FEMA

Resource Support Section

Outline of Roles

Resource Support Section

Resource Support Section

- Resource and Capability Branch
 - Interagency group of response partners focused on developing sourcing recommendations to fulfill disaster requests in support of RRCC and/or JFO operations.
 - Divided into 5 supporting groups and coordinated by the Resource and Capability Branch Director.

- Order Processing Group
 - Finalizes documentation, coordinates funding, mission assignments and contracts
 - Processes orders based on the sourcing method identified by the RCB. This group completes financial and acquisition documentation necessary for the sourcing method determined and acquiring the necessary approvals to execute the order.
 - 40-1s, statements of work, MOUs, MOAs.

- Individual Assistance Group
 - National coordination of resources and develops sourcing plans to meet mass care needs identified by the region.
 - These requests include sheltering, feeding, first aid, etc.

- Incident Support Base Group
 - Responsible for maintaining the status of resources in the ISB and providing materiel, services, and personnel support necessary to initiate and establish ISB operations.
 - Maintains the status of resources in ISBs and Federal Staging Areas (FSAs) and reports the status of resources to the RCB for inclusion in NRCC situation reports and briefings.
 - Coordinates ISB/FSA support through the deployment of teams, services and equipment necessary to establish ISB or FSA operations during surge FEMA National Incident Support Manual and response.

Resource Support Section Cont.

- **Infrastructure Assets Group**
 - National coordination of resources and develops sourcing plans to meet infrastructure needs.
 - This groups addresses national-level support for removal of debris to facilitate both the entry of emergency workers and the evacuation and return of the public and restoration of public and private nonprofit facilities.
- **Operational Support Group**
 - National coordination of resources and develops sourcing plans to meet operational response needs such as identified by the region.
 - These requests include internal FEMA, air, communications, or military assets.
 - Personnel Deployment Unit.
- **Transportation and Movement Coordination Group**
 - Coordinates and tracks movement of commodities, equipment, teams, and personnel supporting incident management operations.
 - Synchronizes the utilization and scheduling of all transportation resources.
- **Emergency Services Group**
 - National coordination of resources and develops sourcing plans to meet emergency services needs and Federal lifesaving and life-sustaining activities identified by the region.

