GETTING STARTED

PERMITS ONLINE is designed so that the permit application is divided into two parts. In the first part, the user provides information about themselves as the applicant and, in the second part, the user provides information related to the business in which the applicant intends to engage. The information about the applicant is referred to as the “Owner Officer Information”. The information about the business is referred to as the “Commodity Application”. Both of these parts make up the application for a permit or, in the case of beer or malt beverages, a notice. However, the information about the user/applicant is requested to be input first so that the set of information about the applicant can be used for multiple commodity applications.

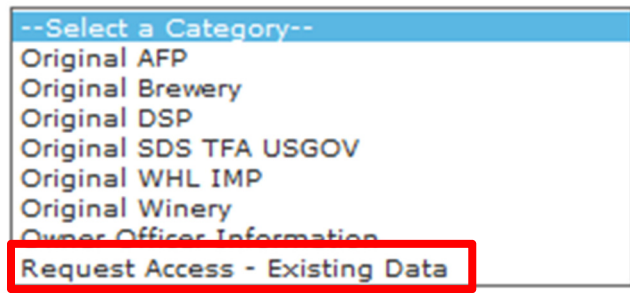

- **Owner Officer Information** - Every person that will be listed as a stockholder holding 10% or more, Sole Proprietor, Partner, Officer, Director, Trustee, Member and/or Managing Member of an LLC; a limited or general partner in a partnership; or a sole proprietor must complete this application.

TIPS: You should complete and submit your Owner Officer Information (OOI) application(s) prior to creating and submitting your commodity application.

After submitting the OOI, you will receive an OOI Tracking Number which you will need to insert into the “Officer Ownership Information” table in your commodity application.

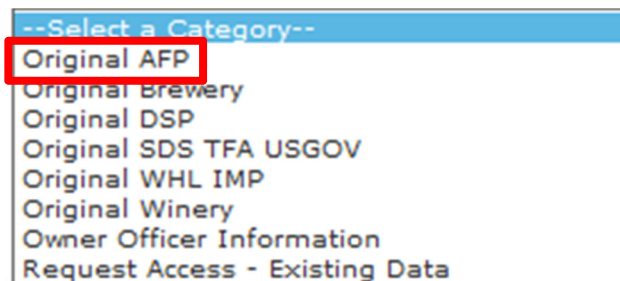

You do NOT have to wait for the OOI application to be approved prior to submitting your commodity application.

Click [here](#) for detailed instructions for submitting OOI applications to TTB.

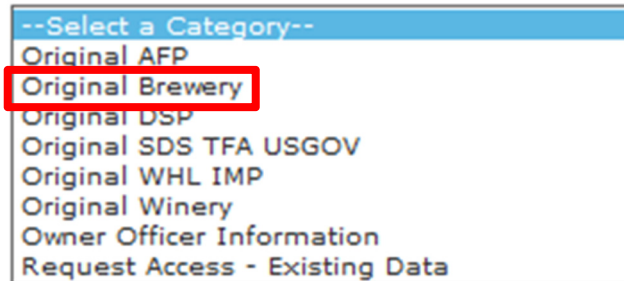

- **Request Access - Existing Data** - Select this option if you would like to request electronic access to application data that exists with TTB. You must have existing authorization (via signing authority or TTB F 5000.8, Power of Attorney) on file with TTB to be granted access. **If you do not have *existing* authorization DO NOT use this application.** See “Adding Application Contacts.”

Required Attachments

For each Original Application, the documents that are required to be submitted as part of your application depend on of the type of the application (Winery, Wholesaler/Importer, etc) and the type of business entity (Corporation, LLC, Sole Proprietorship, Partnership).

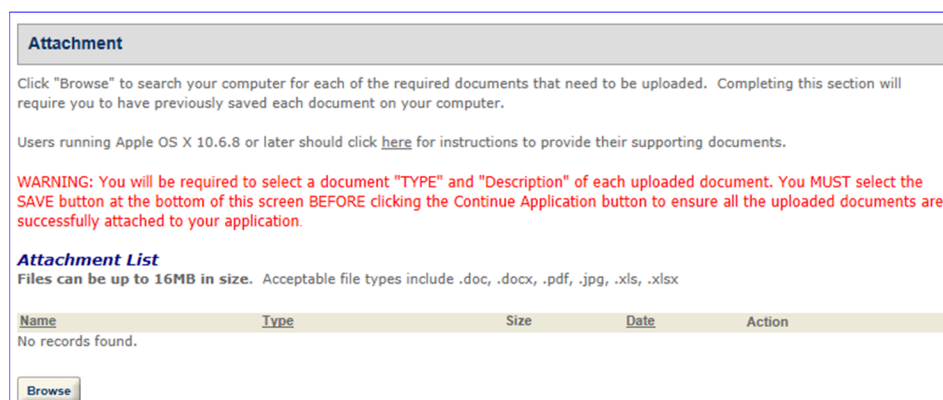

The documents also depend on your proposed operations. Based on answers you provide within your application, the system will auto-populate a line item in the “Statements and Documents” section for each of the “Required Attachments” for your application type. You will need to select the method of submission from a dropdown list for each of these documents (“Uploaded” **OR** “On File and Previously Approved by TTB”). **This selection does not upload the documents.**

TTB may consider an application incomplete and abandoned if these required attachments are not received within 15 days of submitting your application. To prevent this action, ensure all “Required Attachments” listed in the “Statements and Documents” section of your application are uploaded in a timely manner. Click [here](#) for a detailed description of each Document Type.

