Facility Microbiology Laboratory Practices (completed with input from Microbiology Laboratory Lead)				
*1. Does your facility have its own on-site laboratory that performs antimicrobial bacterial susceptibility testing?				
□ Yes □ No				
•	antimicrobial susceptibility testing p	performed? (check one)		
Affiliated Commercial Other local/regional, non-affiliated reference laboratory *2. For the following organisms please indicate which methods are used for: (1) Primary susceptibility testing and (2) Secondary, supplemental, or confirmatory testing (if performed). If your laboratory does not perform susceptibility testing, please indicate the methods used at the outside laboratory.				
Please use the testing codes list		(2) Co con do m.	Comments	
Pathogen	(1) Primary	(2) Secondary	Comments	
Staphylococcus aureus				
Enterobacteriaceae				
1 = Kirby-Bauer disk diffusion	5.1 = MicroScan <u>WalkAway</u>	10 = E test		
2 = Vitek (Legacy)	5.2 = MicroScan auto <u>SCAN</u>	12 = Vancomycin agar scree	n (BHI + vancomycin)	
2.1 = Vitek 2	6 = Other broth micro dilution method	13 = Other (describe in Com	ments section)	
3.1 = BD Phoenix	7 = Agar dilution method			
4 = Sensititre				
*3. Has the laboratory implemented the revised cephalosporin and monobactam breakpoints for Enterobacteriaceae recommended by CLSI as of 2010? \Box Yes				
*4. Has the laboratory implemented the revised carbapenem breakpoints for Enterobacteriaceae recommended by CLSI as of 2010?				
*5. Does the laboratory perform a test for presence of carbapenemase? (this does not include automated testing instrument expert rules) \Box Yes \Box No				
If Yes, please indicate what is done if carbapenemase production is detected: (check one)				
☐ Change susceptible carbapenem results to resistant ☐ Report carbapenem MIC results without an interpretation				
☐ No changes are made in the interpretation of carbapenems, the test is used for epidemiological or infection control practices				
If Yes, which test is routinely □ PCR □ Modified Hodge Test □ mCIM/CIM □ E test		se: (check all that apply) MBL Screen Carba NP Rapid CARB Blue Other (specify):		
☐ Cepheid, BioFire array, \		(1 ·)/		
If Yes, does the laboratory have a policy to routinely notify any of the following when CP-CRE are detected?_				
Physician	Physician			
Infection Control	☐ Yes ☐ No		Continued >>
