

# **Program for International Student Assessment 2022 (PISA 2022) Main Study Recruitment and Field Test**

## **Appendix A-2 Main Study Recruitment Materials**

**OMB# 1850-0755 v.25**

**National Center for Education Statistics (NCES)  
U.S. Department of Education**

**Institute of Education Sciences  
Washington, DC**

**December 2019  
Revised February 2021**

Throughout this document are screenshots that show the web content of MyPISA.us for schools and school coordinators from the field test in PISA 2021, along with text for the main study for PISA 2022. The last section of this document, “MyPISA project website for School Coordinators and schools,” documents the contents of the website most extensively, but MyPISA screenshots also appear throughout the sections, “Instructions for School Coordinators to E-file student lists,” and “PISA 2022 Main Study School Coordinator Handbook”. MyPISA.us is described in Part B of the main study package. The systems for the PISA 2022 field test are currently inactive, but will be reactivated in the spring of 2021. Additional changes will be needed to update references to the PISA main study and updates to the specifics of the main study, such as the appropriate birth year of students within the sample and the number of students to be sampled.

Updated screenshots and, if necessary, any updated text will be provided in a change request by May 2021. That change request will also add the Main Study version of the 2022 PISA Field Test recruitment video, as seen beginning on p. 93 of Appendix A-1, and may include some updated versions of other materials currently found in Appendix A-1 but not included here.

**State PISA 2022 Letter**

[Title] [Name First] [Name Last]

[Title/Department]

[State]

[Address 1]

[Address 2]

[City], [State] [Zip code]

Dear [Title] [Name Last]:

The United States and more than 80 other countries and education systems will participate in the 2022 Program for International Student Assessment (PISA). PISA is the largest international education study in the world and measures the mathematics, reading, science, and financial literacy of students nearing the end of compulsory education. I am writing to ask your agency to **support the participation of the schools in your state** that have been randomly selected to take PISA in the fall of 2022.

While participation is voluntary, your state's participation ensures that the U.S. results are complete, accurate, and representative of all students across the country. Researchers and policymakers use PISA results to compare national progress against international standards and the educational progress of our global economic peers and competitors.

To acknowledge their time and effort, participating schools, school coordinators (a school staff person designated to communicate with PISA staff), and students will receive an honorarium for their participation in PISA.

PISA is conducted in the United States by the National Center for Education Statistics (NCES) within the U.S. Department of Education and is administered by Westat, a research firm in Rockville, Maryland. The U.S. Office of Management and Budget (OMB) has approved the data collection under OMB# 1850-0755. You can find more details about PISA, including information on the confidentiality of the data collected, in the enclosed materials.

Westat will contact sampled school districts and schools in the next few weeks to discuss participation. We understand the ongoing challenges schools face due to COVID-19, and the health and safety of students and school staff is our top priority. PISA representatives will provide significant assistance to schools by administering the study and bringing all necessary materials and equipment. Information about our protocols is included in the enclosed COVID-19 Protocols document.

We are also in contact with your state assessment director and NAEP State Coordinator to try to ensure we do not conflict with other state efforts and to help districts and schools understand how PISA fits in with other NCES data collections.

If you have questions about the study in the meantime, please call David Kastberg at 301-294-3811 or send an email to PISAHELP@westat.com. You may also get more information by contacting Samantha Burg at NCES at 202-245-7537 or samantha.burg@ed.gov, or by visiting the PISA website at <http://nces.ed.gov/surveys/pisa>.

Thank you for your time and support.

Sincerely,

Peggy Carr, Ph.D.

Associate Commissioner, National Center for Education Statistics

cc: [State assessment coordinator name]

School District PISA 2022 Letter

[Date]

[Title] [Name First] [Name Last], [Title/Department]

[School District]

[Address 1]

[City], [State] [Zip code]

Dear [Title] [Name Last]:

The United States and more than 80 other countries and education systems will participate in the 2022 Program for International Student Assessment (PISA). PISA is the largest international education study in the world and measures the mathematics, reading, science, and financial literacy of students nearing the end of compulsory education. I am writing to ask your agency to **support the participation of the schools in your district** that have been randomly selected to take PISA in the fall of 2022 and to include the assessment window (October 3–November 25, 2022) on your district calendar.

While participation is voluntary, your district’s participation ensures that the U.S. results are complete, accurate, and representative of all students across the country. PISA results are used by researchers and policymakers to chart national progress against international standards and the educational progress of our global economic peers and competitors.

- While participation in this study is voluntary, your school plays an important role in ensuring that the U.S. sample is representative of the knowledge and skills of all students across the country. As a thank you for your time and effort to participate in PISA: Your school will receive \$250 for participating.
- Your school’s PISA school coordinator (a school staff person designated to communicate with PISA staff) will receive \$200 as a thank you for their time and effort.
- Each participating student will be eligible to receive \$25 and a volunteer service certificate of 4 hours from the U.S. Department of Education.

PISA is conducted in the United States by the National Center for Education Statistics (NCES) within the U.S. Department of Education and is administered by Westat, a research firm in Rockville, Maryland. The U.S. Office of Management and Budget has approved the data collection under OMB# 1850-0755. You can find more details about PISA, including information on the confidentiality of the data collected, in the enclosed materials.

Within the next few days, Westat will contact the following school(s) in your district that have been selected for PISA: [LIST SAMPLED SCHOOLS HERE...].

We understand the ongoing challenges schools face due to COVID-19, and the health and safety of students and school staff is our top priority. PISA representatives will provide significant assistance to schools by administering the assessment and bringing all necessary materials and equipment. Information about our protocols is included in the enclosed COVID-19 Protocols document.

If you have any questions, please do not hesitate to call 1-888-638-2597 or email PISAHELP@westat.com. You may also get more information by contacting Samantha Burg at NCES at 202-245-7537 or samantha.burg@ed.gov, or by visiting the PISA website at <http://nces.ed.gov/surveys/pisa>.

Thank you for your time and support.

Sincerely,

Peggy Carr, Ph.D.

Associate Commissioner, National Center for Education Statistics

## School PISA 2022 Letter – Public Schools

[Date]

[Title] [Name First] [Name Last], [Title/Department]

[School District]

[Address 1]

[City], [State] [Zip code]

Dear [Title] [Name Last]:

The United States and more than 80 other countries and education systems will participate in the 2022 Program for International Student Assessment (PISA). PISA is the largest international education study in the world and measures the reading, mathematics, science, and financial literacy of students nearing the end of compulsory education. Your school is one of about 290 schools across the United States that has been randomly **selected to take part in PISA in fall 2022**.

PISA provides comparative information on the performance of U.S. students with their peers in other countries. It fosters international engagement across education systems, allowing teachers, education professionals, and policy experts to compare shared experiences in the global learning community. The financial literacy component of PISA provides a range of contextual data that offer insight into students' school and home environments, socioeconomic advantages and disadvantages, sense of well-being, and use of time outside of school.

- While participation in this study is voluntary, your school plays an important role in ensuring that the U.S. sample is representative of the knowledge and skills of all students across the country. As a thank you for your time and effort to participate in PISA: Your school will receive \$250 for participating.
- Your school's PISA school coordinator (a school staff person designated to communicate with PISA staff) will receive \$200 as a thank you for their time and effort.
- Each participating student will be eligible to receive \$25 and a volunteer service certificate of 4 hours from the U.S. Department of Education.
- Your school may also receive a school-level report highlighting the performance of students in your school compared to their peers in other private schools, U.S. schools, and high-performing OECD countries (pending sample size and response rate requirements).

Please review the enclosed materials to learn more about the PISA assessment experience and the benefits of participating. PISA is conducted in the United States by the National Center for Education Statistics (NCES) within the U.S. Department of Education and is administered by Westat, a research firm in Rockville, Maryland. The U.S. Office of Management and Budget (OMB) has approved the data collection under OMB# 1850-0755. Please see the enclosed FAQ for more information on the confidentiality of the data collected.

The PISA assessment window is October 3–November 25, 2022. Within the next few days, Westat will contact you to discuss your school's participation. We understand the ongoing challenges your school faces due to COVID-19, and the health and safety of your students and school staff is our top priority. We will provide significant support to your school by administering the assessment and bringing all necessary materials and equipment. Information about our protocols is included in the enclosed COVID-19 Protocols document.

If you have any questions, please do not hesitate to call 1-888-638-2597 or email PISAHELP@westat.com. You may also get more information by contacting Samantha Burg at NCES at 202-245-7537 or samantha.burg@ed.gov, or by visiting the PISA website at <http://nces.ed.gov/surveys/pisa>.

Your school's participation in PISA is vital for the success of the study in the United States. Thank you for your time and for supporting this important international education study.

Sincerely,

Peggy Carr, Ph.D.  
Associate Commissioner, National Center for Education Statistics  
cc: [State assessment coordinator name]

Enclosures

*The National Center for Education Statistics (NCES) is authorized to conduct the Program for International Student Assessment (PISA) by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).*

### **What is PISA?**

The Program for International Student Assessment (PISA) is an international assessment of students nearing the end of compulsory education that measures how well students apply their knowledge and skills in mathematics, reading, science, and financial literacy to problems set in real-life contexts. Conducted seven times since 2000, the next round of PISA in 2022 will include students from more than 80 countries and education systems around the world, including the United States. PISA is coordinated by the Organization for Economic Cooperation and Development (OECD) and conducted in the United States by the National Center for Education Statistics (NCES) within the U.S. Department of Education.

### **Why is PISA important and what are the benefits of participating?**

PISA provides a unique opportunity for the United States to understand how well students nearing the end of compulsory education are prepared to enter the workforce or post-secondary education in comparison to their peers from more than 80 countries. Through participating in PISA, schools, and students contribute to ongoing efforts to improve education in our country. PISA helps identify U.S. students' strengths and weaknesses in the domains of mathematics, reading, science, and financial literacy and offers insights into successful policies and practices in other countries.

Each school and student that participates in PISA plays a vital role in representing other schools and students that are similar. It is essential that sampled schools contribute to this important measurement of educational progress to ensure the U.S. sample reflects the knowledge and skills of *all* students across the country.

