BILLING CODE 9111-19-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7041-N-01; OMB Control No. 2528-0259]

60-Day Notice of Proposed Information Collection: Family Options Study: Long-Term Followup

AGENCY: Office of the Assistant Secretary for Policy Development and Research, HUD.

ACTION: Notice.

SUMMARY: The U.S. Department of Housing and Urban Development (HUD) is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 60 days of public comment.

DATES: *Comments Due Date:* March 12, 2021.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Anna P. Guido, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Room 4176, Washington, DC 20410-5000; telephone 202-402-5534 (this is not a toll-free number) or email at Anna.P.Guido@hud.gov for a copy of the proposed forms or other available

information. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

FOR FURTHER INFORMATION CONTACT:

Anna P. Guido, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Washington, DC 20410; email Anna P. Guido at Anna.P.Guido@hud.gov or telephone 202-402-5535. This is not a toll-free number. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

Copies of available documents submitted to OMB may be obtained from Ms. Guido.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Family Options Study: Long-Term Followup.

OMB Approval Number: 2528-0259.

Type of Request: Reinstatement without change of a previously approved collection.

Form Number: NA.

Description of the need for the information and proposed use: The purpose of this proposed information collection is to locate the families that enrolled in the U.S. Department of Housing and Urban Development's (HUD) Family Options Study between September 2010 and January 2012 and to update their current contact information.

The Family Options Study is a multi-site experiment designed to test the impacts of different housing and service interventions on homeless families in five key domains: Housing stability, family preservation, adult well-being, child well-being, and self-sufficiency. Both the design and the scale of the study provides a strong basis for conclusions about the relative impacts of the interventions over time, and data collected at two previous points in time, twenty (20) months after random

assignment and thirty-seven (37) months after random assignment, yielded powerful evidence regarding the positive impact of providing a non-time-limited housing subsidy to a family experiencing homelessness. It is possible, though, that some effects of the various interventions might change over time or take longer to emerge, particularly for child well-being. Therefore, HUD plans to conduct a followup survey of study families roughly eleven years after enrollment into the study. Locating, reengaging, and updating the contact information for study families will be critical to supporting a healthy response rate for the planned 11-year followup survey.

This **Federal Register** Notice provides an opportunity to comment on the Participant Update Contact Form that will be used to reengage with study families and gather updated contact information.

Respondents: Families enrolled in the Family Options Study.

Estimated Number of Respondents: This information collection will affect 2,241 individuals.

Estimated Time per Response: Completion of the Participant Update Contact Form is expected to take, on average, five minutes, or 0.08 hours.

Frequency of Response: The Participant Update Contact Form will be completed by each family a single time.

Estimated Total Annual Burden Hours: The estimated total annual burden of this information collection is 179 hours.

Estimated Total Annual Cost: The estimated total annual cost for this information collection is \$1,817. The estimated total annual cost is calculated by multiplying the total number of respondent hours (179) by \$10.15. The amount of \$10.15 was calculated using the minimum hourly wage (\$7.25) plus an assumed 40 percent for fringe benefits.

Respondent's Obligation: Voluntary.

Legal Authority: The survey is conducted under Title 12, United States Code, Section 1701z and Section 3507 of the Paperwork Reduction Act of 1995, 44, U.S.C., 35, as amended.

ANNUALIZED BURDEN TABLE

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Cost
Participant Update Contact Form	2,241	1	1	.08	179	\$10.15	\$1,816.85
Total	2,241	179	1,816.85

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

The Principal Deputy Assistant Secretary for Policy Development and Research, Michael J. Marshall, having reviewed and approved this document, is delegating the authority to electronically sign this document to submitter, Nacheshia Foxx, who is the **Federal Register** Liaison for HUD, for purposes of publication in the **Federal Register**.

