NIH ODSS STRIDES Initiative Training Assessment

Introduction

Thank you for participating in the National Institutes of Health (NIH) Office of Data Science Strategy (ODSS) Science and Technology Research Infrastructure for Discovery, Experimentation, and Sustainability (STRIDES) Initiative training assessment. The assessment will require approximately 2 minutes to complete and gives you the opportunity to provide direct feedback on various aspects of the training. Your feedback will help influence or shape future training programs and will be used to assess the training's overall effectiveness. Thank you for your feedback!

1. Please provide your email address.

[ ]

2. Are you currently participating in the STRIDES Initiative?

◯ Yes
◯ No

Training Feedback

3. Please select the training you most recently participated in. *

Date   -- Please Select -- ▼

4. How effective was the training in achieving the stated learning objectives? *

◯ Met all learning objectives
◯ Met most learning objectives
◯ Met few learning objectives
◯ Met no learning objectives

5. Did the training meet your expectations? If no, please provide details. *

◯ Yes
◯ No - Write In (Required) [ ]

6. Did this training improve your knowledge or competency in commercial cloud? *

◯ Yes
◯ No

6. Did this training improve your knowledge or competency in commercial cloud? *

○ Yes

○ No

7. Was the training relevant to your needs as a potential or current STRIDES Initiative participant? *

Highly Irrelevant ●————————————————————— Highly Relevant

Highly Irrelevant: The training curriculum covered is not applicable and does not benefit your research needs.
Highly Relevant: The training curriculum covered is directly applicable and benefits your research needs.

8. What training topics do you suggest adding to the training curriculum that could benefit you as a current or potential STRIDES Initiative participant? *

9. What were the best and worst aspects of the training? Please include suggestions for improvement.
