 1951 Constitution Avenue, NW., Washington, DC 20240, or by e-mail to Linda_Thomas@nbc.gov.

SUPPLEMENTARY INFORMATION: The records covered by this notice were previously covered by another Privacy Act System of Records Notice: Interior, DOI-90, "Federal Financial System." The Office of the Secretary is proposing to establish a separate notice to cover records relating to grants and cooperative agreements to identify more clearly the categories of records included in this system and the parties to whom these records may be disclosed on a routine basis.

The Office of the Secretary is proposing to establish this notice at this time because the Department of the Interior (DOI) is in the process of replacing the Federal Financial System (FFS) with the Financial and Business Management System (FBMS), and because Interior, DOI-90 is being amended to cover only those records relating to DOI's acquisition of goods and services. Upon its amendment, Interior DOI-90 will be renamed DOI-87, "Acquisition of Goods and Services:

FBMS." Other portions of the records previously covered by Interior, DOI-90 will be covered by Interior, DOI-86, "Accounts Receivable: FBMS," and Interior, DOI-88, "Travel Management: FBMS."

FBMS will provide the Department of the Interior with standard business practices supported by a single, integrated finance and administrative system for all bureaus; it will help DOI manage a variety of business functions, including the awarding of grants and establishing of cooperative agreements. FBMS takes a comprehensive approach to improving the current business functions in its core systems by replacing DOI's current computer systems with modern software. The combination of standardized business practices and enhanced computer system functionality will enable DOI's bureaus and offices to improve service to their customers and to operate more efficiently. Benefits gained from implementing this suite of applications will include the ability to access and share real-time, accurate business information; to support effective business decisions for mission delivery; to issue accurate financial reports and analysis of managerial data; to support timely decision-making in the field; to free-up more time for mission-focused activities; to focus on value-added analysis rather than data gathering; and to eliminate redundant administrative tasks and multiple login screens.

DOI has adopted a multi-year, phased approach to implementing FBMS, both in terms of functionality, and in terms of the migration of the Department's component bureaus and offices from FFS and other associated systems, to FBMS. DOI plans to complete its implementation of FBMS by calendar year 2013.

Towards that end, this new system will be effective as proposed at the end of the comment period unless comments are received which would require a contrary determination. The Department will publish a revised notice if changes are made based upon a review of comments received.

Linda Thomas,

Office of the Secretary Acting Privacy Officer.

Pathfinder National Wildlife Refuge, Wyoming

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service) announce that the draft Comprehensive Conservation Plan (CCP) and Environmental Assessment (EA) for the Pathfinder National Wildlife Refuge is available. This draft CCP/EA describes how the Service intends to manage the refuge for the next 15 years. We request public comment.

DATES: To ensure consideration, we must receive your written comments on the draft CCP/EA by August 27, 2008.

ADDRESSES: Please provide written comments to Toni Griffin, Planning Team Leader, Division of Refuge Planning, Branch of Comprehensive Conservation Planning, Mountain-Prairie Region, P.O. SUPPLEMENTARY INFORMATION: Located in central Wyoming in a high plains basin near the headwaters of the Platte-Kansas Ecosystem, Pathfinder National Wildlife Refuge (NWR) lies approximately 47 miles southwest of Casper, Wyoming. The Pathfinder NWR is managed by Service staff headquartered at the Arapaho NWR near Walden, Colorado.

Pathfinder NWR was established by Executive Order 7425, August 1, 1936, which designated the Pathfinder Wildlife Refuge "as a refuge and breeding ground for birds and other wildlife". Pathfinder NWR was established as an overlay refuge on Bureau of Reclamation lands. As such, primary jurisdiction of these lands remains under the authority of the Bureau of Reclamation. The Bureau of Reclamation administers lands within the Pathfinder Project boundary for North Platte Project purposes including flood control, irrigation, and hydroelectric power generation. A Memorandum of Agreement specifies the management responsibilities of the U.S. Fish and Wildlife Service while preserving the autonomy of Bureau of Reclamation to manage Pathfinder Dam and Reservoir.

This draft CCP/EA identifies and evaluates three alternatives for managing the refuge for the next 15 years. Alternative A, the No Action alternative, reflects the current management of the refuge. It provides the baseline against which to compare the other alternatives. Refuge habitats would continue to be minimally managed on an opportunistic schedule that may maintain, or most likely would result in further decline in, the diversity of vegetation and wildlife species. Only limited data collection and monitoring of refuge habitats and wildlife species would occur on the refuge. Outreach and partnerships would continue at present levels.

Management activities under alternative B would be increased. Upland habitats would be evaluated and managed for the benefit of migratory bird species. Monitoring and management of invasive species on the refuge would be increased. With additional staffing, the Service would collect baseline biological information for wildlife and habitats. Wildlife-dependent recreation opportunities would be provided and enhanced where compatible with refuge purposes. Efforts would be increased in the operations and maintenance of natural resources on the refuge and to maintain and develop