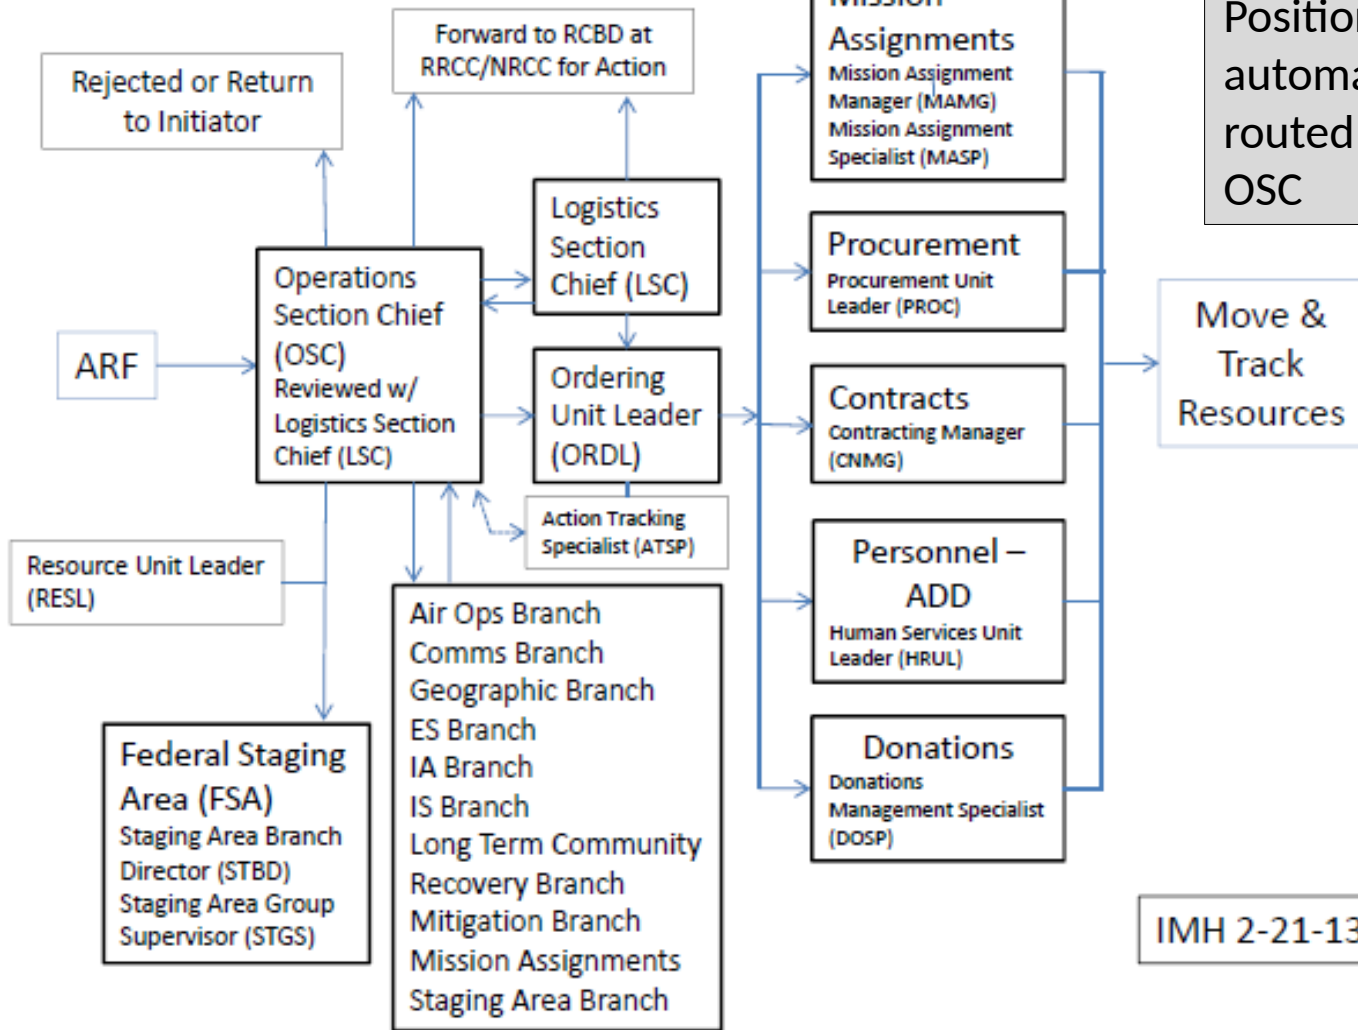

FEMA

Initiating an ARF/Resource Request in WebEOC

Process Flows and How Requests Get Into WebEOC

REQUEST ASSIGNMENT PROCESS

Requests initiated at the JFO/IMAT Positions will be automatically routed to the OSC

