

Pipelines 1 and 2 for a total of 135.7 miles each;

- increase the diameter of Pipeline 1 from 42 inches to 48 inches and increase the MAOP of both pipelines from 1,480 psig to 1,825 psig (Pipeline 2 will remain a 42-inch-diameter pipeline); and

- increase the transportation capacity of Pipeline 1 from 2.25 billion cubic feet per day (Bcf/d) to 2.6 Bcf/d, and decrease the transportation capacity of Pipeline 2 from 2.25 Bcf/d to 1.9 Bcf/d, resulting in the total authorized capacity of 4.5 Bcf/d remaining unchanged.

The Project Amendment also includes modifications to the following aboveground facilities that are authorized (but as yet unbuilt) along the Rio Bravo Pipeline right-of-way:

- Eliminate Compressor Station 2 in Kenedy County;

- eliminate Compressor Station 3 within the Rio Grande LNG Terminal in Cameron County, except for a meter and other ancillary facilities within the LNG Terminal;

- eliminate all facilities associated with Booster Stations 1 and 2, including related meter stations, in Kenedy County; and

- increase the horsepower (hp) at Compressor Station 1 from 180,000 hp to 282,000 hp by switching from six 30,000-hp natural gas compressor units to four 43,000-hp natural gas compressor units and two 55,000-hp compressor units.

The Commission mailed a copy of the *Notice of Availability* to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.*, CP20-481). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on the Project Amendment, it is important that we receive your comments in Washington, DC on or before 5:00 p.m. Eastern Time on January 20, 2021.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP20-481-000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have

your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 CFR 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/ferc-online/ferc-online/how-guides>.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Dated: December 21, 2020.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. IC20-23-000 and RD20-9-000]

Commission Information Collection Activities (FERC-725R); Comment Request; Revision

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of revised information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the renewal with revisions of currently approved FERC-

725R (Mandatory Reliability Standards: BAL Reliability Standards). The Commission is submitting FERC–725R with revisions to the Office of Management and Budget (OMB) for review. Any interested person may file comments directly with OMB and should address a copy of those comments to the Commission as explained below.

DATES: Comments on the collection of information are due January 28, 2021.

ADDRESSES: Send written comments on FERC–725R, as revised, to OMB through www.reginfo.gov/public/do/PRAMain, Attention: Federal Energy Regulatory Commission Desk Officer. Please identify the OMB control number (1902–0268) in the subject line. Your comments should be sent within 30 days of publication of this notice in the **Federal Register**.

Please submit copies of your comments to the Commission (identified by Docket Nos. IC20–23–000 and RD20–9–000) by one of the following methods:

- *eFiling at Commission's Website:* <http://www.ferc.gov/docs-filing/efiling.asp>.
- *U.S. Postal Service Mail:* Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.
- Effective July 1, 2020, delivery of filings other than by eFiling or the U.S. Postal Service should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Instructions

OMB submissions must be formatted and filed in accordance with submission guidelines at www.reginfo.gov/public/do/PRAMain; Using the search function under the “Currently Under Review field,” select Federal Energy Regulatory Commission; click “submit” and select “comment” to the right of the subject collection.

FERC submissions must be formatted and filed in accordance with submission guidelines at: <http://www.ferc.gov>. For user assistance, contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208–3676 (toll-free).

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/downloading comments and issuances in this docket may do so at <http://www.ferc.gov>.

FOR FURTHER INFORMATION CONTACT: Ellen Brown may be reached by email at DataClearance@FERC.gov and telephone at (202) 502–8663.

SUPPLEMENTARY INFORMATION:

Title: FERC–725R, Mandatory Reliability Standards: BAL Reliability Standards.

OMB Control No.: 1902–0268.

Type of Request: Three-year request for renewal with revisions of the FERC–725R information collection (IC) requirements.

Abstract: On August 8, 2005, Congress enacted into law the Electricity Modernization Act of 2005, which is Title XII, Subtitle A, of the Energy Policy Act of 2005 (EPAc 2005).¹ EPAc 2005 added a new section 215 to the Federal Power Act (FPA), which requires a Commission-certified Electric Reliability Organization (ERO) to develop mandatory and enforceable Reliability Standards, which are subject to Commission review and approval. Once approved, the Reliability Standard may be enforced by the ERO subject to Commission oversight, or the Commission may independently enforce Reliability Standards.²

On February 3, 2006, the Commission issued Order No. 672, implementing section 215 of the FPA.³ Pursuant to Order No. 672, the Commission certified one organization, the North American Electric Reliability Corporation (NERC), as the ERO.⁴ The Reliability Standards developed by the ERO and approved by the Commission apply to users, owners and operators of the Bulk-Power System as set forth in each Reliability Standard.

Information Collection Components Not Affected by Docket No. RD20–9–000

On August 28, the Commission published a notice that it is seeking renewal of FERC–725R (85 FR 53358). The Commission invited public comments, but received none. At present, FERC–725R includes the following nation-wide Reliability Standards that would not be affected by Docket No. RD20–9–000:⁵

¹ Energy Policy Act of 2005, Public Law 109–58, Title XII, Subtitle A, 119 Stat. 594, 941 (codified at 16 U.S.C. 824o).

² 16 U.S.C. 824o(e)(3).

³ *Rules Concerning Certification of the Electric Reliability Organization; and Procedures for the Establishment, Approval, and Enforcement of Electric Reliability Standards*, Order No. 672, FERC Stats. & Regs. ¶ 31,204, order on reh'g, Order No. 672–A, FERC Stats. & Regs. ¶ 31,212 (2006).