An "Application Summary" document will generate and attach for each application submitted. [Note: Although appearing as two "applications" these are two parts of the application for a permit or notice.]

General Help

At the top of every page in the application information section, there is general guidance that explains the reason for the requested information and provide guidance on completing the associated fields.

Help Buttons

Throughout each application, there are numerous Help buttons represented by a question mark inside a circle. **Select these buttons for field-specific instructions and guidance.** This help can assist you in avoiding routine mistakes. Submitting an accurate and complete application helps us process your application in the most efficient and timely manner.

Navigation

Should you need to correct something on a previous page, you may use the back button or click on the tab needing to be corrected. Select “Leave this Page” from the pop-up window. You will also have the opportunity to make corrections from the review screen prior to submission.

System Timeout

There is a two (2) hour timeout whether active or inactive. PERMITS ONLINE does not automatically save your work, so you will lose any information you have not saved should the system timeout. We suggest you use the system’s “Save and Resume Later” feature often. If there are required fields on the page you are trying to save, you may enter a single character in the required field(s) to allow you to save. When you resume the application please be sure you complete the fields in which you placed a single character.

Application Contacts and Addresses

Within various PERMITS ONLINE applications, there are five different types of Application Contacts, which identify addresses and primary contact persons associated with each application.

- **Officer-Owner** – This contact refers to an owner or officer of an applicant company. This contact information is provided in the “Application for Owner Officer Information.”
- **Application Contact** - This contact is the primary person with whom TTB will discuss application information and who will receive email notifications from TTB about the submitted application. This may be a consultant or an owner, officer, or other employee representing the applicant company. We recommend at least one Owner or Officer be added as an Application Contact. See [“Adding Additional Application Contacts.”](#)
- **Business Headquarters** - This contact includes information about the primary person within the applicant company with whom TTB will, if necessary, conduct a phone interview about the proposed operations. This person must have signing authority on behalf of the applicant business, and cannot be a consultant.

In this section, you will also provide the applicant’s official company name and Employer Identification Number. If the applicant is an organization, enter its name exactly as it appears on the organizational documents registered with the State, including punctuation

and any abbreviations. If a sole proprietorship, enter the name as you would like it to appear on your approved documents. If a partnership (with organizational documents), enter all partners' names as you would like them to appear on your approved documents.

- **Mailing Address** – This contact includes information about the address where you would like to receive mail from TTB.
- **Premises Address** – This contact includes information about the address where the proposed operations will take place.

In many cases, these contacts and addresses will be the same, and the option for auto-fill is available in some instances. The auto-fill option uses the information from your PERMITS ONLINE user registration.

Adding Additional Application Contacts

Additional Application Contacts may be added **AFTER** an application has been submitted. Application Contacts must have signing authority listed in the approved application. If the individual you wish to add has signing authority, follow the steps below to link them to the approved application. If the individual does not have signing authority, you must file an amendment to add the individual as Power of Attorney. After TTB approval, the individual will need to Register with PERMITS ONLINE and create a new application entitled *Request Access – Existing Data*. Please follow the steps below to complete this application.

- Log into [PERMITS ONLINE](#). Click on the “Create A New Application” link
- Select “Request Access – Existing Data”
- Enter the information for the new Application Contact
- Identify the Application Tracking Number, Permit / Registry Number, or EIN of the application(s)/record(s) to which you wish to be linked.
- Check the box for the Penalties of Perjury statement
- Review and Submit

Required Fields and Non-Applicable Fields

Within each application, there are required fields which you must complete. These required fields are marked with a red asterisk *. Certain fields can become “required” based on your answers to previous questions. Likewise, certain questions will become unavailable, or “grayed out” based on your answers to previous questions.

Be sure to read the general help for each application information section, as some sections may not be required based on your proposed operations. This is especially true of the “Application Tables” page of the Application for OOI.

Tracking Numbers

PERMITS ONLINE generates several types of tracking numbers.

