F. UNDERTAKING OF APPLICANT

The undersigned, as a duly authorized representative of the applicant, hereby agrees that the applicant intends to apply for a permit pursuant to the regulations and shall, if the applicant receives small operator assistance:

1. Fully cooperate with all laboratories, their employees and agents that will produce the determination and statement:
2. When requested, submit coal production information for the area affected by this application and for any other mining operation in which the applicant has an interest or an operation which has an interest in the applicant; said information is to be furnished with thirty (30) days of the end of twelve (12) months following issuance of the permit for which assistance is provided; and,
3. Notify the Office of Surface Mining Reclamation and Enforcement in writing with 10 days of any change (a) in ownership or mining plans that may affect assistance eligibility or permit eligibility pursuant to the information in this application, or (b) that may require a change in the scope of work being performed by the contractor.
4. Refund, within 30 days to the Office of Surface Mining Reclamation and Enforcement, the full amount for small operator assistance paid pursuant to this application (with computed interest penalty) in accordance with 795.12(a), upon presentation of appropriate receipts, of any of the following conditions occur:
 - (a) Information submitted as required by paragraph (2) above or from the abandoned mine lands fee compliance system shows actual and attributed coal production to be in excess of 300,000 tons during the 12-month period following issuance of the permit for which assistance is provided;
 - (b) Knowingly submits false information;
 - (c) Fails to submit a permit application within one (1) year from the date of receipt of the approved laboratory report;
 - (d) Fails to commence mining after obtaining a permit;
 - (e) Sells, transfers or assigns the permit to another person or company and the transferee's total actual and attributed production exceeds the 300,000 ton annual production limit during the 12-month period following permit issuance. In this case, the applicant and its successor shall be jointly and severally obligated for reimbursement.

5. The operator, represented by the authorized company official (signature below), agrees to assume responsibility for the care, maintenance and eventual disposal of any ground-water observation wells drilled on their behalf. Upon completion of the Small Operator Assistant Program study, the use of and responsibility for these wells shall transfer to the operator. Furthermore, it shall be the responsibility of the operator to meet all appropriate State and Federal regulations regarding the continued use and/or eventual abandonment of these wells.

G. AFFIDAVIT