⁴ *North American Electric Reliability Corp.*, 116 FERC ¶ 61,062, order on reh'g and compliance, 117 FERC ¶ 61,126 (2006), order on compliance, 118 FERC ¶ 61,190, order on reh'g, 119 FERC ¶ 61,046 (2007), *aff'd sub nom. Alcoa Inc. v. FERC*, 564 F.3d 1342 (D.C. Cir. 2009).

⁵ There are also regional BAL Reliability Standards. They are not included in FERC–725R and are not discussed here. The regional BAL Reliability Standards are covered under other OMB Control Nos.

- BAL–001–2,⁶ Real Power Balancing Control Performance. Reliability Standard BAL–001–2 is designed to ensure that applicable entities balance generation and load by maintaining system frequency within narrow bounds around a scheduled value, and it improves reliability by adding a frequency component to the measurement of a Balancing Authority's Area Control Error (ACE).⁷

- BAL–002–3,⁸ Disturbance Control Standard—Contingency Reserve for Recovery from a Balancing Contingency Event. This standard ensures that a responsible entity, either a balancing authority or reserve sharing group, is able to recover from system contingencies by deploying adequate reserves to return their Area Control Error to defined values and replacing the capacity and energy lost due to generation or transmission equipment outages.

- BAL–005–1,⁹ Balancing Authority Control. This standard establishes requirements for acquiring data necessary to calculate Reporting Area Control Error (Reporting ACE). The standard also specifies a minimum periodicity, accuracy, and availability requirement for acquisition of the data and for providing the information to the System Operator. It requires balancing authorities to maintain minimum levels of annual availability of 99.5% for each balancing authority system for calculating Reporting ACE.

Information Collection Components Affected by Docket No. RD20–9–000

On December 19, 2019, NERC submitted a petition seeking Commission approval for proposed Reliability Standard BAL–003–2. On May 20, 2020, the Commission noticed the petition in Docket No. RD20–9–000. Interventions, comments, and protests were due on or before June 29, 2020. None were received. The Commission approved Reliability Standard BAL–003–2 on July 15, 2020 in a Delegated Letter Order (DLO).¹⁰

On August 26, 2020, the Commission published a notice of revision of FERC–725R in Docket No. RD20–9–000 (85 FR

⁶ It was approved in Docket No. RM14–10.

⁷ Area Control Error is the “instantaneous difference between a Balancing Authority's net actual and scheduled interchange, taking into accounts the effects of Frequency Bias, correction for meter error, and Automatic Time Error Correction (ATEC), if operating in the ATEC mode. ATEC is only applicable to Balancing Authorities in the Western Interconnection.” NERC Glossary.

⁸ It was approved in Docket No. RD18–7.

⁹ It was approved in Docket No. RM16–13.

¹⁰ The DLO is posted in eLibrary at <http://elibrary.ferc.gov/idmws/common/OpenNat.asp?fileID=15585069>.

52584). The Commission received no comments in response to the notice of revision. The Commission now seeks renewal of FERC-725R with the revisions that the Commission has approved in Docket No. RD20-9-000.

Type of Respondent: Balancing Authorities, Response Sharing Group,

and Frequency Response Sharing Group.

*Estimate of Annual Burden:*¹¹ Our estimate of the number of respondents affected is based on the NERC Compliance Registry as of July 17, 2020.¹² According to the Compliance Registry, NERC has registered 97

Balancing Authorities (BA), 11 Response Sharing Groups (RSG), and 1 Frequency Response Sharing Group (FRSG) within the United States, as noted. The burden estimates reflect the number of affected entities for each standard. Estimates for the average annual burden and cost¹³ follow.

FERC-725R, AS REVISED BY RD20-9

Function	Number & type of respondents (1)	Number of annual responses per respondent (2)	Total number of annual responses (1) × (2) = (3)	Average burden hours & cost (\$) per response (4)	Total annual burden hours & total annual cost (\$) (3) × (4) = (5)
BAL-001-2					
BA Reporting Requirements	97	1	97	8 hrs.; \$561.52	776 hrs.; \$54,467.44.
BA Recordkeeping Requirements	97	1	97	4 hrs.; \$164.12	388 hrs.; \$15,919.64.
BAL-002-3					
BA & RSG Reporting Requirements	108	1	108	8 hrs.; \$561.52	864 hrs.; \$60,644.16.
BA & RSG Recordkeeping Requirements.	108	1	108	4 hrs.; \$164.12	432 hrs.; \$17,724.96.
BAL-003-2 (as approved in Docket No. RD20-9-000)					
BA & FRSG Reporting Requirements	98	28	2,744	8 hrs.; \$561.52	21,952 hrs.; \$1,540,810.88.
BA & FRSG Recordkeeping Requirements.	98	1	98	2 hrs.; \$82.06	196 hrs.; \$8,041.88.
BAL-005-1					
BA Reporting Requirements	97	1	97	1 hr.; \$70.19	97 hrs.; \$6,808.43.
BA Recordkeeping Requirements	97	1	97	1 hr.; \$41.03	97 hrs.; \$3,979.91.
Sub-Total for Reporting Requirements.	23,689 hrs.; \$1,662,730.91.
Sub-Total for Recordkeeping Requirements.	1,113 hrs.; \$45,666.39.
Total for Ferc-725R (rounded)	24,802 hrs.; \$1,708,397.30.

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use

of automated collection techniques or other forms of information technology.

Dated: December 21, 2020.
Kimberly D. Bose,
Secretary.