Schools participating in PISA may also receive a school-level report (pending sample size and response rate requirements). The school report, provided only to your school, presents comparisons of your school's average scores with the average scores of participating education systems, including the United States, and can serve as a benchmark for your students' performance among other similar U.S. schools based on specific school-level characteristics.

As a token of appreciation for participating, schools will receive \$250, the school coordinator will receive \$200, students who participate will each receive \$25 as well as 4 hours of volunteer service time.

### **What will schools and students be asked to do in PISA 2022?**

The PISA 2022 has three primary components: (1) a computer-based student assessment, (2) a computer-based student questionnaire, and (3) an online school questionnaire.

- Up to 52 students in each school will be selected to participate in the PISA assessment, which takes about 3 hours, including instructions, breaks, and a questionnaire. Students will answer questions in various combinations of mathematics, reading, science, and financial literacy.
- The principal of each school will be asked to appoint a staff member to act as the PISA school coordinator. The school coordinator will work with Westat staff to coordinate the assessment and submit a student list for sampling. The principal of each school will also be asked to complete a 45-minute online questionnaire about school and student body characteristics and policies.

**How is PISA developed?**

PISA is developed through an international collaborative process involving input from U.S. and international experts in science, reading, mathematics, financial literacy, and educational measurement. The PISA assessment materials are thoroughly reviewed by within-country experts to make sure the materials are appropriate for each country’s students. Finally, the final assessment materials are endorsed by all participating countries.

**What do PISA questions look like?**

Some items require students to select from among possible responses, while others require students solve problems and provide written answers. Examples of PISA assessment questions are available at <http://nces.ed.gov/surveys/pisa/educators.asp> and <https://www.oecd.org/pisa/pisaproducts/pisa-test-questions.htm>.

**Which countries are participating in PISA 2022?**

|                                       |                 |                          |
|---------------------------------------|-----------------|--------------------------|
| Albania                               | Germany         | Norway                   |

# Program for International Student Assessment FREQUENTLY ASKED QUESTIONS

## *PISA 2022 (Fall 2022)* *Information for Schools*

PISA is an international assessment of students nearing the end of compulsory education that measures how well students apply their knowledge and skills to solve problems related to mathematics, reading, and science, and financial literacy in real-life contexts. In PISA 2022, students will be assessed in mathematics, reading, science, financial literacy, or some combination of these subjects. PISA 2022 will be administered in the fall of 2022.

### **What does participating in PISA entail?**

Each school is asked to designate a school coordinator to work with Westat and to submit a list of all students born on or between July 1, 2006 and June 30, 2007. Up to 52 students in each school will be sampled to participate in the PISA assessment, which takes about 3 hours of total time, including instructions, breaks, and a questionnaire. The principal of each school will also be asked to complete an online questionnaire about school and student body characteristics and policies.

### **Why should my school and students participate?**

The participation of selected schools in the United States is vital to ensuring an accurate representation of the overall population of students nearing the end of compulsory education across the country—including U.S. public and private schools. Although the assessment is voluntary, we rely on school and student participation to ensure the results are complete and accurate. We cannot do that without the support of schools like yours.

PISA is administered worldwide in order to help participating school systems and countries understand their strengths and areas for improvement, with the ultimate goal of increasing both the quality and equity of education worldwide. As such, PISA fosters engagement among international education systems, allowing teachers, education professionals, and policy experts to compare shared experiences in the global learning community. By taking part in PISA, your school will have the unique opportunity to impact the bigger picture of education in the United States and across the world.

As a token of appreciation for participating, schools will receive \$250, the school coordinator will receive \$200, and students who participate will each receive \$25 as well as 4 hours of volunteer service time

### **What are the benefits to participating?**

Schools participating in PISA may also receive a school-level report (pending sample size and response rate requirements). The school report presents comparisons of your school's average scores with the average scores of participating education systems including the United States. The report also provides comparisons of your school with other similar U.S. schools based on specific school-level characteristics. The school report is provided only to your school and any published reports from PISA 2022 will not identify participating schools.

### **Will all of our students be asked to participate?**

Probably not. In each school, all students born between July 1, 2006 and June 30, 2007 and enrolled in grade 7 or higher will have an equal chance of selection. Up to 52 students in each school will be selected to participate. Only in very small schools will the school sample likely include all eligible students. In addition, some students with disabilities or limited English proficiency may be offered a limited set of accommodations to enable their participation; otherwise, they may be excused from the assessment.

### **Who conducts the PISA assessment?**

The National Center for Education Statistics (NCES), within the U.S. Department of Education, conducts this study as authorized by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543) and with the approval of the U.S. Office of Management and Budget under OMB# 1850-0755. The assessment process will be undertaken by trained staff from Westat, a research organization under contract to NCES. In compliance with standard protocols, Westat field staff undergoes FBI background checks.

### **How is the school questionnaire administered?**

The school questionnaire is administered online from a secure website. The school questionnaire, which looks at school characteristics such as enrollment and school practices, takes less than an hour to complete.

### **Do teachers or other school staff need to help administer the assessment?**

No. Westat field staff will visit the school on the day of the assessment, bringing with them all the materials required, and will handle the entire administration of the assessment. Field staff will also bring all of the necessary computer equipment. There is no requirement for school resources such as school computers or access to the internet. All that is required is adequate space to set up the equipment and assess the students.

### **When will the PISA be conducted?**

PISA will be conducted between October 3 and November 25, 2022. Westat will work with schools to identify an assessment date convenient for the school in that time period.

### **How long does PISA take?**

Students will take a computer-based assessment. This approximately 3-hour session includes time for instructions, the assessment, breaks, and a questionnaire that students complete about themselves. The assessment location will be used for about 5 hours total, including setup and breakdown by Westat staff. All assessment activities will take place in one day.

### **What will happen with the collected data?**

The data collected for PISA will be used to report on students' knowledge and skills as group descriptions at the national level. All of the information provided by school staff and students may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). The U.S. Office of Management and Budget has approved this data collection under OMB# 1850-0755. Reports of the findings from PISA will not identify participating districts, schools, students, or individual staff. Individual responses will be combined with those from other participants to produce summary statistics and reports.

Visit the PISA website at <http://nces.ed.gov/surveys/pisa>. For additional questions about PISA 2022, contact the PISA U.S. home office at 1-888-638-2597 or email PISAHELP@westat.com.

*The National Center for Education Statistics (NCES) is authorized to conduct the Program for International Student Assessment (PISA) by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3) (iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).*

## Program for International Student Assessment **FREQUENTLY ASKED QUESTIONS**

*PISA 2022 (Fall 2022)*

*Information for Students*

### **What is PISA?**

The Program for International Student Assessment (PISA) is an international assessment of students nearing the end of mandatory schooling that measures how well students apply their knowledge and skills in solving problems in reading, mathematics, science, and financial literacy. Conducted every three years, PISA presents problems that students are likely to encounter in the real world. This fall, students like you from more than 80 countries and education systems, including the United States, will participate in PISA.

### **Why should I participate in PISA?**

You are one of up to 52 students in your school who have been selected to participate in PISA. Participation in PISA is voluntary, but each student who participates plays a vital role in ensuring the U.S. results are representative of *all* types of schools and education environments across the country—including public and private schools. Plus, if you participate in PISA you will...

- Receive a certificate for 4-hours of volunteer service from the U.S. Department of Education;
- Represent students like you across the country; and
- Make an important contribution to this global effort to understand students' ability by representing other students just like you across the United States.

***Only 6,300 students will have the unique opportunity to participate in PISA across the United States. How often do you get the chance to represent your country? Participating in PISA is a national service. You can have an impact on the bigger picture of education in the United States and around the world.***

### **What subjects are assessed in PISA?**

Each student participating in PISA will be assessed in various combinations of the following subjects: reading, mathematics, science, and financial literacy.

### **What types of questions will I see on PISA?**

PISA questions assess the knowledge and skills students have learned, both in and out of school, based on situations you may encounter in real life. Some PISA questions require that you select from a set of provided answers; other PISA questions require that you write out your response. PISA is administered on computer and many of the items are interactive, where you manipulate different pieces of information. To try PISA items on your own, please visit <http://www.oecd.org/pisa/test/>.

### **How long does PISA take?**

The PISA assessment takes approximately 3 hours to complete. This includes time for instructions, the assessment, breaks, and a survey about you.

### **How did my school get selected to take PISA?**

The schools that participate in PISA in the United States are randomly selected from a list of all schools in the country that enroll age-eligible students. This is done to ensure that U.S.

participants accurately represent the entire population of students nearing the end of compulsory education and not just particular types of schools or groups of students.

### **How did I get selected to take PISA?**

The only criteria for being eligible to be selected for PISA are being born on or between July 1, 2006 and June 30, 2007 and being enrolled in grade 7 or higher. From a list of all eligible students provided by your school, up to 52 students were randomly selected to participate. Every eligible student enrolled in a PISA selected school has an equal chance of being selected. Students in other countries are selected in the same way to make sure each country is fairly represented and no country is advantaged or disadvantaged because of the types of schools or groups of students selected.

### **What is done with the information you collect from me?**

PISA is not designed to produce individual test scores and your individual performance is not shared with your teachers, school, or district in any way. Student responses are combined with other student responses and are only used for statistical purposes. The data collected for PISA will be used to report on students' knowledge and skills as group descriptions at the national level. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). The U.S. Office of Management and Budget has approved this data collection under OMB# 1850-0755.

### **Where can I find more information?**

# COVID-19 Protocols

**The coronavirus (COVID-19) pandemic continues to pose significant challenges for state agencies, districts, and schools, while also affecting us all personally. PISA representatives' top priority is to protect the health and safety of students and school staff.**

Our COVID-19 mitigation protocol has been developed using CDC guidelines with the input of health professionals. These protocols are intended to be flexible to adapt to the changing landscape presented by COVID-19. PISA representatives will work with districts and schools to ensure that their COVID-19 protocols are also followed.

## Provided Personal Protective Equipment (PPE)

PISA will provide field staff with PPE:

Disposable  
Masks

Face  
Shields

Disposable  
Gloves

Hand  
Sanitizer

Sanitizing Wipes  
& Spray

To the extent federal, state, or local agencies recommend the use of additional PPE, PISA will ensure that field staff are provided with the same.

