

Justification for Non-Substantive Change - 1035-0004

The web address on the form is not working. We own the address but we now don't have a host. The Web Administrator was going to try to get a certificate in place and redirect from that website. We have uploaded a new version of the form returning to the use of the old doi.gov/ost site. Once the new site btfa.gov site is set it up, respondents will automatically be rerouted to the corrected site.
