

Kodiak Roaded Area, April-August Bird and Egg Harvest Report

As a Kodiak roaded area permit holder, you are required to complete and return by mail a harvest report, even if you did not harvest birds or eggs. Your responses are confidential. You are receiving this reminder because we have not yet received your report. To avoid future notifications, please complete and return this report now. Harvest estimates are used to:

- Document the importance of subsistence uses of migratory birds. ▪ Protect sustainable subsistence harvests. ▪ Protect our bird resources. ▪ Assess whether harvest regulations are appropriate.

Instructions for completing your report:

1. Each individual permit holder must complete her/his own report. If more than one person in a household obtained a permit, each person must answer her/his individual report.
2. Write your permit number and date in the white boxes at the top of the first report page.
3. For each season, checkmark in the "YES" or "NO" white circle indicating whether you harvested birds/eggs. In the fields provided close to bird drawings, report numbers of all birds and eggs you harvested, including those that you gave to other people.
4. If you harvested with other people, report only your share of the harvest.
5. Do not report birds or eggs you harvested in other places and time of the year.
6. Do not report birds or eggs received from other people.
7. Report numbers of birds and eggs as individual units. For instance, if you harvested eggs using a 5-gal bucket or other kind of container, specify how many eggs.
8. Write comments in the box provided at the bottom of each seasonal report sheet (weather, hunting conditions, access to hunting areas, unusual birds seen, permit and reporting process, etc.).
9. Fold together the two report sheets, put them in the pre-stamped envelope provided, close it, and mail it to the pre-printed address.

Quyanaasinaq, thank you! We'll share combined report results with your community.

Questions about harvest reporting? Give us a call:

Division of Subsistence, Alaska Department of Fish and Game: 907-267-2302 (Anchorage)

Kodiak Roded Area, Spring-Summer Bird and Egg Harvest Report (Post-Season)

1. Permit #: _____

2. Date report was completed: ____ / ____ / 2021

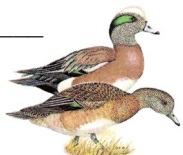

(2 letters followed by 3 numbers)

3. Spring: Did you harvest birds or eggs from **2 April to 30 June?** (check one) Yes No

Please write number of birds and eggs you harvested in the Kodiak roded area.