## Sanitizing and PPE Protocols

Multiple times during the assessment day, field staff will follow protocols to:

sanitize testing  
equipment and  
equipment cases

replace gloves and  
masks between  
assessment sessions

All used PPE will be discarded in PISA-supplied trash bags and removed from the school by field staff.

## Field Staff COVID-19 Protocol Training

All field staff will be trained on COVID-19 protocols, including the following:

Donning and removal of PPE

Proper disposal of used PPE

Social distancing on/off the clock

Sanitizing equipment and equipment cases

Other school protocols

## Health Monitoring and Testing Protocols

Health monitoring and testing protocols will include the following:

Field staff will be tested for COVID-19 before assessments begin on **September 2022** and regularly throughout the field period, assuming commercial availability nationwide.

Field staff will be expected to perform a COVID-19 Daily Checklist of their health and symptoms before reporting for work at a school. Any field staff who do not successfully pass the daily health assessment will not report to school that day, and will be required to either:

- 1 Test negative for COVID-19 in accordance with CDC guidelines.**
- 2 Be free of COVID-19 symptoms for a 14-day period before conducting any assessments in school.**
- 3 Provide written documentation from their healthcare provider releasing their return to work.**

Before entering school buildings, field staff will take their temperature using a noncontact thermometer, and acknowledge that they are symptom-free.

## School Protocols

Field staff will follow any and all school-specific required COVID-19 protocols, which may include but are not limited to the following:

- 1 Temperature checks and other symptom assessments by the school upon arrival at the school**
- 2 Additional school-required PPE**
- 3 Social distancing guidelines of staff and students**
- 4 Additional sanitizing requirements**

[School District]

[Address 1]

[City], [State] [Zip code]

Dear [Title] [Name Last]:

The United States and more than 80 other countries and education systems will participate in the 2022 Program for International Student Assessment (PISA). PISA is the largest international education study in the world and measures the reading, mathematics, science, and financial literacy of students nearing the end of compulsory education. Your school is one of about 290 schools across the United States that has been randomly **selected to take part in PISA in fall 2022**.

PISA provides comparative information on the performance of U.S. students with their peers in other countries. It fosters international engagement across education systems, allowing teachers, education professionals, and policy experts to compare shared experiences in the global learning community. The financial literacy component of PISA provides a range of contextual data that offer insight into students' school and home environments, socioeconomic advantages and disadvantages, sense of well-being, and use of time outside of school.

- While participation in this study is voluntary, your school plays an important role in ensuring that the U.S. sample is representative of the knowledge and skills of all students across the country. As a thank you for your time and effort to participate in PISA: Your school will receive \$250 for participating.
- Your school's PISA school coordinator (a school staff person designated to communicate with PISA staff) will receive \$200 as a thank you for their time and effort.
- Each participating student will be eligible to receive \$25 and a volunteer service certificate of 4 hours from the U.S. Department of Education.
- Your school may also receive a school-level report highlighting the performance of students in your school compared to their peers in other private schools, U.S. schools, and high-performing OECD countries (pending sample size and response rate requirements).

Please review the enclosed materials to learn more about the PISA assessment experience and the benefits of participating. PISA is conducted in the United States by the National Center for Education Statistics (NCES) within the U.S. Department of Education and is administered by Westat, a research firm in Rockville, Maryland. The U.S. Office of Management and Budget (OMB) has approved the data collection under OMB# 1850-0755. Please see the enclosed FAQ for more information on the confidentiality of the data collected.

The PISA assessment window is October 3–November 25, 2022. Within the next few days, Westat will contact you to discuss your school's participation. We understand the ongoing challenges your school faces due to COVID-19, and the health and safety of your students and school staff is our top priority. We will provide significant support to your school by administering the assessment and bringing all necessary materials and equipment. Information about our protocols is included in the enclosed COVID-19 Protocols document.

If you have any questions, please do not hesitate to call 1-888-638-2597 or email PISAHELP@westat.com. You may also get more information by contacting Samantha Burg at NCES at 202-245-7537 or samantha.burg@ed.gov, or by visiting the PISA website at <http://nces.ed.gov/surveys/pisa>.

Your school's participation in PISA is vital for the success of the study in the United States. Thank you for your time and for supporting this important international education study.

Sincerely,

Peggy Carr, Ph.D.

Associate Commissioner, National Center for Education Statistics

cc: [State assessment coordinator name]

Enclosures

PISA 2022 Brochure - Private Schools - Front Cover

**What is PISA?**

The Program for International Student Assessment (PISA) is an international assessment of students nearing the end of compulsory education that measures how well students apply their knowledge and skills in mathematics, reading, science, and financial literacy to problems set in real-life contexts. Conducted seven times since 2000, the next round of PISA in 2022 will include students from more than 80 countries and education systems around the world, including the United States. PISA is coordinated by the Organization for Economic Cooperation and Development (OECD) and conducted in the United States by the National Center for Education Statistics (NCES) within the U.S. Department of Education.

### **Why is PISA important?**

PISA provides a unique opportunity for the United States to understand how well students nearing the end of compulsory education are prepared to enter the workforce or post-secondary education in comparison to their peers from more than 80 countries. Through participating in PISA, schools, and students contribute to ongoing efforts to improve education in our country. PISA helps identify U.S. students' strengths and weaknesses in the domains of mathematics, reading, science, and financial literacy and offers insights into successful policies and practices in other countries.

### **Why should private schools participate and what are the benefits?**

Each school and student that participates in PISA plays a vital role in representing other schools and students that are similar. It is essential that sampled schools contribute to this important measurement of educational progress to ensure the U.S. sample reflects the knowledge and skills of *all* students across the country.

Schools participating in PISA may also receive a school-level report (pending sample size and response rate requirements). The school report, provided only to your school, presents comparisons of your school's average scores with the average scores of participating education systems, including the United States, and can serve as a benchmark for your students' performance among other similar U.S. schools based on specific school-level characteristics.

As a token of appreciation for participating, schools will receive \$250, the school coordinator will receive \$200, students who participate will each receive \$25 as well as 4 hours of volunteer service time.

### **What will schools and students be asked to do in PISA 2022?**

PISA 2022 has three primary components: (1) a computer-based student assessment, (2) a computer-based student questionnaire, and (3) an online school questionnaire.

- Up to 52 students in each school will be selected to participate in the PISA assessment, which takes about 3 hours, including instructions, breaks, and a questionnaire. Students will answer questions in various combinations of mathematics, reading, science, and financial literacy.
- The principal of each school will be asked to appoint a staff member to act as the PISA school coordinator. The school coordinator will work with Westat staff to coordinate the assessment and submit a student list for sampling. The principal of each school will also be asked to complete a 45-minute online questionnaire about school and student body characteristics and policies.

### How is PISA developed?

PISA is developed through an international collaborative process involving input from U.S. and international experts in science, reading, mathematics, financial literacy, and educational measurement. The PISA assessment materials are thoroughly reviewed by within-country experts to make sure the materials are appropriate for each country’s students. Finally, the final assessment materials are endorsed by all participating countries.

### What do PISA questions look like?

Some items require students to select from among possible responses, while others require students solve problems and provide written answers. Examples of PISA assessment questions are available at <http://nces.ed.gov/surveys/pisa/educators.asp> and <https://www.oecd.org/pisa/pisaproducts/pisa-test-questions.htm>.

### Which countries are participating in PISA 2022?

|                                       |                 |                          |
|---------------------------------------|-----------------|--------------------------|
| Albania                               | Germany         | Norway                   |
| Algeria                               | Greece          | Peru                     |
| Argentina                             | Hong Kong-China | Poland                   |
| Australia                             | Hungary         | Portugal                 |
| Austria                               | Iceland         | Qatar                    |

## Program for International Student Assessment **FREQUENTLY ASKED QUESTIONS**

### *PISA 2022 (Fall 2022)* *Information for Schools*

PISA is an international assessment of students nearing the end of compulsory education that measures how well students apply their knowledge and skills to solve problems related to mathematics, reading, and science, and financial literacy in real-life contexts. In PISA 2022, students will be assessed in mathematics, reading, science, financial literacy, or some combination of these subjects. PISA 2022 will be administered in the fall of 2022.

#### **What does participating in PISA entail?**

Each school is asked to designate a school coordinator to work with Westat and to submit a list of all students born on or between July 1, 2006 and June 30, 2007. Up to 52 students in each school will be sampled to participate in the PISA assessment, which takes about 3 hours of total time, including instructions, breaks, and a questionnaire. The principal of each school will also be asked to complete an online questionnaire about school and student body characteristics and policies.

#### **Why should my school and students participate?**

The participation of selected schools in the United States is vital to ensuring an accurate representation of the overall population of students nearing the end of compulsory education across the country—including U.S. public and private schools. Although the assessment is voluntary, we rely on school and student participation to ensure the results are complete and accurate. We cannot do that without the support of schools like yours.

PISA is administered worldwide in order to help participating school systems and countries understand their strengths and areas for improvement, with the ultimate goal of increasing both the quality and equity of education worldwide. As such, PISA fosters engagement among international education systems, allowing teachers, education professionals, and policy experts to compare shared experiences in the global learning community. By taking part in PISA, your school will have the unique opportunity to impact the bigger picture of education in the United States and across the world.

As a token of appreciation for participating, schools will receive \$250, the school coordinator will receive \$200, and students who participate will each receive \$25 as well as 4 hours of volunteer service time.

#### **What are the benefits to participating?**

Schools participating in PISA may also receive a school-level report (pending sample size and response rate requirements). The school report presents comparisons of your school's average scores with the average scores of participating education systems including the United States. The report also provides comparisons of your school with other similar U.S. schools based on specific school-level characteristics. The school report is provided only to your school and any published reports from PISA 2022 will not identify participating schools.

#### **Will all of our students be asked to participate?**

Probably not. In each school, all students born between July 1, 2006 and June 30, 2007 and enrolled in grade 7 or higher will have an equal chance of selection. Up to 52 students in each school will be selected to participate. Only in very small schools will the school sample likely include all eligible students. In addition, some students with disabilities or limited English proficiency may be offered a limited set of accommodations to enable their participation; otherwise, they may be excused from the assessment.