IMH 2-21-13

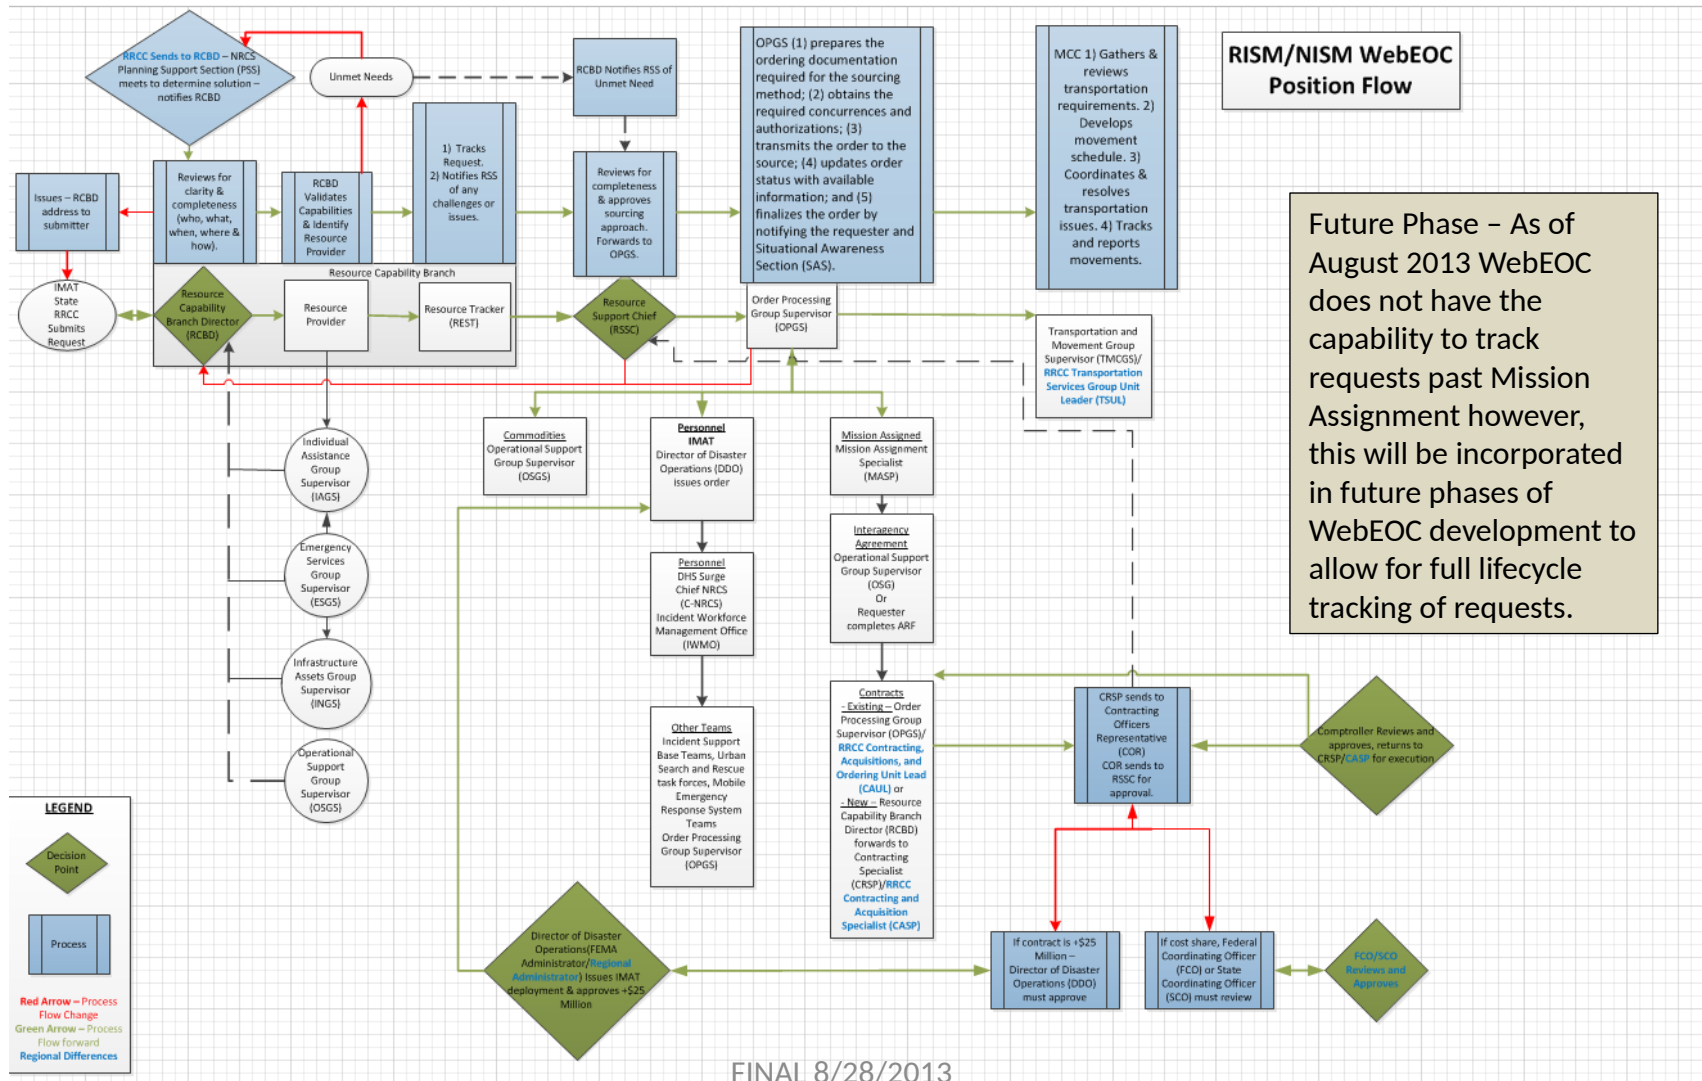

NISM/RISM ARF/Resource Request Flow

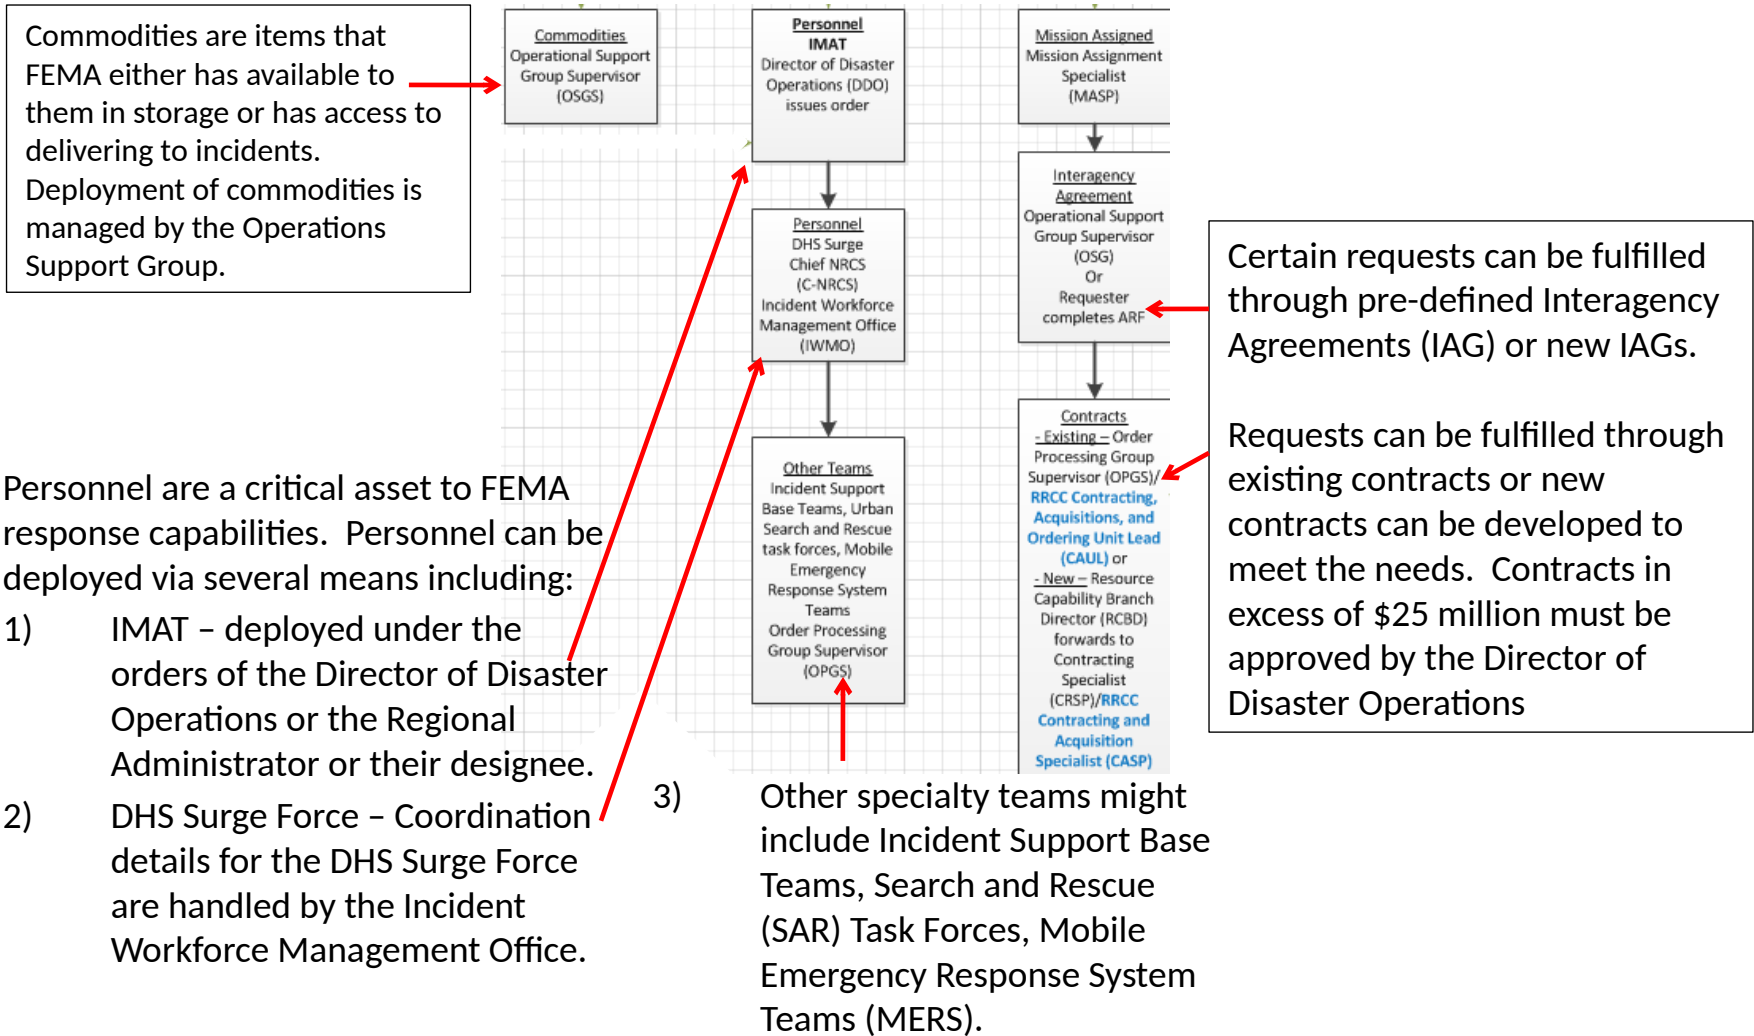

WebEOC ARF/Resource Request Task Flow

Available Resources and Means of Fulfilling Resource Requests

Personnel are a critical asset to FEMA response capabilities. Personnel can be deployed via several means including:

- 1) IMAT – deployed under the orders of the Director of Disaster Operations or the Regional Administrator or their designee.
- 2) DHS Surge Force – Coordination details for the DHS Surge Force are handled by the Incident Workforce Management Office.
- 3) Other specialty teams might include Incident Support Base Teams, Search and Rescue (SAR) Task Forces, Mobile Emergency Response System Teams (MERS).

Unmet Needs

When it is determined that a request cannot be met at a regional level, the request is sent to the NRCC Resource Capability Branch Director. If the request is not something that the NRCC can fulfill through available means then a Crisis Action Planning Team is convened.

Crisis Action Planning Team

In the course of supporting incidents, FEMA HQ elements and NRCS sections and units routinely address problems and develop ad hoc crisis action plans to deal with these problems. Personnel with functional expertise make up the crisis action planning team and provide input to help develop the crisis action plan.

