## General Information

On November 19, 2007, the Federal Communications Commission (“FCC” or “Commission”) released a Report and Order (FCC 07-186) adopting new cost recovery methodologies for the various forms of TRS. For traditional TRS, STS, and CTS, the Commission adopted the MARS Plan. One MARS rate is calculated that applies to Interstate TRS and STS, and one MARS rate is calculated that applies to Interstate CTS.

Under the MARS plan each January the Fund Administrator will request each

state TRS administrator, and each provider of TRS, STS, and CTS to provide the following data for the previous calendar year: (1) per-minute compensation rates for intrastate traditional TRS, STS, and CTS; (2) whether the rate applies to session minutes or conversation minutes; (3) the number of intrastate session minutes for traditional TRS, STS, and CTS; and (4) the number of intrastate conversation minutes for traditional TRS, STS, and CTS. If the contractual per-minute compensation rate does not include all of the costs paid by the state to the provider for the relay service, the state should also list other amounts paid to the provider during the relevant calendar year. All information submitted will be considered by RLSA to be confidential.

The intrastate minutes also include allocated 800-number, 900-number, and inbound two-line CTS minutes allocated as intrastate minutes (FCC DA 08-1476 ¶15). These allocated intrastate minutes must be included in the MARS calculation to ensure the rate reflects all intrastate minutes compensated by the states.

### Completing the “Rate and Demand Worksheet”

Per the Commission Report and Order FCC 07-186, each state TRS administrator and each provider of interstate TRS and STS is to provide the following data for the previous calendar year: per-minute compensation rates for intrastate traditional TRS and STS; whether the rate applies to session minutes or conversation minutes; the number of intrastate session minutes for traditional TRS and STS; and the number of intrastate conversation minutes for traditional TRS and STS.

Per the Commission Report and Order FCC 07-186, each state administrator and each provider of CTS is to provide the following data for the previous calendar year: per-minute compensation rates for intrastate CTS; whether the rate applies to session minutes or conversation minutes; the number of intrastate session minutes for CTS; and the number of intrastate conversation minutes for CTS.

Incentives, whether direct or indirect, that relate to usage are prohibited for any form of TRS; any types of incentives for any form of TRS, whether direct or indirect, are not reasonable costs of providing TRS.

### Questions:

**Q:** My state is somewhat unique among states as we pay a monthly TRS rate based on center operating costs, not a per minute compensation rate as requested. How do I best capture that information on the form for you to use?

**A:** Do not complete the rate portion of the “rate and demand” form because it obviously does not apply to this situation. We are also interested in the amount of TRS demand in the prior year, so please enter the number of minutes, if possible.

In the form, “Add. Cost Paid to Provider”, please complete this form. In the “amount” column, enter the annual amount paid to the provider. However, if the rate was established for a portion of the year, enter the amount paid for that portion. Indicate in the rate start and end date columns, the portion of the year that the rate was in effect. Use a separate row each time the rate changed.

**Q:** Our rate for STS is included in the monthly TRS rate. Do I list STS on the form separately, or note that the monthly TRS rate includes STS in the “provider” column?

**A:** In the “description” column, explain how the compensation is determined. If STS and TRS are combined, indicate that. Do not try to make an artificial separation of the payments if there is no basis for the separation. However, if you know the costs for TRS separately from the costs of STS, you can provide that information in the description column.