### **Who conducts the PISA assessment?**

The National Center for Education Statistics (NCES), within the U.S. Department of Education, conducts this study as authorized by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543) and with the approval of the U.S. Office of Management and Budget under OMB# 1850-0755. The assessment process will be undertaken by trained staff from Westat, a research organization under contract to NCES. In compliance with standard protocols, Westat field staff undergoes FBI background checks.

### **How is the school questionnaire administered?**

The school questionnaire is administered online from a secure website. The school questionnaire, which looks at school characteristics such as enrollment and school practices, takes about 45 minutes to complete.

### **Do teachers or other school staff need to help administer the assessment?**

No. Westat field staff will visit the school on the day of the assessment, bringing with them all the materials required, and will handle the entire administration of the assessment. Field staff will also bring all of the necessary computer equipment. There is no requirement for school resources such as school computers or access to the internet. All that is required is adequate space to set up the equipment and assess the students.

### **When will the PISA be conducted?**

PISA will be conducted between October 3 and November 25, 2022. Westat will work with schools to identify an assessment date convenient for the school in that time period.

### **How long does PISA take?**

Students will take a computer-based assessment. This approximately 3-hour session includes time for instructions, the assessment, breaks, and a questionnaire that students complete about themselves. The assessment location will be used for about 5 hours total, including setup and breakdown by Westat staff. All assessment activities will take place in one day.

### **What will happen with the collected data?**

The data collected for PISA will be used to report on students' knowledge and skills as group descriptions at the national level. All of the information provided by school staff and students may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). The U.S. Office of Management and Budget has approved this data collection under OMB# 1850-0755. Reports of the findings from PISA will not identify participating districts, schools, students, or individual staff. Individual responses will be combined with those from other participants to produce summary statistics and reports.

### **Where can I find more information?**

Visit the PISA website at <http://nces.ed.gov/surveys/pisa>. For additional questions about PISA 2022, contact the PISA U.S. home office at 1-888-638-2597 or email PISAHELP@westat.com.

*The National Center for Education Statistics (NCES) is authorized to conduct the Program for International Student Assessment (PISA) by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3) (iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).*

## Program for International Student Assessment **FREQUENTLY ASKED QUESTIONS**

*PISA 2022 (Fall 2022)*

*Information for Students*

### **What is PISA?**

The Program for International Student Assessment (PISA) is an international assessment of students nearing the end of mandatory schooling that measures how well students apply their knowledge and skills in solving problems in reading, mathematics, science, and financial literacy. Conducted every three years, PISA presents problems that students are likely to encounter in the real world. This fall, students like you from more than 80 countries and education systems, including the United States, will participate in PISA.

### **Why should I participate in PISA?**

You are one of up to 52 students in your school who have been selected to participate in PISA. Participation in PISA is voluntary, but each student who participates plays a vital role in ensuring the U.S. results are representative of *all* types of schools and education environments across the country—including public and private schools. Plus, if you participate in PISA you will...

- Receive a certificate for 4-hours of volunteer service from the U.S. Department of Education;
- Represent students like you across the country; and
- Make an important contribution to this global effort to understand students' ability by representing other students just like you across the United States.

***Only 6,300 students will have the unique opportunity to participate in PISA across the United States. How often do you get the chance to represent your country? Participating in PISA is a national service. You can have an impact on the bigger picture of education in the United States and around the world.***

### **What subjects are assessed in PISA?**

Each student participating in PISA will be assessed in various combinations of the following subjects: reading, mathematics, science, and financial literacy.

### **What types of questions will I see on PISA?**

PISA questions assess the knowledge and skills students have learned, both in and out of school, based on situations you may encounter in real life. Some PISA questions require that you select from a set of provided answers; other PISA questions require that you write out your response. PISA is administered on computer and many of the items are interactive, where you manipulate different pieces of information. To try PISA items on your own, please visit <http://www.oecd.org/pisa/test/>

### **How long does PISA take?**

The PISA assessment takes approximately 3 hours to complete. This includes time for instructions, the assessment, breaks, and a survey about you.

### **How did my school get selected to take PISA?**

The schools that participate in PISA in the United States are randomly selected from a list of all schools in the country that enroll age-eligible students. This is done to ensure that U.S.

participants accurately represent the entire population of students nearing the end of compulsory education and not just particular types of schools or groups of students.

### **How did I get selected to take PISA?**

The only criteria for being eligible to be selected for PISA are being born on or between July 1, 2006 and June 30, 2007 and being enrolled in grade 7 or higher. From a list of all eligible students provided by your school, up to 52 students were randomly selected to participate. Every eligible student enrolled in a PISA selected school has an equal chance of being selected. Students in other countries are selected in the same way to make sure each country is fairly represented and no country is advantaged or disadvantaged because of the types of schools or groups of students selected.

### **What is done with the information you collect from me?**

PISA is not designed to produce individual test scores and your individual performance is not shared with your teachers, school, or district in any way. Student responses are combined with other student responses and are only used for statistical purposes. The data collected for PISA will be used to report on students' knowledge and skills as group descriptions at the national level. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). The U.S. Office of Management and Budget has approved this data collection under OMB# 1850-0755.

### **Where can I find more information?**

School Coordinator Email announcing E-Filing for the Main Study

Subject: PISA E-Filing open

Attachment: PISA 2022 E-Filing Instructions

Dear,

Thank you for your time and effort working on the PISA 2022!

We are pleased to announce that [WWW.MYPISA.US](http://WWW.MYPISA.US) is now ready to receive student electronic listing files (e-files).

The instructions for preparing and submitting your school's student listing files are attached to this email. The PISA E-filing Instructions can also be accessed online from the website. Along with the instructions, we've prepared a formatted Excel template to make preparing the e-file more convenient.

If you have yet to register on [WWW.MYPISA.US](http://WWW.MYPISA.US), please let us know so we can send you the registration ID for your school.

Reach out to the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Time at 1-888-638-2597 or email [PISAHelp@westat.com](mailto:PISAHelp@westat.com).

Thanks again for your support.

All the best,

The U.S. PISA Team

*supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3) (iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).*

The National Center for Education Statistics (NCES) is authorized to conduct the Program for International Student Assessment (PISA) by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students’ education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0755. The time required to complete this information collection is estimated to average up to 240 minutes per school coordinator, including the time to review instructions, gather the data needed, and complete and review the information collection. If you have any comments or concerns regarding the accuracy of the time estimate(s), suggestions for improving the form, or questions about the status of your individual submission of this form, write directly to: The Program for International Student Assessment (PISA) 2022, National Center for Education Statistics (NCES), Potomac Center Plaza, 550 12th Street, SW, Room 4007, Washington, DC 20202.

PISA 2022: Student Records Collection: 4 hours  
OMB Clearance Number 1850-0755  
Expiration Date: xx/xx/xxxx

# Preparing the PISA Electronic Student File (E-File)

## Step 1: Identify ALL students at your school who meet the eligibility criteria

Criteria for PISA student eligibility are:

- Enrolled in Grade 7 or higher, AND
- Born **between July 1, 2006 and June 30, 2007**.

PISA needs accurate information about all students at your school who meet the above criteria for student eligibility. Include all students, even those students who typically may be excluded from other testing programs, such as students with IEPs or 504 plans (SD), English language learners (ELL), or students with limited English proficiency (LEP). Do not include students who are known to be withdrawn on your list. All other eligible students **must** be added to your list of students.

## Step 2: List each of the eligible students along with their demographic information (see Figure 1 below for an example)

Using the Excel template provided on the MyPISA.us website ([www.MyPISA.us](http://www.MyPISA.us)), list students in your school who are eligible for PISA along with their demographic information.

- Student first name
- Student middle name (not required)
- Student last name
- Grade in school (Grade 7 – Grade 12 as applicable)
- Month of birth (M or MM; must be submitted in numeric format, not text (1 or 01 for JAN))
- Year of birth (YYYY: 2006 or 2007)
- Sex (numeric or text (1/2, F/M))

Figure 1: Example of Electronic Student File

| Student First Name | Student Middle Name | Student Last Name | Grade | Month of Birth | Year of Birth | Sex |
|--------------------|---------------------|-------------------|-------|----------------|---------------|-----|
| Ted                |                     | Brooks            | 10    | 12             | 2006          | 2   |
| Jeffery            |                     | Jenkins           | 9     | 11             | 2006          | 2   |
| Rose               |                     | Matthews          | 10    | 7              | 2006          | 1   |
| Jennifer           |                     | Trader            | 12    | 8              | 2006          | 1   |
| Jose               |                     | Rodriguez         | 10    | 3              | 2007          | 2   |
| Roy                |                     | Zastrow           | 9     | 4              | 2007          | 2   |
| Sam                |                     | Walker            | 10    | 5              | 2007          | 2   |
| Julie              |                     | Walters           | 9     | 6              | 2007          | 1   |

# Submitting the PISA Electronic Student File (E-File)

**Step 1: Upload file.** After you have created and saved your student E-File, proceed to [www.MyPISA.us](http://www.MyPISA.us). Once you have logged in, click the 'Submit Student List' link on the left side of the page (Box 1 below). Then click the "Browse" button to locate your file (box 2 below). Once you've located the file and clicked ok, click "Upload" (box 3 below).

Exhibit 1. Submit Student List - initial screen

The screenshot shows the 'Submit Student List' page. The header includes the IES logo and the text 'Program for International Student Assessment'. The left sidebar has a menu with 'Submit Student List' highlighted. The main content area has a title 'Submit Student List' and instructions. Below the instructions is a table with columns 'Filename', 'Filesize', 'upload', and 'Uploaded By'. The table contains one row: 'Demo\_amsrs.xlsx', '19186', '2:15:36 PM', and 'Lorinda Cummings'. Below the table is a form with a 'Choose File' button and an 'Upload' button. A dropdown menu for 'column headers' is set to 'Yes'. A blue box labeled '1' is around the 'Submit Student List' link in the sidebar. A blue box labeled '2' is around the 'Choose File' button. A blue box labeled '3' is around the 'Upload' button.