If you begin an application and save it prior to submission, you will receive a Temporary Tracking Number. You may reopen the application, and complete and submit it at a later time. An example of a Temporary Tracking Number is **2010-TMP-003245**. **If you have been assigned a TMP number, your application has not been submitted.**

Once an application has been submitted, you will receive an email providing you with an Initial Tracking Number. If you previously received a Temporary Tracking Number by saving an incomplete application, that number is no longer valid once the application is submitted. An example of an Initial Tracking Number is **IW-2010-00165**.

The **IW** in the Initial Tracking Number stands for Importer/Wholesaler. In this example, a customer completed a New Importer/Wholesaler (IW) application, and could have applied for approval to become an importer, a wholesaler, or both.

For original applications, you may receive a second email providing you with one or more new Application Tracking Numbers after TTB initially reviews the application and accepts it as complete enough for further processing. If you received a second email containing an Application Tracking Number, it replaces the Initial Tracking Number and the Initial Tracking Number is no longer needed.

For an Application for OOI, as well as for most Amendments, the Initial Tracking Number you receive is also your Application Tracking Number.

You may check the status of your application 7 days a week, 24 hours a day using these tracking numbers.

Save and Resume Later

While completing an application in PERMITS ONLINE, you may choose to click “Save and Resume Later” in the bottom right-hand corner of the page, if you run out of time or find that you don’t have all of the information necessary to complete the application at that time.

The “Save and Resume Later” option works only if you have completed all of the required fields (and related information sections and tables) up to the point where you leave the application. Do not use “Save and Resume Later” on amended applications as it will not save your information. Once you click “Save and Resume Later”, you will be taken to the “Search For Applications” screen. The application (with a Temporary Tracking Number) at the top of the page will be the application you just saved for later completion. Write down the Temporary Tracking Number of that application.

To resume the application later, you must select “Search Your Applications” from the PERMITS ONLINE Home page. Next, select “Resume Application” at the end of the row for the correct Temporary Tracking Number. The system will take you to the first page of the application. You

must select “Continue Application” to page through to the page where you left the application so you can continue completing the application information.

Communication from TTB

TTB will email you at various steps in the application process. These emails will contain status updates and communicate actions you must take before we can continue to process your application. Status changes may include, “Received”, “Incomplete”, “Pending”, “Review in Progress”, “Abandoned”, “Withdrawn”, “Denied”, or “Approved”. In certain instances, you must log into PERMITS ONLINE to view additional information such as comments or instructions.

Comments will be sent to you (if applicable) that notify you of missing required documentation (Initial Review), application data that TTB corrected (Specialist Review), or specific instructions or limitations regarding an approval or denial of your application (Manager Disposition). To view these additional Comments about your application, use the following steps:

- Login into PERMITS ONLINE
- Use the “Search Your Applications” button to find your application
- Click on the application tracking number
- Click on the arrow next to the Status bar
- Click on the arrow button next to either “Initial Review”, “Specialist Review”, or “Manager Disposition”
- Click on the plus sign (+) box next to one of the above categories to reveal the specific comments

TTB will attach to your application any documents that indicate its final disposition. This may include an approval letter, permit, registration, bond, power of attorney and other approval documents (as applicable) or information regarding a denial, withdrawal, or abandonment. To access these documents, click on the arrow next to “Supporting Documents and Attachments.” Then, click on the name of the document, and select “Open” to view, print, or save the TTB attachment.

Collections

If you file multiple applications within PERMITS ONLINE, you may choose to organize your applications using a feature called 'Collections'. This will be especially useful if you are a consultant or if your company has multiple regulated operations or locations. Once you have created more than one application, you may create Collections.

Viewing Your Application Data and Attachments

To view your application data and attachments after you have submitted the application or after you have saved the application prior to submission, you will need to log in, use the “Search Your Applications” button to find your application, and then click on the tracking number of the application.

First click on the arrow next to “View Details” within the “Record/Application Details” section. You may then open various subsections of your application by clicking on the plus sign (+) next to each subsection.

To access and view any documents you have attached to your application, click on the arrow next to “Supporting Documents and Attachments”. Click on the name of the document and select “Open” to view the attachment.

To see the tracking numbers of any other applications (Initial Application, official Commodity-Specific Application, or Application for Owner Officer Information) related to the one you have selected, click on the arrow next to “Related Records/Applications”. You can switch to one of those related applications by clicking “View” to the right of the application.

Recreating Application Data on Certain TTB Forms

Bonds, Change in Bonds and Powers of Attorney require a signature before uploading. You may create partially completed versions of these forms after you have completed your application. To do this, select “Search Your Applications” from the PERMITS ONLINE Home screen. Then, select the Tracking Number of the application you wish to open and view.