Nacheshia Foxx,

Federal Register Liaison for the Department of Housing and Urban Development.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R1-ES-2019-0091; FXES111 40100000-212-FF01E00000]

Record of Decision for the Final Environmental Impact Statement for the Deschutes Basin Habitat Conservation Plan, Klamath, Deschutes, Jefferson, Crook, Wasco, and Sherman Counties, Oregon

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; record of decision and habitat conservation plan.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the

availability of a record of decision (ROD) for the proposed issuance of an Endangered Species Act (ESA) permit for the Deschutes Basin Habitat Conservation Plan (HCP). The ROD documents the Service's decision to issue an incidental take permit (ITP) to the Deschutes Basin Board of Control (DBBC)'s eight-member irrigation districts, and the City of Prineville (applicants). As summarized in the ROD, the Service has selected Alternative 2—the Proposed Action, which includes implementation of the HCP and issuance of a 30-year ITP authorizing take of two threatened species listed under the ESA that may occur incidental to covered activities in the plan area over the permit term.

ADDRESSES: You may obtain copies of the ROD and other documents associated with the decision by the following methods.

- **Internet:** <http://www.regulations.gov> under Docket No. FWS-R1-ES-2019-0091, or at <https://www.fws.gov/Oregonfwo/articles.cfm?id=149489716>.

- **Upon Request:** You may request alternative formats of the documents directly from the Service (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT:

Bridget Moran, by telephone at 541-383-7146, or by email at bridget_moran@fws.gov. Hearing or speech impaired individuals may call the Federal Relay Service at 800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a record of decision (ROD) for the proposed issuance of an Endangered Species Act (ESA) section 10(a)(1)(B) incidental take permit (ITP) to the Deschutes Basin Board of Control (DBBC) member districts (Arnold, Central Oregon, Lone Pine, North Unit, Ochoco, Swalley, Three Sisters, and Tumalo Irrigation Districts) and the City of Prineville (collectively referred to as the applicants) in Klamath, Deschutes, Jefferson, Crook, Wasco, and Sherman Counties, Oregon. The ROD documents the Service's decision to issue an ITP to the applicants. As summarized in the ROD, the Service has selected Alternative 2, the Proposed Action (described below), which includes implementation of a Habitat Conservation Plan (HCP) and issuance of the ITP authorizing incidental take of the federally threatened Oregon spotted frog (*Rana pretiosa*) and the threatened bull trout (*Salvelinus confluentus*) over a 30-year period. The applicants have also requested a separate ITP covering take of the federally threatened Middle

Columbia River steelhead trout (*Oncorhynchus mykiss*) and the non-listed sockeye salmon (*O. nerka*) from the National Marine Fisheries Service (NMFS). The Service and NMFS (jointly, the Services) make independent decisions regarding coverage for incidental take of the species under their respective jurisdictions. NMFS's decision is not addressed in the Service's ROD.

We are advising the public of the availability of the ROD, developed in compliance with agency decision-making requirements of the National Environmental Policy Act of 1969, as amended (NEPA), and the final HCP as submitted by the applicants. The Service published a notice of availability (NOA) of the Draft EIS in the **Federal Register** on October 4, 2019 (84 FR 53164), and jointly published a NOA of the Final EIS with NMFS on November 6, 2020 (85 FR 71086). All alternatives were described in detail, evaluated, and analyzed in the Draft and Final EIS. As the EIS was developed prior to the September 14, 2020, effective date for the Council on Environmental Quality's updated NEPA regulations, the Final EIS and ROD were completed consistent with the previous regulations (40 CFR 1506.13).

Background

All eight water districts are quasi-municipal corporations formed and operated according to Oregon State law to distribute water to irrigators (patrons) within designated geographic boundaries and in accordance with the individual water rights held by those patrons. The City of Prineville operates City-owned infrastructure and provides essential services—including public safety, municipal water supply, and sewage treatment—for more than 9,000 residents. The applicants have determined that continued operation of irrigation and essential services (covered activities) requires ITPs to address unavoidable incidental take of species listed under the ESA (covered species), which is ongoing.

The applicants have proposed a conservation program to avoid, minimize, and mitigate the impacts of taking of the covered species. The HCP addresses the adverse effects of the covered activities on the covered species by reducing or eliminating those effects to the maximum extent practicable, and by mitigating effects that cannot be eliminated altogether. In general, adverse effects on listed species can result from direct harm or injury of individuals of the species, and through changes in habitat that interfere with the essential life activities of the species.
