When must information be submitted to/retained by the Coast Guard?	Changes to a drawbridge operating schedule are dependent on the needs of the bridge and local waterway and land traffic. What happens when complete information is received?	The Coast Guard uses the information to determine if the request to close the drawbridge is necessary. If the request is accepted, the Coast Guard will coordinate the bridge closure period(s) between the bridge owner and navigational traffic and notify the public and navigational community of the date, time, length of closure periods, and reason for closure or alteration of an operating schedule.