**Step 2: Map Columns.** The column headings in your file are shown in rows on the left side of the page. In each row, for each heading on the left, click on the down arrow next to the words in the table that read "Column Contains..." on the right. If there is no appropriate description in the drop-down list for your column heading, select N/A.

## Exhibit 2. Submit Student List – Identify Your Columns

### Submit Student List

#### Identify Your Columns

We need to know what information is in each column of your student data file (E-File). If you provide numbers for each column in your submitted E-File. Click on the down arrows in **Your Column**

 [View original file](#)

| Column Heading 1:   | Your Column Contains:   |
|---------------------|-------------------------|
| Student First Name  | [Student First Name ▼]  |
| Student Middle Name | [Student Middle Name ▼] |
| Student Last Name   | [Student Last Name ▼]   |
| Grade               | [Grade ▼]               |
| Month of Birth      | [Column Contains ... ▼] |
| Year of Birth       | [Column Contains ... ▼] |
| Sex                 | [Column Contains ... ▼] |

**Step 3: Match Values to PISA Codes.** The next step is matching the values on your file to PISA codes. The values in your columns will again be displayed on the left. Select the corresponding PISA code from the drop down list on the right (see exhibit 3). If there is no appropriate description in the drop-down list for your column heading, select N/A. When you are finished matching your values to PISA codes, click next. Repeat the above instructions to assign male/female codes and click next (see exhibit 4).

## Exhibit 3. Submit Student List - Match your Values to PISA Codes (grade mapping)

### Submit Student List

#### Match Your Values to PISA Codes

PISA also needs to know the values for each of the columns in your E-File. The tables on the next few web pages contain the following information for each column:

- Your Values: The values in your E-File
- PISA Codes: Click on the down arrow and select the PISA Code that best matches Your Values
- Number: The number of students in your E-File with that value
- Percentage: The percentage in your E-File with that value

Use the Previous and Next buttons to navigate from column header to column header.

If there is an error in your data file, exit E-File, correct the problem in your Excel file, and upload the file again.

 [View original file](#)

#### Grade - Column 1 of 2

| Your Values | PISA Codes | Number | Percentage |
|-------------|------------|--------|------------|
| 10          | [10 ▼]     | 43     | 89.58%     |
| 11          | [11 ▼]     | 5      | 10.42%     |

If you need help accessing this website, please contact the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHHELP@westat.com](mailto:PISAHHELP@westat.com).

## Exhibit 4. Submit Student List - Match your Values to PISA Codes (sex mapping)

# Submit Student List

### Match Your Values to PISA Codes

If there is an error in your data file, exit E-File, correct the problem in your Excel file, and upload the file again.

 [View original file](#)

### Sex - Column 2 of 2

| Your Values | PISA Codes | Number | Percentage |
|-------------|------------|--------|------------|
| F           | Male       | 28     | 58.33%     |
| M           | Female     | 20     | 41.67%     |

**Step 4: Verify your E-file.** The final step is to verify that the information is correct and submit your file. Check that the distribution of students by grade and sex match the total number of students you submitted. Indicate whether this information is correct and click “Submit.” If the information is incorrect click “Incorrect” and then click on the “Submit Student List” link on the left side of the screen. This will save your progress and exit the current e-file. You can access this file again or upload a new corrected file and start over using the same file upload process described in Step 1.

**Exhibit 5. Submit Student List –Verify your E-file**

## Submit Student List

### Verify Your E-File

The table below summarizes the information you have provided on your student list (number of students in your E-File, and the total number of students currently enrolled in grade

Record whether the information is correct or incorrect by selecting the appropriate button.

| Female                   | 28     | 58.33%     |
| <b>Total Enrollment:</b> | 48     |            |

- Information is **CORRECT and CURRENT.**
- Information is **INCORRECT.**

**Online Student Data Checks** - After you click "Submit" a number of online data validation checks are performed by our programs. These checks include checking the number of listed students against statistical estimates, making sure there is an accurate distribution of students by grade based on statistical estimates, checking that all students included are birth-year eligible (born in 2006 or 2007), and checking for any missing data. If the data fail these online checks, you will be presented with a screen that describes the issue, the location of the row(s) in your file that contains the errant data, and will need to correct the file and upload a new version. Exhibit 6 (below) provides an example of a file with missing data. Notice that the affected row is provided for each instance where the check failed. This is designed to help you efficiently locate and ameliorate any issues. Exhibit 7 provides an example of a file where ineligible students were included.

**Exhibit 6. Online data checks**

**IES Institute of Education Sciences** | **Program for International Student Assessment** | admin | Help | Log off

WESTAT HIGH SCHOOL - 1600 Research Blvd, Rockville, MD - WESTAT PUBLIC SCHOOLS

During the upload process, a series of validation checks are run on your file. Listed below are the failed checks from your uploaded file. **These issues must be fixed in your file, before you can complete the submission process.** Each check gives the row number(s) from the Excel file where the error occurred.

If your columns have been incorrectly assigned, use the **Update Column Mappings** button at the bottom of the page to make corrections. If changes must be made to the data in the file, use the **Start Over** button to upload a new file, after you have made the necessary corrections.

Click the **View Original File** link to review your uploaded file.

[View original file](#)

- Firstname:** must not be missing for any records. The following rows have an invalid Firstname value.

| Firstname | Affected Rows |
|-----------|---------------|

| 2002          | 6              | 18            |
| 2003          | 2              | 11            |

[Update Column Mappings](#) [Start Over](#)

Along with the file validation checks, the total number of students is compared to the statistical estimate of eligible students. If there is a 10% or more difference in enrollment, which is typical for most every school, international standards for data collection require that we ask school coordinators for a possible reason. Typical reasons include redistricting, the schools being located within a growing or shrinking community, or near an army base. Exhibit 8 provides a screen shot of the enrollment verification check and comment box. **This check does not prohibit you from completing your e-file.** Simply provide a comment in the box and continue.

### Exhibit 7. Online data check – enrollment verification

## Submit Student List

#### Verify Your E-File

The table below summarizes the information you have provided on your student list (E-File). Please review the information and ensure it is correct. Total Enrollment at the bottom of the table should match the number of students in your E-File, ± 1.

Record whether the information is correct or incorrect by selecting the appropriate button at the bottom of the table. If the information is incorrect, you will need to correct your E-File and resubmit it.

- Information is **CORRECT and CURRENT**.  
 Information is **INCORRECT**.

If at any time you realize that every eligible student was not listed, you can exit e-filing, correct the file, and upload a new one. If you have any questions or would like to talk with someone about e-filing, please reach out to the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHELP@westat.com](mailto:PISAHELP@westat.com).

Note that neither students nor teachers can be sampled until your student *and* teacher lists are both submitted.

## PISA E-file reminder email to School Coordinator

Subject: PISA E-File Reminder

Attachment: PISA 2022 E-Filing Instructions

Dear School Coordinator:

Welcome and thank you for your efforts as the school coordinator for the Program for International Student Assessment (PISA) 2022 at your school!

We are nearing the deadline for your student lists to be submitted for sampling (**October 1, 2022**). Please upload your school's list as soon as possible so that sampled students can be notified about the study.

Detailed instructions for submitting your list to PISA are included in the enclosed document titled **PISA 2022 E-Filing Instructions**.

If you have any questions about the instructions, please contact the PISA Help Desk 1-888-638-2597, or send an email to PISAHELP@westat.com. The e-filing instructions are also posted on the [MyPISA.us](https://www.mypisa.us) website ([www.mypisa.us](https://www.mypisa.us)).

Sincerely,

The PISA USA Team

*The National Center for Education Statistics (NCES) is authorized to conduct the Program for International Student Assessment (PISA) by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3) (iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).*

## Email to School Coordinator when student samples are complete and Student Tracking and School Logon Forms have been posted to MyPISA.us

Subject: PISA Student Sampling Complete

Hello!

We have processed the list of students from your school and selected a sample of students for the assessment. The following materials are now available on [www.MyPISA.us](http://www.MyPISA.us):

- Student Tracking Form
- School Questionnaire Logon Form

To access the files:

1. Log into [www.MyPISA.us](http://www.MyPISA.us) with your username/password.
2. Click the Documents link in the "What you Need to Know" section.
3. Click on the link in the upper center of the page under "Download Your School's materials here:"

To open the files, use the password **1x2y3z45a6**

Please review and update the Student Tracking Form following the steps provided in chapter 3, section 3.3 of your School Coordinator Handbook.

Please distribute the School Logon Forms.

Your PISA Test Administrator will be in contact with you to plan for the assessment. He or she can assist you in answering any questions you may have.

If you have any further questions, please feel free to call the PISA Help Desk at 1-888-638-2597, or send an email to [PISAHELP@westat.com](mailto:PISAHELP@westat.com)

Thank you again!

The PISA Team

**PISA 2022 Respondent Communications**  
**PISA 2022 – Principal Questionnaire Invitation**

Dear «principal»:

The United States is participating in an important international study: the Program for International Student Assessment (PISA). PISA is the largest international assessment of education in the world, with more than 80 countries and education systems participating in each cycle. It provides comparative information on the performance of U.S. 15-year-old students in mathematics, reading, and science with 15-year-old students in other countries.

Your school is one of 200 schools across the United States that are taking part in the PISA 2022. Part of the study is an online school questionnaire that the principals of the selected schools complete. The questionnaire takes about 45 minutes to complete. This information, combined with responses from students, helps to provide a more complete understanding of student achievement and contexts for learning.

Use the provided link and unique account information below to complete your questionnaire.

## PISA School Coordinator Handbook Cover Letter

Welcome and thank you for your efforts as the school coordinator for Program for International Student Assessment (PISA) 2022 at your school. In PISA 2022, the United States will participate along with more than 80 other countries and education systems in a study that produces important international benchmarks in reading, mathematics, science, and financial literacy of 15-year-old students. Your assistance is critical to the success of the study.

If you have not already done so, the first step is to generate an electronic student list of all 15-year-old students in your school and to submit it to PISA via the MyPISA.us secure website. Detailed instructions for how to submit student lists to PISA are included in a document titled **PISA 2022 E-Filing Instructions** that was emailed to you. These instructions can also be found in Appendix C of the enclosed School Coordinator Handbook. If you would like that document emailed to you again, please contact the PISA Help Desk at [PISAHelp@westat.com](mailto:PISAHelp@westat.com) or by calling 1-888-638-2597. The e-filing instructions are also posted on the MyPISA.us website ([www.mypisa.us](http://www.mypisa.us)).

