

Public Service Award

Honoring Service in promoting Public Understanding of Science and Engineering

The National Science Board is no longer accepting nominations for its 2018 Honorary Awards. Please return for information on 2019 nominations in summer 2018.

The National Science Board Public Service Award honors individuals and groups that have made substantial contributions to increasing public understanding of science and engineering in the United States. These contributions may be in a wide variety of areas that have the potential of contributing to public understanding of and appreciation for science and engineering – including mass media, education and/or training programs, and entertainment.

Public Service Award Recipients (/nsb/awards/public_recipients.jsp)

ELIGIBILITY AND SELECTION CRITERIA

Candidates for the NSB Public Service Award should have demonstrated outstanding leadership and accomplishment in meeting the following selection criteria:

- Increased the public's understanding of the processes of science and engineering through scientific discovery, innovation, and its communication to the public.
- Encouraged others to help raise the public understanding of science and technology.
- Promoted the engagement of scientists and engineers in public outreach and scientific literacy.
- Contributed to the development of broad science and engineering policy and its support.
- Influenced and encouraged the next generation of scientists and engineers.
- Achieved broad recognition outside of the candidate's area of specialization.
- Fostered awareness of science and technology among broad segments of the population.

Please note that Members of the U.S. Government are not eligible for this award.

NOMINATION GUIDELINES

Nominations for an individual must include:

1. A current curriculum vita without publications (no more than 3 pages).
2. A narrative statement (no more than 5 pages) addressing the following:
 - a. the candidate's public service activities in science and engineering, and
 - b. the candidate's contributions to public understanding of science and engineering, as they relate to the selection criteria.
3. Contact information of candidate and nominator (mailing address, email address, phone number).

Nominations for a group must include:

1. A narrative statement (no more than 5 pages) addressing the following:

National Science Board Public Service Award

Privacy Act and Public Burden Statements

Privacy Act Statement

The information requested on the application materials is solicited under the authority of the National Science Foundation Act of 1950, as amended. It will be used in connection with the selection of qualified applicants and may be disclosed to qualified reviewers and staff assistants as part of the review process, and to government contractors as necessary to complete assigned work, and to a court or party in a court or Federal administrative proceeding if the government is a party.

Notice of the decision may be given to nominators, and disclosure may be made of awardees' names, home institutions, and field of study for public information purposes including press releases. See Systems of Records, NSF-12, "Fellowships and Other Awards," 63 Federal Register 265 (January 5, 1998). Submission of the information is voluntary; however, failure to provide full and complete information may reduce the possibility of receiving an award.

Public Burden Statement

Pursuant to 5 CFR 1320.5 (b), an agency may not conduct or sponsor, and a person is not required to respond to an information collection unless it displays a valid OMB control number. The OMB control number for this collection is 3145-0035. Public reporting burden for this collection of information is estimated to average 15 hours per response, including the time for reviewing instructions. Send comments regarding this burden estimate and any other aspect of this collection of information, including suggestions for reducing this burden, to:
