Reponses decrease substantially due to <i>change in regulation</i> :			
1) large reduction in number of compliance reports from 30 to 6; PTDs consolidated in 1090			
2) nearly all quarterly reporting eliminated or converted to annual			
3) large reduction in parameters tested/reported from 13 to 4			
4) streamlining of PTDs and attest engagement requirements			
Hours rise slightly due to need to familiarize with new regulations/one time programming.			
Overall costs (all costs) decrease modestly, approximately 10.5% lower than existing collections.