After submitting your student list for e-filing, you will receive an email notifying you that your school's tracking form, which list the selected students, are ready for you to download from MyPISA.us. Once downloaded, please review and update the information as necessary. The enclosed document, **PISA 2022 School Coordinator Handbook**, describes what you should do with each form you downloaded.

Your PISA representative will contact you in approximately 2 weeks to review the PISA materials with you, answer any questions you may have, and set up a pre-assessment visit at your school to:

- \* identify students with special needs who may need accommodations to be tested, or may not be able to participate in the assessment;
- \* identify other students listed who cannot participate (withdrawn or ineligible for other reasons);
- \* confirm the date, time, and location for the assessment sessions;
- \* meet with selected students to introduce them to PISA and motivate them to participate and do their best; and
- \* review parent/guardian notification.

Thank you for your time and support of this important international study. We look forward to working with you to make PISA a positive experience for your school.

Sincerely,  
The PISA USA Team

# CHAPTER 01: INTRODUCTION

Thank you for agreeing to be a school coordinator for PISA 2022. As your school has been selected to represent the United States in this large scale international assessment program, you will play a very important role in making sure that the assessment is carried out smoothly and in a standard way. In doing so, you will contribute significantly to the PISA objectives of improving the quality of schooling for students in the United States. This handbook provides instructions on the tasks you will need to complete for implementing PISA in your school.

## 1.1. What is PISA?

PISA stands for the **Program for International Student Assessment**, sponsored by the Organization for Economic Cooperation and Development (OECD). PISA has been conducted since 2000 and involves more than 80 participating countries. PISA 2022 will be conducted in fall 2022.

PISA has the following characteristics:

- The world's largest international survey in education
- Surveys students aged about 15 years
- Assesses students' preparedness for adult life
- Measures students' literacy in mathematics, reading, science, and financial matters
- Collects context information about educational practices in participating countries

Undertaking PISA is important because the results of the assessment can be used to:

- indicate how well prepared students in the United States are for learning once they leave school;
- identify areas for improvement over time by schools, education systems, and governments;
- allow a comparison of student performance and the learning environment between different countries/economies.

For more details about PISA, refer to the OECD website at <https://www.oecd.org/pisa/>.

### **Note on Confidentiality**

All of the information provided by you, other school staff, and students may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). No participating individual or school will be identified in any report released by the assessment program.

## 1.2. Components of PISA

The following describes the assessment and the different types of questionnaires.

### 1.2.1. PISA Assessment

Up to 52 students from your school will be randomly sampled to complete a 2-hour computer-based test consisting of questions in mathematics, reading, science, and financial literacy.

### 1.2.2. Student Questionnaires

Students will return after a break (preferably lunch) and complete a 65-minute Student Questionnaire, which consists of:

- The **Student Questionnaire** – examines students' attitudes towards learning and their life experiences.
- The **Financial Literacy Questionnaire** – covers questions about students' experience with money matters in school and outside of school.
- The **Information and Communication Technology (ICT) Familiarity Questionnaire** – explores students' ICT activities and attitudes.

### 1.2.3. School Questionnaire

Questionnaires are an important part of PISA and provide valuable information that expands the assessment results. As school coordinator, you are tasked with overseeing the completion of the school questionnaire and monitoring the completion on [www.MyPISA.us](http://www.MyPISA.us).

The **School Questionnaire** collects information about how education systems work within and between countries. The School Questionnaire will be completed online by the school's head administrator using a school-specific login and password. The questionnaire takes about 45 minutes to complete.

## 1.3. Role of the School Coordinator

As a school coordinator, you act as the liaison between your school and the PISA test administrator. The actual assessment will be conducted by the test administrator. This section summarizes the tasks you will perform along with the key forms you will need.

### 1.3.1. PISA Forms

**Exhibit 1.1** lists the important forms with which you should be familiar. **It is critical that you fill out these forms accurately and completely so that student performance and questionnaire responses can be validly and reliably linked to student demographics.**

### Exhibit 1.1. Purpose of Forms

| Form                               | Purpose  | Completed by   |
|------------------------------------|--|--|
| Student List<br>(student E-File)   | To list <b>all</b> students at your school eligible for PISA.  | School Coordinator,<br>submitted via MyPISA.us   |
| Student Tracking Form              | To indicate all students <b>sampled</b> from the school participating in PISA and to record demographic information about these students and student attendance for the assessment and Student Questionnaire session | PISA home office,<br>downloaded and updated by<br>school coordinator and test<br>administrator |
| School Questionnaire<br>Login Form | To give to the head administrator to log in to the online School Questionnaire.  | PISA home office,<br>downloaded by school<br>coordinator                                       |

#### 1.3.2. Key activities for the School Coordinator

The school coordinator will assist the test administrator with preparations before and on assessment day.

PISA has provided a website, [www.MyPISA.us](http://www.MyPISA.us), to facilitate the communication between your school and the study. One of the key activities as school coordinator is providing an electronic file of students (student E-File) that lists all eligible students at your school. If you have yet to submit this file, instructions for preparing and submitting the file can be found in the “Documents” section on [www.MyPISA.us](http://www.MyPISA.us) or see Appendix B of this handbook. Alternatively, you can send an email to [PISAHelp@westat.com](mailto:PISAHelp@westat.com) and we will be glad to send them to you directly. Once your student list has been processed and sampled, you will be notified to download your school’s PISA forms from the “Documents” section on [www.MyPISA.us](http://www.MyPISA.us). PISA will provide you with the following:

- The Student Tracking Form (lists the students selected for the PISA assessment). You may also use this form when notifying school staff and students of the date, time, and location of the assessment session.
- Instructions for handling the School Questionnaire along with other informational materials for composing and E-Filing your student list.

It is essential that the procedures described in this manual are followed carefully to ensure that the PISA sessions are administered the same way in all participating countries/economies. **Failure to do so might invalidate the results of the study.**

A summary of your key activities is presented in **Exhibit 1.2**.

**Exhibit 1.2. Key Activities for PISA School Coordinators**

| <b>Stage</b>   | <b>Date</b>                                 | <b>Activity</b>  | <b>Page number</b> |
|--|---|--|--------------------|
| <b>Preliminary tasks</b>   | 3–6 weeks prior to the assessment day       | Confirm assessment date and location for the assessment session                                    | 8                  |
|  |   | Prepare a Student list   |                    |
| <b>Before the assessment</b>   | 1–2 weeks prior to the assessment day       | Receive and check PISA materials   | 10                 |
|  |   | Notify school staff, students, and parents about the assessment                                    | 10                 |
|  |   | Review and update the Student Tracking Form  | 11                 |
|  | 1–2 weeks prior to assessment               | Organize and confirm assessment plans with school staff, students, parents, and test administrator | 20                 |
|  |   | Hold preassessment call with the test administrator  | 20                 |
|  |   | Distribute School Questionnaire Login Form to appropriate person at your school                    | 21                 |
| A few days prior to the assessment   | Confirm School Questionnaire completion     | 22   |                    |
| <b>During and after the assessment</b>   | Assessment day                              | Meet with the test administrator(s) before the assessment  | 24                 |

# CHAPTER 02: PRELIMINARY TASKS

## 2.1. Confirm date and location for the assessment sessions

PISA will take place between October 3 and November 25, 2022. It is important when confirming the scheduled assessment date with the test administrator to check that there are no other events (e.g. pep rallies, college fairs, school dances) taking place at your school that could interfere with the assessment session or with the attendance of the selected students. You will then set the location and time of the assessment with the test administrator.

**Exhibit 2.1** presents the assessment timings that you should consider when reserving assessment space. This includes time needed for the PISA team to set up the space before students arrive and time for packing up materials and equipment after the assessment.

It is best to schedule the session to start as early in the school day as possible to allow time to conduct the Student Questionnaire session. Occasionally, it may be necessary to conduct one or more sessions on another day.

When scheduling the assessment times and locations, you should expect to reserve the location for the assessment for 6 hours. However, if one location is not available for the full 6 hours, reserve 5 hours for the assessment and an additional 2 hours in the second location for the Student Questionnaire. This will give staff time to pack up and set up all 52 tablets in the new location.

PISA staff will bring in all computer equipment needed for the assessment. When considering an assessment location, keep the following factors in mind:

- Depending on your school's COVID-19 protocols and social distancing guidelines, it may not be possible to assess all 52 students in one location. Choose the appropriate number of locations to suit your school's situation.
- The assessment should take place in an area free of distractions and interruptions.
- The space will need 2–4 working electrical outlets.
- If the school is multilevel, we would request that the assessment location be assigned on the ground floor or that access to an elevator is available to facilitate moving equipment around easily.
- There will need to be enough space to set up 52 tablets, although separate rooms with less than 52 spaces are okay.
- If possible, we would prefer to conduct the questionnaire in the same location(s) as the assessment so that we do not have to pack up all of the computer equipment and move it to a new location.

**Exhibit 2.1. Timing of Assessment**

| <b>Activity</b>   | <b>Student Time</b>   | <b>Room Availability Time</b>     |
|---|---|-----------------------------------|
| Room setup  | Not applicable  | 60 minutes (approximately)        |
| Student logons, passwords, and introducing the assessment | 15 minutes (approximately)  | 15 minutes (approximately)        |
| General Introduction                                      | 15 minutes (approximately)  | 15 minutes (approximately)        |
| First 60 minutes of assessment                            | 60 minutes (exactly)  | 60 minutes (exactly)              |
| Short break   | Generally, no more than 5 minutes   | Generally, no more than 5 minutes |
| Introducing Section 2 of assessment                       | 5 minutes (approximately)   | 5 minutes (approximately)         |
| Second 60 minutes of assessment                           | 60 minutes (exactly)  | 60 minutes (exactly)              |
| Break   | 30–60 minutes (approximately)   | 30–60 minutes (approximately)     |
| Student Questionnaire                                     | 66 minutes (approximately)  | 66 minutes (approximately)        |
| End the session, collection, and transfer of data         | 5 minutes (approximately)   | 5 minutes (approximately)         |
| Packing up and resetting room                             | Not applicable  | 30–40 minutes (approximately)     |
| <b>Total</b>  | <b>Assessment</b><br><b>2 ½ hours</b><br><br><b>Student Questionnaire</b><br><b>1 hour (approximately)</b><br><br><b>Total time 4 hours</b> | <b>6 hours (approximately)</b>    |

# CHAPTER 03: BEFORE THE ASSESSMENT DAY

## 3.1. Receive and check PISA materials

After your student list is submitted and sampled, you will be notified via email when you are able to download the following materials from the MyPISA website ([www.MyPISA.us](http://www.MyPISA.us)):

- Student Tracking Form – lists each student who has been selected to participate in the assessment, including each student’s demographic information. An example of this this is shown in **Exhibit 3.5**.
- School Questionnaire Login Form – provides the principle/designee with the information needed to access the online School Questionnaire.

