The authority for collecting personally identifiable information (PII) through the FAADroneZone website for purposes of registering a small (s)UAS is contained in 49 U.S.C. §§ 44101–44106 and §§ 44110–44113 which require aircraft to be registered as a condition of operation and establish the requirements for registration and registration processes. Pursuant to 49 U.S.C. § 44807, § 44809, and 14 C.F.R. § 107.13, persons operating small unmanned aircraft under 14 C.F.R. part 107 must comply with the registration requirements. Additionally, persons operating in accordance with the statutory exception for limited recreational operations of unmanned aircraft under 49 U.S.C. § 44809 must comply with the registration requirements pursuant to subsection (a)(8) of that section. The principal purpose for which information collected is intended to be used is to complete the aircraft registration process and identify the aircraft to its owner. Disclosure of this information is mandatory, and operation of a sUAS in violation of the applicable registration rules may result in enforcement action and/or civil penalties pursuant to 14 C.F.R. Part 13. Additionally, the failure to provide the required information will prevent the FAA from registering your aircraft which is required under 49 U.S.C. § 44101 to be completed prior to operation of the aircraft. The information collected to complete the aircraft registration process and issue the unique identifier is included in a Privacy Act System of Records known as Department of Transportation (DOT)/FAA 801, titled "Aviation Registration Records." Records from this system of records may be disclosed in accordance with the routine uses that appear in /DOT/FAA 801, as published in the Federal Register at 81 Federal Register 54187 (August 15 2016), available at <https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices>.
