

Instrument 1: SIRF Phone Meeting with Program Staff Protocol

SIRF Semi Structured Protocol for Initial Phone Call with Program Staff

What is SIRF? What is the purpose of our call?

My name is _____, and I'm a researcher with MDRC/MEF/Insight Policy Research. We're contacting you on behalf of the Strengthening the Implementation of Responsible Fatherhood Programs (SIRF) project. SIRF is a new study sponsored by the federal government examining the implementation challenges and effective solutions that Responsible Fatherhood programs, or programs like them, face. As you know, since 2006, Responsible Fatherhood programs have been supported by dedicated federal funding from the Office of Family Assistance within the U.S. Department of Health and Human Services Administration for Children and Families, or ACF. While there is a growing body of research to learn from regarding fatherhood services, research and evaluation efforts have also uncovered implementation challenges associated with recruiting fathers, supporting them to show up for services, and keeping them engaged in services over time, among others. The Office of Planning, Research, and Evaluation of ACF awarded MDRC and its partners MEF and Insight Policy Research a contract to test innovative approaches to overcome these challenges. The funding for this project comes from the Office of Family Assistance within ACF.

Today, we are calling because we are gathering information to understand areas where select fatherhood programs have the potential for improvement, and how local context informs and aligns with SIRF study design priorities. We thought it would be valuable to learn more about the kinds of services you provide to fathers, specifically [insert organization information] and the challenging and successful aspects of service delivery. Over the next hour, we would like to walk through specific questions about the topics we provided in advance of the meeting. Please know that talking with the SIRF team is completely voluntary, and you can choose not to answer any question you don't want to answer, or to leave the discussion entirely. Any information you share will be kept private and will not be used to evaluate you in any way. I'll be taking some notes in order to keep track of what we discussed here today. They'll be stored securely and will not be shared with anyone outside of the SIRF team. Do you have any questions before we get started?

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB # for this information collection is 0970-0356 and the expiration date is 6/30/2021.
