## BROTHER, YOU'RE ON MY MIND

Measuring Knowledge, Attitudes & Beliefs for BYOMM Events

# Measuring knowledge Please evaluate each statement per the following scale: Strongly Agree = 1 Neutral = 3

Agree = 2 Disagree = 4

Strongly Disagree = 5

### BEFORE today's event,

|  | Strongly<br>Agree<br>1 | Agree<br>2 | Neutral<br>3 | Disagree<br>4 | Strongly<br>Disagree<br>5 |
|--|------------------------|------------|--------------|---------------|---------------------------|
| I believed mental illness was often confused with effects of drug abuse.                               |                        |            |              |               |                           |
| 10. I believed mental illness was caused by something biological.                                      |                        |            |              |               |                           |
| I believed most people with depression could get better with treatment.                                |                        |            |              |               |                           |
| I believed men displayed signs of depression more often through anger and irritation.                  |                        |            |              |               |                           |
| 13. If any of my relatives or friends had a mental illness, I would have told them not to tell anyone. |                        |            |              |               |                           |
| I believed only people who were weak or overly sensitive let mental illness affect them.               |                        |            |              |               |                           |
| 15. I would not have told anyone if I had depression.  |                        |            |              |               |                           |
| I believed it was a good idea to avoid any discussion of mental illness.                               |                        |            |              |               |                           |

#### AFTER today's event,

|   | Strongly<br>Agree<br>1 | Agree<br>2 | Neutral<br>3 | Disagree<br>4 | Strongly<br>Disagree<br>5 |
|---|------------------------|------------|--------------|---------------|---------------------------|
| 17. I believe mental illness is often confused with effects of drug abuse.                        |                        |            |              |               |                           |
| 18. I believe mental illness is caused by something biological.                                   |                        |            |              |               |                           |
| I believe most people with depression can get better with treatment.                              |                        |            |              |               |                           |
| 20. I believe men display signs of depression more often through anger and irritation.            |                        |            |              |               |                           |
| 21. If any of my relatives or friends had a mental illness, I would tell them not to tell anyone. |                        |            |              |               |                           |
| I believe only people who are weak or overly sensitive let mental illness affect them.            |                        |            |              |               |                           |
| 23. I would not tell anyone if I had depression.  |                        |            |              |               |                           |
| 24. I believe it is a good idea to avoid any discussion of mental illness.                        |                        |            |              |               |                           |

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a current valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648).