The test administrator will contact you to verify that you were able to download these forms and to confirm the date and time of the preassessment call. If possible, he or she will also arrange a time for a virtual student meeting (described below).

In the shipment with this handbook, you have also received a red PISA Storage Envelope. Please use this to store all copies of the Student Tracking Form and other sensitive PISA materials.

## 3.2. Notify school staff, students, and parents of the assessment

Please inform school staff, students, and parents about the assessment according to the school’s policy. It is required that parents be notified of their student’s participation in the PISA assessment. The test administrator will collect a dated copy of the letter used to notify parents prior to the assessment. A sample copy of this letter is available for download from the MyPISA website ([www.MyPISA.us](http://www.MyPISA.us)). You should also ask participating students to bring a pencil, eraser, and calculator to the assessment and obtain extras of these items. In addition, students who finish the assessment ahead of time may bring a book or magazine to read, so you should let them know that up front.

### ***Student meeting***

Likewise, it is important to introduce the aims of PISA to school staff and students prior to the assessment to help engage students and promote their participation. If possible, the test administrator will work with you to plan a virtual meeting with the students.

During this student meeting, the test administrator will show a brief presentation that will introduce the importance of PISA as well as motivate students to participate and do their best on the assessment. The test administrator will provide Student Invitations to the assessment and Student FAQs to be distributed to the students.

Motivating students and achieving a high student participation rate are key to a successful assessment day. If fewer than 90 percent of eligible students participate on the assessment day, it may be necessary to schedule a makeup session to assess students who were absent.

If it is not possible for the test administrator to hold a meeting before assessment day, another possibility is for you or a school staff member to hold the student meeting. The

student presentation and instructions will be provided to you along with Student Invitations to the assessment and Student FAQs, both of which are available electronically and as hard copy.

### 3.3. Review and update the Student Tracking Form

Once you have been notified by email that your school’s materials are available for download from the MyPISA.us website, review and update the Student Tracking Form. The Student Tracking Form lists all sampled students along with their demographic data.

You will need to review this form and enter any missing student demographic data and correct any errors. On the day of the assessment, the test administrator will update his or her version based on your changes to the Student Tracking Form.

This section describes the steps for completing the Student Tracking Form. An example of a completed Student Tracking Form is shown in **Exhibit 3.5**.

#### 3.3.1 Steps for reviewing and completing the Student Tracking Form

##### *Step 1: Check student details and demographics*

Having accurate information on this form is vital for data validity and for preparing certificates of volunteer service and student invitations. Please check to make sure that each

- student’s name is spelled correctly,
- student’s grade is properly listed, and
- student’s month of birth (MOB) and year of birth (YOB) are correctly listed.

If you identify incorrect information, correct the information on the Student Tracking Form and relay this information to the PISA test administrator assigned to work with you.

##### *Step 2: Identify students with special education needs (SEN)*

PISA uses a coding system to identify students with special education needs (SEN). Students typically referred to as students with disabilities, or English language learners in the United States, may be categorized as SEN for PISA. The SEN column of the form is used to record the special education needs of eligible students. The codes are defined in **Exhibit 3.1**. Please identify any student who has a special education need by placing the appropriate code in the SEN column.

**Exhibit 3.1. Codes for special education needs – SEN column**

| Description   | SEN Code |
|---|----------|
| <b>Functional disability</b> – student has a moderate to severe permanent physical disability   | <b>1</b> |
| <b>Cognitive, behavioral, or emotional disability</b> – in the opinion of qualified staff, student has a cognitive, behavioral, or emotional disability                       | <b>2</b> |
| <b>Limited assessment language experience</b> – student is not a native speaker of the language of the assessment in the country and has limited proficiency in this language | <b>3</b> |
| <b>Home schooled</b> – student is home schooled and does not attend any classes on campus   | <b>5</b> |

### **Examples of using special education needs codes**

Please refer to **Exhibit 3.5** in which the following codes have been applied to the Student Tracking Form:

- **José Camacho** is not a native English speaker and has less than 1 year of instruction in English. Therefore, he is coded as “3” in the SEN column.
- **Roy Edmonds** is not a native speaker of English. While he has received instruction in English for more than 1 year, he still has some difficulties with English expression and requires some extra help. Therefore, he is also coded as “3” in the SEN column.
- **Sam Fay** is blind and is coded as “1” in the SEN column.
- **Fred Hunt** is deaf, so he is coded as “1” in the SEN column.
- **Lisa Jenkins** has been professionally assessed as cognitively delayed and is coded as “2” in the SEN column.
- For all other students who do not have any special education needs, the SEN column is left blank. For most students the SEN column will be left blank, meaning they have no special education needs.

### **Step 3: Identify accommodations for students who require them**

If any SEN students require accommodations to be tested, record those in the ACCOM column on the Student Tracking Form. **Exhibit 3.2** lists the accommodations allowed on PISA along with the three-letter accommodation code. Record the three-letter code from the table in **Exhibit 3.2** in the ACCOM column on the Student Tracking Form.

**Exhibit 3.2. PISA-allowed accommodations – ACCOM column**

| Accommodation Name and Code               | Description  |
|---|--|
| <b>Small group (SMG)</b>                  | Generally, a small group session includes no more than five students.  |
| <b>One-on-one (ONE)</b>                   | This accommodation requires that a student is assessed individually in an area free of distractions.   |
| <b>Use templates (TEM)*</b>               | A template is a cut-out used to focus a student’s attention on one part of a page by obscuring other parts of the page.  |
| <b>Special equipment (EQP)*</b>           | Any special equipment not specified above such as a lighting device or large-screen calculator.  |
| <b>Preferential seating (SEA)</b>         | This accommodation requires that a student sit in a designated area for the assessment, such as away from other students to limit distractions, a location where there is access to special equipment, or close to the front of the room so that a student can see or hear more easily. It may also include special light, furniture, or a study carrel used by the student. |
| <b>Directions in sign language (SLD)*</b> | This accommodation requires that a qualified sign language interpreter at the school sign the instructions included in the session script for the student.   |
| <b>Auditory amplification (AUD)*</b>      | This is an earpiece, microphone, speaker, or other amplification that allows students with auditory impairments better access to the directions read aloud to students. This would be provided in a way that does not affect or distract other students.   |
| <b>Other (OTR)</b>                        | If the student requires an accommodation that is not included in either the allowed list above or the non-allowed list below, please record OTR on the Student Tracking Form. The PISA test administrator will discuss these with you during the preassessment visit.  |

\*School staff must provide these accommodations.

As part of standard PISA procedure, all students receive the assessment directions read aloud in English and can record their answers directly in the computer. All students will also receive a calculator that can be used during the assessment. These do not need to be recorded as accommodations on the Student Tracking Form.

Accommodations that PISA cannot provide include the following:

- Read aloud of the assessment items
- Scribe
- Extended time
- Braille
- Large-print assessment materials
- Assessment materials in a language other than English
- Bilingual dictionary
- Magnification devices
- Cueing to stay on task

If the student requires any of the accommodations listed above that PISA does not allow, record “**NAP**” (not allowed on PISA) in the ACCOM column on the Student Tracking Form and record the name of the accommodation that PISA does not allow in the Comments column.

#### ***Step 4: Identify students who CANNOT participate in PISA***

Column “Test” on the Student Tracking Form is used to identify students who **cannot participate in PISA**. PISA is designed to be as INCLUSIVE as possible. Therefore, you should NOT use these codes if a student is unable to attend the PISA assessment, for example, due to a competing activity in/outside the school or illness, as he or she might be able to attend a makeup session.

However, some students may not be able to participate for various reasons. These reasons for non-participation must be recorded in the Test column of the Student Tracking Form, using the following specific non-participation codes in **Exhibit 3.3**.

### Exhibit 3.3. Non-participation (N/P) Codes – Test column

#### Code 2 – Parent refusal

A small number of parents/guardians may refuse to allow their child to participate in PISA. If you have received such notification from parents/guardians, record a code “2” for this student in column “Test.”

#### Code 3 – Excluded on SEN (special educational needs) basis

The guidelines in **Exhibit 3.2** will assist you in deciding whether a student identified in the SEN column can be excluded from PISA. If a student with a special educational need is to be excluded from the assessment, record a code “3” for this student in column “Test.”

#### Code 4 – Student now enrolled at another school

If it is known that a student has transferred to another school, record a code “4” for this student in column “Test.”

#### Code 5 – Student not enrolled in this school and enrolment is unknown

If a student has left school, but it is not known to which school, if any, the student has transferred, record a code “5” for this student in column “Test.”

#### Code 9 – Does not meet PISA criteria for eligibility

If a student is enrolled in **Grade 6 or lower**, he or she is not eligible to participate in PISA. Record a code “9” for this student in column “Test.”

If a student was NOT born **on or between July 1, 2006 and June 30, 2007**, he or she is not eligible to participate in PISA. Record a code “9” for this student in column “Test.”

If in doubt about which code to use, leave that column blank and insert a brief note in the “Comments” column, or contact the PISA help desk.