Initiating an ARF - Resource Request

ARF - Resource requests can be initiated in several ways.

- 1) Request initiated by state/tribe.
- 2) Request initiated by IMAT.
- 3) Request initiated by JFO.
- 4) Request initiated from the field.
- 5) Request initiated by RRCC.
- 6) Request initiated by ESF.

ARF - Resource requests can also be received in several ways.

- 1) Verbal request.
- 2) Request submitted via Form (Fax or Email).
- 3) Request submitted via hardcopy.
- 4) Request submitted in WebEOC.

Regardless of who initiates the request or how it was initiated, the request **must be entered into WebEOC** in order to be tracked.

ARF/Request Methods in WebEOC

Within WebEOC there are two methods by which a request can be submitted.

- Create Request – which is a request that does not have a pre-scripted mission assignment.
- Create Request from PSMA – which is a request that has a pre-scripted mission assignment already defined.

The following sections will breakdown those requests as independent processes.

FEMA

Questions

FEMA

WebEOC Processes

Part 1: Create ARF/Resource Request

Create ARF/Request - Initiate a Resource Request

When request is received outside of WebEOC, the request must be logged into the system so that it can be processed. The Resource Tracker is responsible for logging requests into the system.

Click on **Resource Request** in the Control Panel.

Create ARF/Request

From the Resource Request page, you can create a request from Pre-Scripted Mission Assignments (PSMA) or create a request that is not covered under PSMA.

Create ARF/Request – Branch Directors Review

The Branch Director reviews the request and enters any relevant comments for the record and returns the request to the Operations Section Chief (OSC).

The screenshot shows a web form titled "FEMA OPS ARF UPDATE (Operations Section Only)". The "ARF Status" dropdown menu is set to "Forwarded for Action (accepted)". The "Assigned To" dropdown menu is set to "*IM OPS Operations Section Chief I (OSC1)". Below these are buttons for "Save", "Spell Check", and "Cancel". A large text area for "FEMA OPS Comments (FEMA Internal Only)" is present, with a "View External Comments" button to its right. A red box highlights the "View External Comments" button and the text area. A callout box points to the button with the text: "Users making updates can View Other Comments by clicking the button." A red arrow points from the text above to the "Assigned To" dropdown menu.