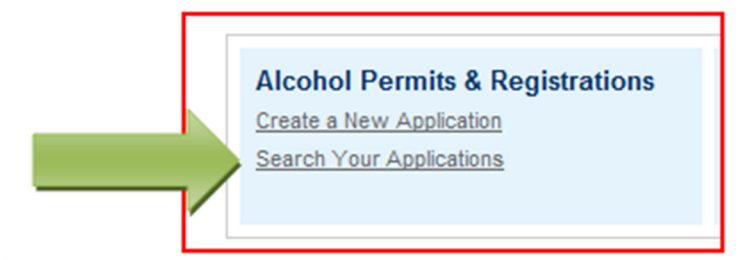

Next, click the “Reports” button at the top of the screen and select the form which you wish to generate. Certain forms containing personnel data such as Date of Birth and Social Security Number aren’t available for privacy reasons. These include TTB Form 5000.9, Personnel Questionnaire, and TTB Form 5100.24, Application for Basic Permit.

Please note that forms for other application types, including those forms not applicable to your application, are available in this list. If you select a form that does not apply to your application, it will appear blank.

Resubmitting an Abandoned or Withdrawn Application

If your application has been abandoned or withdrawn you may use the “Copy Feature” within PERMITS ONLINE to duplicate the application you originally submitted. This feature affords you the opportunity to review the application and make any necessary edits before submittal. To “Copy” your application, Log into PERMITS ONLINE and follow the general steps below:

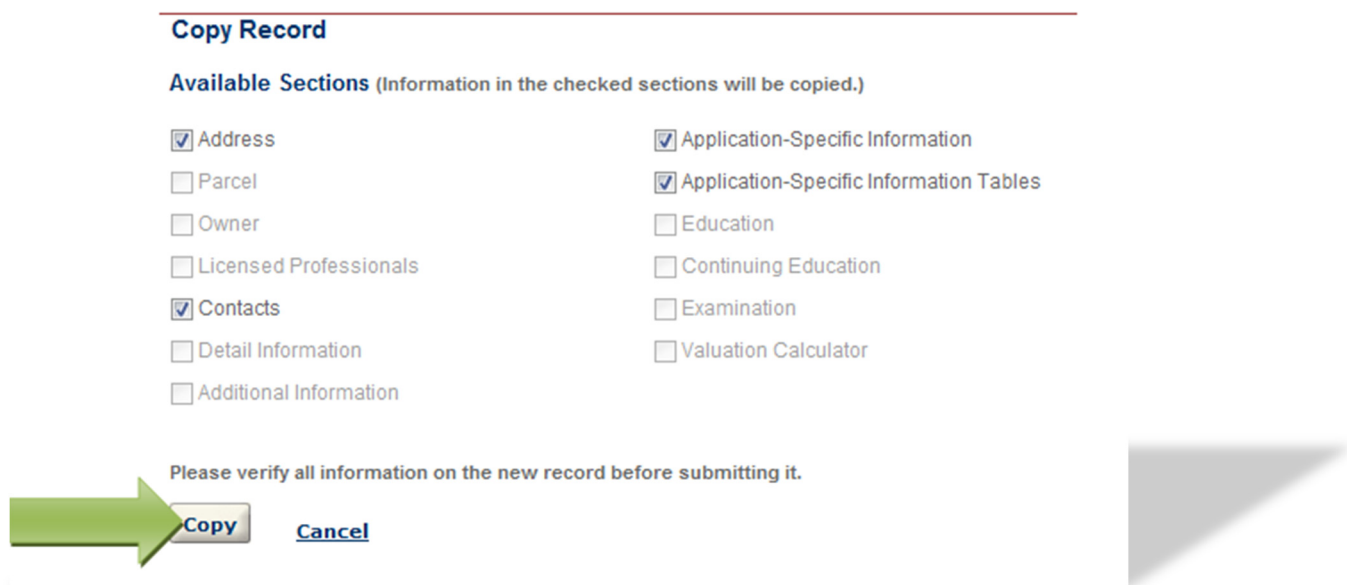

- Use the “Search Your Applications” button to find your application

- Place a checkmark in the box next to the application tracking number you wish to copy and then click the “Copy Record” link. **Note:** You can only copy the “Initial Tracking Number” application, not the Tracking Number TTB gave you after Acceptance of your Initial Application.

- You will see a screen showing sections of the application that will be duplicated. If you do not wish certain sections to be copied, simply remove the checkmark in the appropriate box and click the “Copy” button.

- You will then be presented with the application information. You should review each page for accuracy and make any necessary edits. Click the “Continue Application” button at the bottom of each page of the application.

- After completing the application, you will have the opportunity to review the application information one last time. After you have ensured the application contains accurate information, click the “Continue Application” button. You will immediately receive an email stating TTB has received your application and be given an Application Tracking Number.

Special Circumstances

If you are submitting an amendment for a Change in Location from one state to another state file an original application for the appropriate commodity.

Applications for sake plants, experimental wineries and DSPs, vinegar plants, volatile fruit-flavor concentrate plants, AFP applications for science fairs and school experiments and pilot breweries must be submitted as paper applications.
