Assessing the Implementation and Cost of High Quality Early Care and Education Cost Workbook

Introduction and Instructions

Please scroll down to read all instructions.

The Assessing the Implementation and Cost of High Quality Early Care and Education (ECE-ICHQ) project will produce measures of implementation and costs that help us better understand how early childhood programs use their resources to make a difference for children's early childhood experiences and outcomes. This workbook collects information on the cost of operating your early care and education program.

The time required to complete the entire workbook is estimated to be a total of 8.0 hours, including time to review instructions, search existing data resources, gather the data needed, complete the workbook, and review the information with a study team member.

What is this survey about?

This survey is for programs included in the ECE-ICHQ study. It asks questions about the costs of running an early care and education program. It also asks questions about expenditures that are directly related to the center's response to the COVID-19 pandemic. The questions refer to your center, meaning services provided at a specific address or site.

How is the survey organized?

The survey is divided into 11 sections, labeled A through K. Each section appears as a separate worksheet in the workbook. Section A asks general questions about your center. Section B asks questions about the resources the center needed to prepare for operating during the COVID-19 pandemic. Sections BC through J ask about specific types of costs. Section K asks about enrollment and child care hours. You can access each section by clicking on the tabs at the bottom of this page. Please complete the questions in all sections. Please save your file after completing each section.

What time period is covered?

Please report costs for a recent 3-month period (3 continuous months) when the center was open and serving some or all children in person most recently completed fiscal year. The survey refers to the 123-month time frame you select as the "reporting period." Please specify your reporting period (the most recently completed fiscal year) in Section A.

What information will I need to complete the survey?

You will need information about the center's expenditures and resource use. <u>Please use actual expenditure records rather than budgets when gathering information to answer survey questions.</u> Information from budgets does not always represent actual expenditures. Please indicate on each tab the records or other sources of information used to complete that tab.

Who should complete the survey?

A person who is familiar with program expenditures and accounting records, such as a financial manager, should have primary responsibility for completing the survey. This person may need to consult with other people to gather information required to address some questions.

How will survey data be used?

Information gathered through this survey will be used to help estimate the costs of activities related to program quality and learn about the resources centers required to operate during the COVID-19 pandemic. The information in this study will be used only for research purposes and in ways that will not reveal who you are or identify your center. Federal or state laws may require us to show information to government officials (or sponsors) who are responsible for monitoring the safety of this study. Neither you or your center will be identified in any publication from this study.

Thank you for your participation in this important study.

This survey was prepared by Mathematica with support from the Administration for Children and Families, Office of Planning, Research, and Evaluation.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0970-0499. The time required to complete this information collection is estimated to average 8.0 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Health & Human Services, OS/OCIO/PRA, 200 Independence Ave., S.W., Suite 336-E, Washington D.C. 20201, Attention: PRA Reports Clearance Officer

SECTION A: YOUR CENTER

This section requests basic information about your center and the time period for cost information you provide. We use the term "center" to describe all of the early
care and education services for children 0-5 offered by your organization at a single address. Please review the pre-populated information and complete all blank
entries.

SECTION B: EXPENDITURES TO PREPARE TO OPERATE DURING THE COVID-19 PANDEMIC

This section asks about costs for items and services that were required for the center to be prepared to operate during the COVID-19 pandemic.

- B1. Please use the table below to provide information on your center's expenditures on resources required to prepare to operate during the COVID-19 pandemic. Please include resources purchased <u>prior to</u> the 3-month cost reporting period. (Use other tabs in the workbook to report on resources purchased during the 3-month reporting period.)

 For each item, provide a description of the resource, the type of resource, the expenditure amount, and a description of the purpose of the resource. Examples of resources include:
 - cleaning and sanitation services
 - safety signs and floor stickers
 - physical barriers in classrooms or offices
 - improvements to ventilation systems

SECTION C: SALARIES AND FRINGE BENEFITS

This section asks questions about salary and fringe benefit expenses for regular, paid staff who worked at the center during the reporting period. Payments to individuals who are consultants or contractors should be recorded in Tab D. Please scroll down to answer all questions.

C1. Please use the table below to provide information on staff who worked at the center during the reporting period.

For each staff member:

- 1. Enter the staff member's initials. Please do not provide the staff member's full name anywhere in the worksheet.
- 2. Enter the staff member's title or position.
- 3. Using the drop down menu, select the job code that most closely corresponds to that staff member's role. (Definitions for each job code appear at the bottom of this tab.)
- 4. For teaching staff only, enter the number of children in each age group in the teacher's main classroom. For non-teaching staff, no entry is necessary in these columns.
- 5. For teaching staff only, indicate whether the teacher worked with any school-age children.
- 56. Enter the actual amount paid to the staff member during the reporting year (salary/wages only), including any overtime.
- 67. Indicate whether the staff member worked full time (35 or more hours per week) during the reporting year.
- 78. Enter the number of months the staff member was employed during the reporting period.

Please include any staff members who divide their time among multiple centers or locations. For those staff members, enter the portion of their salary/wages that corresponds with provided support to your center. For example, if a staff member divides her time among four centers, you could enter one-fourth of the amount paid to her during the reporting peric

SECTION D: STAFF TRAINING AND EDUCATION

This section asks questions about expenditures on training and education provided to staff members at your center. Please scroll down to answer questions.

D1. Please use the table below to provide information on your center's expenditures on staff training and education during the reporting period.

For each item, provide the training item/expense, the expenditure amount, and a description of the purpose of the training and indicate if the expenditure was required for or related to the center's response to the COVID-19 pandemic. Examples of training expenditures include:

- Fees paid for training workshops
- Fees paid to training consultants/providers
- Fees for professional training provided by state or local agencies
- Purchases of training curricula and other materials
- Staff travel allowances for attending trainings off-site
- Payments or subsidies for courses that staff take for educational credit (for example, college or university courses)

If a list of itemized expenditures is not available, please use the last row of the table to enter the center's total expenditures on training during the reporting period and a description of what is included in this cost.

SECTION G: SUPPLIES, MATERIALS, AND FOOD

This section asks questions about supplies, materials, and food purchased during the reporting period (the most recently completed fiscal year). Please scroll down to answer all applicable questions.

G1. Please use the table below to provide information on your center's expenditures on supplies and materials during the reporting period.

For the purposes of this survey, supplies and materials are items that cost under \$1,000 and are used and replenished regularly. Examples of supplies and materials include office supplies, classroom supplies, books for children or adults, and curriculum or child assessment materials.

For each item, provide a description of the material or supply, the total dollar amount spent, and the main purpose of the supply or material (choose a category from the drop-down list), and indicate if the expenditure was directly related to the center's response to the COVID-19 pandemic.

SECTION J: RESOURCES FROM A LARGER ORGANIZATION OR ENTITY

This section asks questions about resources the center received from a larger organization or entity (such as a network of centers, a nonprofit organization, or a university) during the reporting period. Only centers that answered YES to question A5 should complete this section. If your center does not have a sponsoring organization or does not operate as part of a larger network, you do not need to complete this section.

Resources from a larger organization may include services that benefit multiple centers or parts of an organization, such as administrative services (for example, accounting, human resources, marketing); facilities services; instructional support; food or food services; transportation; and others. Payments to a larger organization or entity may appear in your financial records as a direct payment to the organization or as overhead (sometimes called "indirect costs" or "administrative support allocations").