The ARF Status options

are:

- Approved
- Approved in ADD
- Contract Awarded
- Contract Pending
- Delayed
- Delivered

- Enroute
- Entered into eCAPS
- Forwarded for Action (accepted)
- Funded in IFMIS
- MA Issued (Funded)
- Rejected (invalid)

- Request Submitted in ADD
- Resource Request Process Completed
- Returned (need more info)
- Returned for Final Approval
- Reviewed by Resource Tracker

ARF/Request Status - Definitions

FEMA

Approved - After the OSC or RSSC agrees with the final solution and ready to forward to the Ordering Unit Leader or Order Processing Group Supervisor

Approved in ADD - The request for personnel is entered and completed in ADD

Contract Awarded - CAUL has awarded a contract to meet a request

Contract Pending - CAUL is waiting for a contract to be awarded

Delayed - Resource was in enroute and is now delayed not reaching its destination

Delivered - Resource has reached its destination

Enroute - Resource is moving or traveling to its destination

Entered in eCAPS - The Mission Assignment positions have entered the approved request into eCAPS

Forwarded for Action (accepted) - The request has been accepted and forwarded to the next position for action

Funded in IFMIS - Funding has been committed to the request (40-1, Mission Assignment)

MA Issued (Funded) - The MA has been funded and issued to the supporting Agency

Rejected (invalid) - Request is not acceptable or is not longer needed

Request Submitted to ADD - The request is routed to the ADD position for action

Resource Request Process Completed - The request has been validated, routed and finalized

Returned (need more info) - The request is lacking information or needs clarification

Returned for Approval - After the request has been worked it's returned to the OSC or RSSC for final approval

Reviewed by Resource Tracker - The Resource Tracker has completed their review for outstanding requests with no action taken

Create ARF/Request – Final Approval Operations Section Chief (OSC)

OSC receives the request back from the Branch Directors and has ensured all of the necessary details are on track, OSC sends the request for the final approval to the Ordering Unit Leader (ORDL).

If the request requires immediate action, the box is checked to indicate the urgency.

The screenshot shows the 'FEMA OPS ARF UPDATE (Operations Section Only)' form. At the top, the 'ARF Status' is set to 'Approved' and the 'Assigned To' is 'TIM LOG Ordering Unit Leader (ORDL)'. Below this are 'Save', 'Spell Check', and 'Cancel' buttons. A large text area for 'FEMA OPS Comments (FEMA Internal Only)' is present, with a 'View External Comment' button. Section III, 'SOURCING THE REQUEST - REVIEW/COORDINATION (Operations Section Only)', contains three columns of options. Column 1 has checkboxes for 'OPS Review by', 'LOG Review by', and three 'Other Coordination' items, with the first checked and a name 'dfgdsfjg' entered. Column 2 has radio buttons for 'Source' options: 'Donations', 'Other(Explain)', 'Requisitions', 'Procurement', 'Interagency Agreement', 'MA Assignment', and 'MA Task Order'. Column 3 has text boxes for 'Assigned to' details: 'ESF/OFA', 'Other', 'LSCMS Number', and 'Date/Time'. At the bottom, an 'Immediate Action Required' checkbox is checked.

OSC indicates approval in Section III and identifies who the request is assigned to and how the source will be fulfilled.

Create ARF/Request – RRCC/NRCC - Initial Review Resource Capability Branch Director (RCBD)

FEMA

The Resource Capability Branch Director (RCBD) or OSC reviews the initial request.

Request for 100 cases of lactose free infant formula to be provided by Red Cross - approved. OPGS please take for action.

View Other Comments

Last Comment:

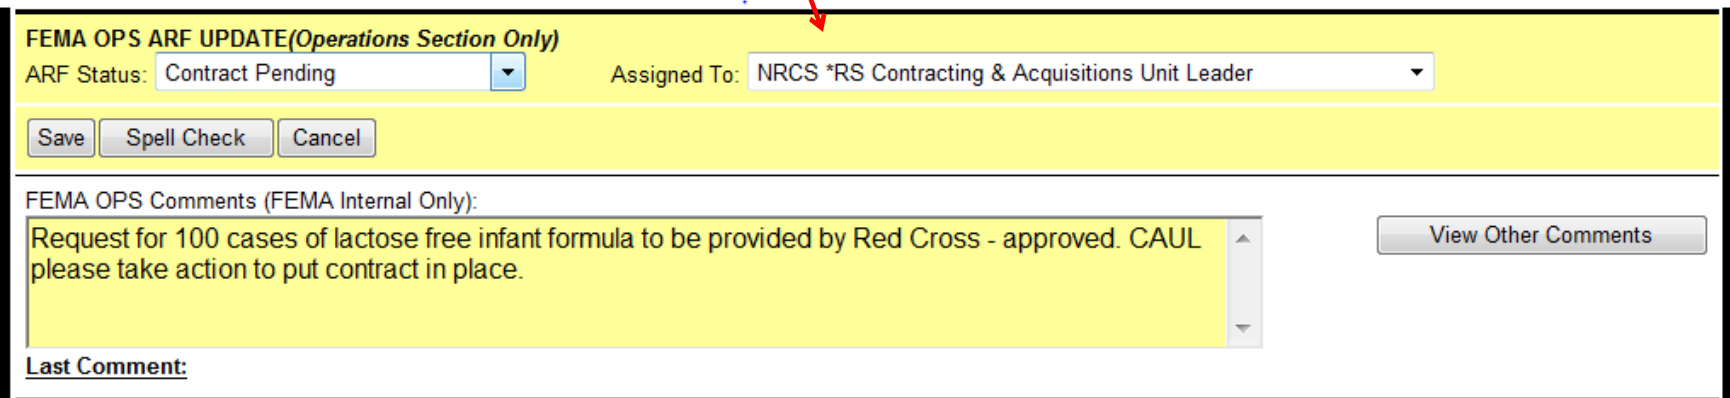

The Order Processing Group Supervisor (OPGS) is responsible for ensuring that the request is fulfilled. In this case, the request for 100 cases of lactose free infant formula will be met through a contract with Red Cross (ESF-6 Mass Care) OPGS forwards the request to the Contracting and Acquisitions Unit Leader (CAUL) to be fulfilled.

Create ARF/Request – Contracting and Acquisitions Unit Leader

FEMA

The Contracting and Acquisitions Unit Leader (CAUL) takes action to place and fulfill the order.

A screenshot of a web form titled "FEMA OPS ARF UPDATE (Operations Section Only)". The form has a yellow background. At the top, there are two dropdown menus: "ARF Status:" set to "Contract Pending" and "Assigned To:" set to "NRCS *RS Contracting & Acquisitions Unit Leader". Below these are three buttons: "Save", "Spell Check", and "Cancel". A section titled "FEMA OPS Comments (FEMA Internal Only):" contains a text area with the comment: "Request for 100 cases of lactose free infant formula to be provided by Red Cross - approved. CAUL please take action to put contract in place." To the right of the text area is a button labeled "View Other Comments". At the bottom left of the form, there is a label "Last Comment:".

FEMA OPS ARF UPDATE (Operations Section Only)

ARF Status: Assigned To:

FEMA OPS Comments (FEMA Internal Only):

Last Comment:

Once the contract is awarded, Contracting and Acquisitions will update the status in WebEOC.

From this point forward the Resource Provider (in this case ESF-6) is responsible updating details on whether the request has been fulfilled, when it has been delivered and to whom, and updating the request in WebEOC.

PSMA Details		
PSMA ID: PSMA-248	PSMA Title: Behavioral Health Care	ESF: ESF #8: Public Health and Medical Services
Agency: HHS	Level: Regional	Priority:
PSMA Type:	Total Cost Estimate: 54000.00	Types: FOS DFA

Assistance Requested:
HHS will provide behavioral health care services in support of disaster operations in response to ##INCIDENT## in the State of ##STATE##.

Statement of Work:
At the direction of and in coordination with FEMA, HHS will address immediate and short-term issues by assisting State and local staff in providing mental health and substance abuse support services to disaster victims, their families, and rescue response workers. HHS mental health teams will:
• Conduct screening and assessment of community needs relevant to mental and behavioral conditions (e.g., acute/chronic stress reactions and substance abuse)
• Provide grief counseling and psychological first aid to incident victims and responders.
Lease or purchase of accountable property: None

FEMA logistical support: Teams may require some level of base operating support (food, shelter, laundry, etc.).

MA task orders will be issued for specific personnel requirements, location(s), dates, and duration of assignment(s).

All equipment and supply purchases must be coordinated with FEMA. Prior FEMA approval is necessary to ensure reimbursement.

HHS may subtask other Federal agencies for disaster medical support requirements as needed.

- Once the request has been submitted, it is routed to the Resource Capability Branch Director (RCBD). RCBD reviews and determines if a mission assignment is the correct means of fulfilling the request.
- If there is already a mission assignment in place or another similar request, RCBD may decide to combine requests or add on to an existing request.
- If the mission assignment is approved to proceed, RCBD would select the **Update Request** button to process the next step.

