If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?
 Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

The potential group of respondents will be visitors to the NIDDK website that choose to engage in a live chat conversation. The website currently receives inquiries through the phone or email, around 4, 236 annually. We anticipate that individuals that typically engage NIDDK's inquiry response center via email or the phone will choose to use the live chat function. Respondents to the live chat will have the option to complete the survey every time they choose to engage in a live chat conversation.
