

departures from Tier 1 information in the certified DCD incorporated by reference in 10 CFR part 52, appendix D, “Design Certification Rule for the AP1000 Design,” as part of license amendment request (LAR) 20–001, “Unit 3 Auxiliary Building Wall Seismic Gap Requirements.”

For the reasons set forth in Section 3.2 of the NRC staff’s Safety Evaluation, the Commission finds that:

A. The exemption is authorized by law;

B. the exemption presents no undue risk to public health and safety;

C. the exemption is consistent with the common defense and security;

D. special circumstances are present in that the application of the rule in this circumstance is not necessary to serve the underlying purpose of the rule;

E. the special circumstances outweigh any decrease in safety that may result from the reduction in standardization caused by the exemption; and

F. the exemption will not result in a significant decrease in the level of safety otherwise provided by the design.

2. Accordingly, SNC is granted an exemption from the certified DCD Tier 1 information, with corresponding changes to Appendix C of the facility Combined License, as described in the licensee’s request dated February 7, 2020. This exemption is related to, and necessary for, the granting of License Amendment No. 182, which is being issued concurrently with this exemption.

3. As explained in Section 6.0 of the NRC staff’s Safety Evaluation, this exemption meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment needs to be prepared in connection with the issuance of the exemption.

4. This exemption is effective as of the date of its issuance.

III. License Amendment Request

By letter dated February 7, 2020, SNC requested that the NRC amend COL NPF–91 for VEGP Unit 3. The proposed amendment is described in Section I of this **Federal Register** notice.

The Commission has determined for this amendment that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s rules and regulations. The Commission has made the findings required by the Act and the Commission’s rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to the COL, proposed no significant hazards consideration determination, and opportunity for a hearing in connection with this action, was published in the **Federal Register** on March 10, 2020 (85 FR 13944). No comments were received during the 30-day comment period.

The Commission has determined that this amendment satisfies the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for this amendment.

IV. Final No Significant Hazards Consideration Determination

A request for hearing was filed on May 11, 2020, by the Blue Ridge Environmental Defense League and its chapter, Concerned Citizens of Shell Bluff (collectively “BREDL”) (ADAMS Package Accession No. ML20132D299). Under its regulations, the Commission may issue and make an amendment immediately effective, notwithstanding the pendency before it of a request for a hearing from any person, in advance of the holding and completion of any required hearing, where it has made a final determination that no significant hazards consideration is involved. While the hearing request was pending before an Atomic Safety and Licensing Board (ASLB), the NRC staff issued the amendment on August 4, 2020, after making a final determination that no significant hazards consideration was involved, as discussed in Section 4.0 of the combined safety evaluation.

Subsequently, the ASLB denied BREDL’s request for hearing and terminated the proceeding in its order LBP–20–08, dated August 10, 2020 (ADAMS Accession No. ML20223A385). On September 4, 2020, BREDL appealed the ASLB decision (ADAMS Accession No. ML20248J166). On December 22, 2020, the Commission affirmed the ASLB’s decision (ADAMS Accession No. ML20357A101).

V. Conclusion

For the reasons set forth in the combined safety evaluation, the staff granted the exemption and issued the amendment that SNC requested on February 7, 2020. The exemption and amendment were issued on August 4, 2020, as part of a combined package to SNC (ADAMS Package Accession No. ML20132A032).

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2020–0221 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search

for Docket ID NRC–2020–0221. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC–2020–0221 on this website.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. A copy of the collection of information and related instructions may be obtained without charge by accessing ADAMS Accession No. ML20205L413. The supporting statement is available in ADAMS under Accession No. ML20335A465.

- *Attention*: The PDR, where you may examine and order copies of public documents is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

- *NRC's Clearance Officer*: A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC–2020–0221 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment

submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Form 483, "Registration Certificate—In Vitro Testing with Byproduct Material Under General License." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on October 8, 2020 (85 FR 63591).

1. *The title of the information collection*: NRC Form 483, "Registration Certificate—In Vitro Testing with Byproduct Material Under General License."

2. *OMB approval number*: 3150–0038.

3. *Type of submission*: Extension.

4. *The form number if applicable*: NRC Form 483.

5. *How often the collection is required or requested*: There is a one-time submittal of information to receive a validated copy of the NRC Form 483 with an assigned registration number. In addition, any changes in the information reported on the NRC Form 483 must be reported in writing to the NRC within 30 days after the effective date of the change.

6. *Who will be required or asked to respond*: Any physician, veterinarian in the practice of veterinary medicine, clinical laboratory, or hospital which desires a general license to receive, acquire, possess, transfer, or use specified units of byproduct material in certain in vitro clinical or laboratory tests.

7. *The estimated number of annual responses*: 6 responses.

8. *The estimated number of annual respondents*: 6 respondents.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request*: 1.12 hours.

10. *Abstract*: Section 31.11 of title 10 of the *Code of Federal Regulations* (10 CFR), established a general license authorizing any physician, clinical laboratory, veterinarian in the practice of veterinary medicine, or hospital to

possess certain small quantities of byproduct material for in vitro clinical or laboratory tests not involving the internal or external administration of the byproduct material or the radiation therefrom to human beings or animals. Possession of byproduct material under 10 CFR 31.11 is not authorized until the physician, clinical laboratory, veterinarian in the practice of veterinary medicine, or hospital has filed the NRC Form 483 and received from the Commission a validated copy of the NRC Form 483 with a registration number. The licensee can use the validated copy of the NRC Form 483 to obtain byproduct material from a specifically licensed supplier. The NRC incorporates this information into a database which is used to verify that a general licensee is authorized to receive the byproduct material.

Dated: January 6, 2021.