Pre-Scripted Mission Assignment (PSMA) - Review by Resource Provider

The next step in the process is to have the request reviewed by the resource provider. Since this particular request is for ESF-8 Public Health and Medical Services, that falls under the Emergency Services Group. RCBD would route the request to the **Emergency Services Group Supervisor** for review. Once the ESGS reviews the request and concurs that it should be fulfilled through a PSMA, ESGS routes the approval to RCBD. ESGS can enter any relevant comments in the comments section, select the Resource Capability Branch Director (RCBD) in the **Assigned To** dropdown menu and then click the **Save Here** button.

Pre-Scripted Mission Assignment (PSMA) - Approval by Resource Support Section Chief

FEMA

The final approval is by the Resource Support Section Chief (RSSC).

The screenshot shows a web form titled "FEMA OPS ARF UPDATE (Operations Section Only)". The "ARF Status" is set to "Forwarded for Action (accepted)". The "Assigned To" field is set to "IS R01 RS (RSSC) Resource Support Section Chief". Below the status and assignment fields are buttons for "Save here", "Spell Check", and "Cancel". A "FEMA OPS Comments (FEMA Internal Only)" section contains a text area with the comment: "Behavioral health care services will be provided by HHS via pre-scripted mission assignment. Concur with PSMA. RSSC approves." To the right of the comment is a "View Other Comments" button. At the bottom left of the comment section is a "Last Comment:" label. A red arrow points from the text above to the "Assigned To" dropdown menu.

Once the RSSC approves the request and returns it to RCBD, the Resource Capability Branch Director (RCBD) forwards the request to the Order Processing Group Supervisor (OPGS) for execution.

Pre-Scripted Mission Assignment (PSMA) - RCBD Final Review

FEMA

Once the request has been approved as a pre-scripted mission assignment in coordination with the resource provider, the Resource Capability Branch Director (RCBD) forwards the request to the Order Processing Group Supervisor (OPGS) for action. To execute this action hit **Save Here** button.

A screenshot of a web form titled "FEMA OPS ARF UPDATE(Operations Section Only)". The form has a yellow background. At the top, it shows "ARF Status: Forwarded for Action (accepted)" and "Assigned To: IS R01 RS (OPGS) Order Processing Group Supervisor". Below this, there are three buttons: "Save here", "Spell Check", and "Cancel". The "Save here" button is circled in red. Below the buttons is a text area for "FEMA OPS Comments (FEMA Internal Only):" containing the text "Behavioral health care services will be provided by HHS via pre-scripted mission assignment." and a "View Other Comments" button. At the bottom, there is a "Last Comment:" label.

The OPGS reviews the request, inserts any necessary comments and forwards it to the Mission Assignment Unit Lead (MAUL). To execute this action hit **Save** button.

A screenshot of a web form titled "FEMA OPS ARF UPDATE(Operations Section Only)". The form has a yellow background. At the top, it shows "ARF Status: Forwarded for Action (accepted)" and "Assigned To: IS R01 RS (MAUL) Mission Assignment Unit Leader". Below this, there are three buttons: "Save", "Spell Check", and "Cancel". The "Save" button is circled in red. Below the buttons is a text area for "FEMA OPS Comments (FEMA Internal Only):" containing the text "Behavioral health care services will be provided by HHS via pre-scripted mission assignment. MAUL - Please take for action." and a "View Other Comments" button. At the bottom, there is a "Last Comment:" label.

Pre-Scripted Mission Assignment (PSMA)

FEMA

- Order Processing Group Supervisor

Once approval has been obtained by RSSC, the RCBD forwards the request to the Order Processing Group Supervisor (OPGS).

- The OPGS processes orders based on the sourcing method identified by the RCBD and orders the required resources or services according to established procedure and processes.
- For this scenario, the request is being mission assigned so OPGS would forward the request to the Mission Assignment Unit Lead (MAUL).

Role of Resource Tracker

The Resource Tracker:

- Maintains visibility and provides the status of all resources ordered from source through delivery by coordinating with Resources staff at all levels and managing a database with all resource requests and orders.
- Tracks requests and status of resource requests as instructed by the RSS Chief.
- Updates on resource status are input by the resource provider.

Future WebEOC Phases

Currently WebEOC only supports routing requests as far as Mission Assignment. Plans are in place to build on routing capabilities to other positions to include:

- Contracting Acquisitions and Ordering Unit Lead
- Operational Support Group Specialist
- DHS Surge Chief
- Transportation and Movement Group Supervisor

Once this occurs, requests will be able to tracked from initialization through delivery all on WebEOC.
