Form Approved OMB No. 0920-1129 Exp. Date 08/31/2019

## **Pre-Training Survey**

You are invited to take part in a survey for health professionals. The purpose of this survey is to understand the opinions and practices of health professionals around their patients'/clients' alcohol use and on the prevention, identification, and treatment of fetal alcohol spectrum disorders. Your feedback is important as it will help assess the efficacy of trainings and identify the needs of health professionals to better address the services they provide to patients/clients around alcohol consumption and/or the effects of alcohol use during pregnancy.

This survey will take approximately 9 minutes to complete and your responses will be kept secure. You will be asked to create a unique identity code which will be used to invite you to take a similar survey after six months to assess how useful this training has been in your practice with your patients/clients regarding their alcohol use.

Your participation is voluntary; you may decline to answer any question and you have the right to stop the survey at any time. Any information you provide will be presented in aggregate in a report and no individual identifying information will be included. There will be no costs for participating, nor will you benefit from participating.

The anonymous linkage code below will be used to match data from different evaluation forms without using your name or information that can identify you.						
Please complete the following items for your anonymous code:						
First letter in mother's first name:	First letter in father's first name:					
First digit in your social security number:	Last digit in your social security number:					

CDC estimates the average public reporting burden for this collection of information as 9 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-1129).

## PRE-TRAINING SURVEY

	What type of training are you attending?	Vebinar series	FASD or SBI training
<u>:</u>	1. I found out about this training from: (Check all that  A professional organization  a. Please provide name of the professabout this training:  b. How did you find out about this training:  (Check all that apply.) 6.	pregnand	vice would you give your patient/client about how much alcohol is safe to drink during by? (Check only one response.) One glass of wine per day One light beer per day One shot of hard alcohol per day There is no known safe amount of alcohol consumption during pregnancy.
7.		it safe to drink alcohol during pregnancy? (Check only one response.)  During the first three months  During the last three months  Once in a while  Never
8.	only one	the most effective strategy to reduce fetal alcohol spectrum disorders (FASDs)? (Check response.)  Enact laws and other policy strategies that punish pregnant women for drinking alcohol Screen all women of child bearing age for alcohol use and provide intervention as appropriate.  Tell women who you think may have a drinking problem to get help.  Conduct health fairs and other educational events for new mothers that focus on binge drinking.
	women	ne importance of providing counseling to your patients/clients on risky alcohol use in of childbearing age:  Not at all important  Somewhat important  Moderately important  Very important  Extremely important
If you	u are a stı	udent, please skip to Question 12. Otherwise, please continue.
9.	about t	do you (or someone in your practice) ask your patients/clients or their parents/caregivers heir alcohol use? (Check only one response.)  Never  Annually  At each visit  When indicated (please describe:)  Other, please specify
10.		ctice has a consistent process to screen or obtain information from all patients/clients heir alcohol use. (Check only one response.) Yes No Don't Know Not applicable to the patients/clients in my practice setting

a. What does initial patient/client screening for alcohol use consist of in your practice setting? (Check only one response.) ☐ Informal guestions (Do you drink? How often/much do you drink?, etc.). ☐ Formal screening tool or evidence-based/validated screening instrument (AUDIT. AUDIT-C, DAST, CAGE, CRAFFT, NIAAA Youth Alcohol Screen, etc.). ☐ I don't know. b. Who generally conducts the initial screening for alcohol? (Check all that apply.) ■ Nurse (including nurse practitioner) Social worker ☐ Behavioral health specialist (coach) □ Psychologist □ Physician ☐ Physician's Assistant ☐ Medical Assistant ☐ Other, please specify c. Is screening for alcohol use followed by some type of intervention in your practice setting? (Check all that apply.) □ No. there is no patient/client education or intervention done following the initial screening ☐ Yes, all patients/clients are given educational materials/information on "safe" levels of alcohol and health risks associated with consuming too much alcohol ☐ Yes, patients/clients who screen positive for risky alcohol use are asked follow-up questions and provided brief counseling. Yes, patients/clients who screen positive for risky alcohol use are asked follow-up questions and provided with additional resources (e.g., a list of treatment and/or counseling services in the community). □ Not sure if there is an intervention following the initial screening. d. Who generally does the intervention in your practice setting? (Check all that apply.) ■ Nurse (including nurse practitioner) ■ Social worker ☐ Behavioral health specialist (coach) Psychologist Physician ☐ Physician's Assistant ■ Medical Assistant Other, please specify \_\_\_ e. Does your practice bill for screening and brief intervention services? (Check only one response.) ☐ Yes ■ No Not sure In your current position, do you provide services to individuals who may have fetal alcohol spectrum disorders (FASDs)? (Check only one response.) ☐ Yes ■ No ■ Not sure

