

Attachment 3 – 2020 Survey of State Criminal History Information Systems
(Survey Instrument)

OMB No. [Number]: Approval Expires [Date]

Survey of State Criminal History Information Systems, 2020

Since 1989, the *Survey of State Criminal History Information Systems* has been used to collect the nation’s most complete, comprehensive and relevant data on the number and status of state-maintained criminal history records and on the increasing number of operations and services involving noncriminal justice background checks provided by the state repositories. This data collection is supported by Cooperative Agreement No. 2019-RU-BX-K001 awarded by the Bureau of Justice Statistics, Office of Justice Programs, U.S. Department of Justice. **Please note: Completion of the survey is voluntary; however, doing so is a special condition placed on all National Criminal History Improvement Program (NCHIP) and NICS Act Record Improvement Program (NARIP) awards.**

If you use the online survey tool, accessible at <http://www.searchgroup.org/surveys/repository/>, to enter 2020 data, you can view previously submitted 2018 data for comparison purposes. Where applicable, your state’s 2018 responses are displayed in color within each section of the online survey. It is hoped that this information will help you complete the survey more accurately and efficiently. **The cover letter provides the password to gain access to your state’s online survey.** Direct your questions or comments to SEARCH staff Dennis DeBacco at 775-412-1950 or dennis@search.org.

If it is more convenient, you may request a PDF copy of the survey, complete it manually, and fax (916-392-8440) or e-mail it to the attention of Dennis DeBacco at dennis@search.org. **The deadline for survey submission is [date].**

The survey is divided into five sections. You may submit each section independently and not necessarily in the order presented. This is done so that different people on your repository’s staff may submit the data for which they are responsible. **Repository directors are responsible to see that the survey is submitted in its entirety.** Please note the following:

1. All reported data should be for calendar year 2020, or as of December 31, 2020.
2. The term “felony” includes any crime classified as a felony under your state’s laws. These offenses are generally punishable by a term of incarceration in excess of one year. If your state’s laws do not use the term “felony,” please substitute functional equivalents, such as class 1, 2, 3 and 4 offenses in New Jersey and class A, B and C offenses in Maine.
3. Questions that seek responses based on a “legal requirement” refer *only* to a *state statute* or a *state administrative regulation having the force of law*.
4. If additional space is needed, please use the “Additional Comments” area at the end of each section.
5. Please use the “Additional Comments” area at the end of each section to provide explanatory notes for responses that require explanation or when “no data is available,” and to describe significant changes between the current response and data reported in the 2018 survey.
6. If a question is not applicable to your repository, **please note the question number and indicate “NA” in the “Additional Comments” area at the end of each section.**

Burden Statement

Under the Paperwork Reduction Act, we cannot ask you to respond to a collection of information unless it displays a currently valid OMB control number. The survey will be sent to criminal history repositories in 56 jurisdictions, including the 50 States, the District of Columbia, American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands. The average time required for each agency to complete the survey is estimated at 6.5 hours. Send comments regarding this burden estimate or any aspect of this survey, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 810 Seventh Street, NW, Washington DC 20531. Do not send your completed form to this address.

The following questions seek to determine to what extent the records in your criminal history record database contain final case disposition information. (“Final case disposition” is defined as the formal or informal conclusion of an arrest or charge at whatever stage it occurs in the criminal justice process. E.g., release by police after arrest without charging; decline to proceed by prosecutor; or final trial court disposition.)

- 1.** Does your state collect charge tracking information (sometimes referred to as “interim disposition information”) on the criminal history record showing the status of a case as it moves through the justice system? (E.g., reporting of an indictment, charges filed that are different than arrest charges, etc.)

Yes No

- 2.** (a) How many final case dispositions did your repository receive during 2020? _____ dispositions

(f) What percentage was sent via a secure web portal? _____ %

Note: When calculating the percentage of arrests with final dispositions

recorded, some states consider an arrest to have a disposition if **any** final disposition can be associated with an arrest cycle. This is commonly referred to as “cycle matching.” Other states do not consider an arrest to have a final disposition until **all** arrest charges are linked to a final disposition. This is commonly referred to as “charge matching.”

SECTION V: RECORD SEALING AND EXPUNGEMENTS

This section completed by

Name _____ Title _____

Record sealing and record expungement definitions and practices vary widely across the states. For the purpose of answering questions in this section, the following definitions apply.

Sealed Record: Record is restricted from public access (if such access is available in your state) and is generally unavailable for employment and licensing purposes. Sealed records may be accessed on a limited basis – e.g., criminal justice employment, law enforcement investigations, research purposes etc.

Expunged Record: All hard copy and electronic information about the arrest is destroyed/obliterated. No information about the arrest or disposition is retained, and it is therefore unavailable for any purpose once expunged.

Since all states have some degree of automatic sealing or expungement of juvenile records, the following questions only apply to adult criminal history records.

1. Do you have statutes and/or policies that define procedures for criminal history record sealing and/or expungement?

- Yes, sealing only
- Yes, expungement only
- Yes, both sealing and expungement
- No

2. If a record is sealed, is it still accessible for research purposes?

- Yes No

3. How are requests to seal/expunge records received? *(Check all that apply.)*

- In-person
- Mail
- Fax
- Online Portal/Website
- System-to-system request (e.g., courts submit requests from their RMS to the repository)

6. (a) Does your repository track the number of sealing/expungement requests it denied in 2020?

- Yes No

(b) If yes, how many requests to seal records were denied in 2020? _____

(c) If yes, how many requests to expunge records were denied in 2020? _____

7. What are the most common reasons that requests to seal/expunge records are denied? *(Check all that apply.)*

- Offense/crime for which the request is made is not eligible for sealing or expungement
- Individual's criminal history makes him/her ineligible
- Outstanding fines, fees, restitution, etc.
- Insufficient time has passed since the offense/conviction occurred

- Failure to provide necessary documentation to support the request
- Other (describe) _____

AUTOMATIC SEALING AND EXPUNGEMENT

Some states have adopted laws and/or policies to automatically seal/expunge records — i.e., where the subject of the record does not have to file a petition to have the record sealed or expunged. Questions 8–10 are only concerned with automatic sealing and expungements.

8. In 2020, were any records automatically sealed/expunged in your state?

- Yes, sealing only
- Yes, expungement only
- Yes, both sealing and expungement
- No

9. How many adult records were automatically sealed in 2020? _____