If yes, please continue. Otherwise, skip to Question 11.

12. On a scale from 1 to 5 where 1 means you strongly disagree with the statement and 5 means you strongly agree, to what extent do you disagree or agree with the following statements. (Select one number per row).

		Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
a.	It is important to routinely screen all patients/clients for alcohol use	1	2	3	4	5
b.	Screening a person for alcohol use confers a stigma to the person being screened	1	2	3	4	5
C.	It is important to screen all pregnant women for alcohol use	1	2	3	4	5
d.	It is important to screen all women of reproductive age for alcohol use	1	2	3	4	5
e.	It is important to educate women of reproductive age, including those who are pregnant, about the effects of alcohol on a developing fetus	1	2	3	4	5
f.	Prenatal alcohol exposure is a potential cause of growth impairment	1	2	3	4	5
g.	Prenatal alcohol exposure is a potential cause of physical, cognitive, and behavioral health problems	1	2	3	4	5

13. On a scale from 1 to 5 where 1 means you are not confident in your skills and 5 means you are totally confident in your skills, how confident are you in your skills to do the following? (Select one number per row).

	Not at all confident in my skills	Slightly confident in my skills	Moderately confident in my skills	Very confident in my skills	Totally confident in my skills
a. Asking women, including pregnant women, about their alcohol use	1	2	3	4	5
b. Having a conversation with patients/clients who indicate risky alcohol use	1	2	3	4	5
c. Educating women of childbearing age, including those who are pregnant, about the effects of alcohol on a developing fetus	1	2	3	4	5
d. Conducting brief interventions for reducing alcohol use	1	2	3	4	5
e. Utilizing resources to refer patients/clients who need formal treatment for alcohol abuse	1	2	3	4	5
f. Inquiring about potential prenatal alcohol exposure for my patients/clients	1	2	3	4	5

14. The questions in this section are designed to explore the attitudes of staff working with people who drink alcohol. There are no right or wrong answers. On a scale of 1 to 5 where 1 means you are strongly disagree and 5 means you strongly agree, please indicate your response to the following statements.

		Strongly agree	Agree	Neither agree or disagree	Disagree	Strongly disagree
a.	I feel I know enough about causes of drinking problems to carry out my role when working with individuals who drink alcohol	1	2	3	4	5
b.	I feel I can appropriately advise my patients about alcohol use and its effects	1	2	3	4	5
C.	I feel I do not have much to be proud of when working with individuals who drink alcohol	1	2	3	4	5
d.	All in all I am inclined to feel I am a failure with individuals who drink alcohol	1	2	3	4	5
e.	I want to work with individuals who drink alcohol	1	2	3	4	5
f.	Pessimism is the most realistic attitude to take towards individuals who drink alcohol	1	2	3	4	5
g.	I feel I have the right to ask patients questions about their alcohol use when necessary	1	2	3	4	5
h.	I feel that my patients believe I have the right to ask them questions about their alcohol use when necessary	1	2	3	4	5
i.	In general, it is rewarding to work with individuals who drink alcohol	1	2	3	4	5
j.	In general I like individuals who drink alcohol	1	2	3	4	5