#### *Including Students with Special Educational Needs*

Many students with special educational needs can be included in the PISA assessment without the accommodations they receive in the classroom or on high-stakes, individual tests used for grades, evaluations, or promotions. PISA is a large-scale assessment administered in a standardized way to all students. Individual scores are not reported but are aggregated across all students. Guidelines for determining inclusion or exclusion are presented in **Exhibit 3.4**.

**Exhibit 3.4. Guidelines – Inclusion/Exclusion of Students with Special Educational Needs**

| Group   | Students who should be INCLUDED   | Students who may be EXCLUDED   |
|---|---|--|
| <p><b>Functional (physical or sensory) disability (SEN code 1)</b></p>    | <p>The student can respond to the assessment.</p> <p><u>Record Code 1 in column “SEN.”</u></p> <p><u>Leave column “Test” blank.</u></p>   | <p>The student has a moderate to severe permanent physical disability such that <b>she or he or she cannot participate in the PISA testing situation.</b></p> <p><u>Record Code 1 in column “SEN.”</u></p> <p><u>Record Code 3 in column “Test.”</u></p>   |
| <p><b>Cognitive, behavioral, or emotional disability (SEN code 2)</b></p> | <p>The student can respond to the assessment. He or she should <b>NOT</b> be excluded solely because of poor academic performance or disciplinary problems.</p> <p><u>Record Code 2 in column “SEN.”</u></p> <p><u>Leave column “Test” blank.</u></p> | <p>The student has a cognitive, behavioral, or emotional disability such that in the opinion of qualified staff, <b>he or sheshe or he cannot participate in the PISA testing situation.</b> This includes students who are cognitively, behaviorally, or emotionally unable to follow even the general instructions of the assessment.</p> <p><u>Record Code 2 in column “SEN.”</u></p> <p><u>Record Code 3 in column “Test.”</u></p>                     |
| <p><b>Insufficient assessment language experience (SEN code 3)</b></p>    | <p>The student does not meet <b>ALL</b> three criteria in the adjacent <b>Students who may be EXCLUDED</b> column.</p> <p><u>Record Code 3 in column “SEN.”</u></p> <p><u>Leave column “Test” blank.</u></p>  | <p>The student meets <b>ALL</b> of the following three criteria:</p> <ol style="list-style-type: none"> <li>1. not being a native speaker in the assessment language,</li> <li>2. having limited proficiency in the assessment language, and</li> <li>3. having received <b>less than 1 year of instruction</b> in the assessment language.</li> </ol> <p><u>Record Code 3 in column “SEN.”</u></p> <p><u>Record Code 3 in column “Test.”</u></p>          |
| <p><b>Home schooled (SEN 5)</b></p>                                       | <p>The student is home schooled and attends campus at any time.</p> <p>This student should be encouraged to participate.</p> <p><u>Record Code 5 in column “SEN.”</u></p> <p><u>Leave column “Test” blank.</u></p>                                    | <p>The student is home schooled and never attends campus.</p> <p><u>Code SEN as 5, Code 9 in column “TEST”.</u></p> <p>The student is home schooled because of cognitive or physical impairment and attends campus at any time:</p> <p><u>Code column “SEN” as 5, code 3 in column “TEST” if he/ or she cannot participate in the PISA testing situation.</u></p> <p>However, if this student does not attend campus: <u>Code 9 in column “TEST.”.</u></p> |

### *Examples of using non-participant codes*

Please refer to **Exhibit 3.5**, in which the following example codes have been applied:

- Jeffrey Arnette has recently transferred to another school. Therefore, he is coded as “4” in column N/P PISA.
- José Camacho is coded as “3” in column SEN. He has been taught in English for less than 1 year and his teachers believe that he will not be able to participate in the assessment. Therefore, he is coded as “3” in column Test.
- While Roy Edmonds’s experience with English is limited, he has been taught in English for more than 1 year and therefore does not meet the PISA criteria for exclusion on the basis of insufficient language experience. Therefore, column Test is left blank, and Roy is considered to be able to participate in the assessment.
- Sam Fay is blind and is coded as “1” in column SEN. He requires a Braille version of the test to be assessed. PISA is not offered in Braille. Therefore, he is unable to participate in the assessment and is coded as “3” in column Test. Additionally, “NAP” is recorded in the ACCOM column and a note about Sam’s Braille accommodation is recorded in the Comments column.
- Even though Fred Hunt is deaf, it does not affect his ability to participate. So, although he is coded as “1” in column SEN, column Test is left blank. Fred requires someone to sign the directions to him, so “SLD” is recorded in the ACCOM column, and the name of Fred’s signer is recorded in the Comments column.
- The following two students are ineligible according to the PISA eligibility criteria because incorrect demographic information was recorded in the student list originally submitted for sampling. These students were subsequently sampled. The school coordinator corrected the incorrect information on the Student Tracking Form.
  - Tammy Ives’s birth date does not fall in the eligible range for PISA participation. She is coded as “9” in column Test.
  - Melissa Johnson is in grade 6 and is coded as “9” in column Test.
- Lisa Jenkins has been professionally assessed as cognitively delayed and is coded as “2” in column SEN. She does not participate in other testing programs. Therefore, she will not participate in the assessment and is coded as “3” in column Test.

#### **Students to be Assessed in PISA**

Only those students who do not have any one of those five codes in column “Test” can be assessed in PISA.

**Important! Under no circumstances may a sampled student be replaced with another student not selected.**

**Exhibit 3.5. Student Tracking Form (Example After Completion)**

**PISA Student Tracking Form**

| School Name & ID  |                  | PISA No.     |            | School Coordinator |       |        |                |               | Test Administrator |       |      |     | Session ID          |
|-------------------|------------------|--------------|------------|--------------------|-------|--------|----------------|---------------|--------------------|-------|------|-----|---------------------|

### 3.4. Organize and confirm assessment plans with school staff, students, parents, and Test Administrator

During the 2 to 3 weeks preceding the assessment, you will need to confirm these plans as follows:

- confirm assessment plans with the test administrator;
- confirm the date, time, and location for the assessment sessions and inform the test administrator, affected school staff, and students of any changes;
- ensure that the assessment location(s) have been reserved;
- ask participating students to bring a pencil, eraser, calculator, and a book or magazine to read to the assessment (PISA will provide a calculator to students who do not have one);
- arrange for some books or magazines for students who finish the assessment ahead of time; and
- arrange for school staff to assist during the assessment, if necessary.

#### Hold Preassessment call with the test administrator

The test administrator(s) assigned to your school will contact you 1 to 3 weeks before the assessment date to set up a preassessment call with you. During this call, the test administrator will meet with you to discuss the following:

- the date, time, and location of the assessment sessions;
- any updates you have made to the Student Tracking Form regarding student demographic information, SEN codes, and exclusions;
- details about accommodations for students with special education needs;
- discussion of COVID-19 mitigation protocols, including specific school requirements
- notification of school staff, students, and parents, including
  - o verifying that the parents/guardians have been notified,
  - o distributing Student Invitations and Student FAQs to sampled students, and
  - o informing school staff of the date and time of the assessment;
- details about school protocols, including
  - o visitors arriving and checking in at the school,
  - o students who arrive too late to the assessment and cannot be included,
  - o students who become ill during the assessment and other urgent situations,
  - o students who need to use the restroom or temporarily leave the session,
  - o emergency drills or other activities that may interrupt the assessment session, and
  - o dismissing students after the assessment;
- time to meet with the test administrator the morning of the assessment; and
- time to meet after the assessment to discuss any needed makeup sessions and review how the assessment went.

#### Hold virtual student meeting and presentation

During this virtual visit, the test administrator will meet with the sampled students for about 20 minutes to show them a brief presentation and answer any questions. The meeting is designed to both inform and motivate students to participate and do their best. This is an important part of the PISA assessment. The test administrator will work with you to set a meeting on an available meeting platform.

### 3.5. Arrange for support staff to be present throughout each session (if possible)

If it is not possible for you or other school staff to be present throughout the assessment, you or they should be present at least at the beginning of the assessment session. This will help set the tone of the session and demonstrate the importance of the assessment.

School staff, however, are not permitted to administer the assessment or respond to students' questions related to assessment or Student Questionnaire items. Only the test administrator should respond to such questions.

- **Maintaining Security and Confidentiality of Assessment Materials**

Because PISA materials will be used in the future, their security is very important and must be maintained at all times.

- It is never permissible for you or school staff to look at students' computer screens (tests or Student Questionnaires) during or after the assessment.
- You and school staff are allowed to look at the sample test and Student Questionnaire items **only after the assessment and in the test administrator's presence**. To do this, the test administrator will use a special logon code. You will be asked to sign a document pledging not to reveal the contents of the assessment items.
- **DO NOT** copy or photograph secure/confidential PISA materials under any circumstances. Do not allow others to do so.
- It is imperative that you guard against students photographing the materials with their mobile telephones or other electronic devices.
- If the test administrator reports any missing assessment materials, you should assist him or her in locating them.

### 3.6. Distribute School Questionnaire Login Form to appropriate person and confirm completion of School Questionnaire

The School Questionnaire should be completed online by the school principal or by someone else at your school to whom he or she delegates the task. The school questionnaire provides valuable information about school policies and characteristics. It is important that these be completed in every school. To facilitate this task, the document titled Preparation for the PISA 2022 School Questionnaire in Appendix A documents 16 questions involving statistical information from your school that are asked in the School Questionnaire (e.g., counts of student enrolment, staff counts, and percentages of students eligible for the National School Lunch Program). Answers to these questions can be collected in advance by the school principal or other staff involved in filling out the School Questionnaire. As previously noted, you will be notified by email when your school materials are available for

download from the MyPISA website ([www.MyPISA.us](http://www.MyPISA.us)). This includes the School Questionnaire Login Form. Print this form and distribute it to the principal or his or her designee. The School Questionnaire Login information will also be sent via email to the school principal or designee.

Please confirm that the School Questionnaire has been completed and if necessary, remind the appropriate person to complete the questionnaire. You can monitor completion of the questionnaire by viewing the information in the "Provide School Information" section in the MyPISA website.

## CHAPTER 04: ASSESSMENT DAY

### 4.1. Meet with the test administrator(s) before the assessment

The test administrator(s) will arrive 1 to 1 ½ hours before the assessment is scheduled to begin and will need to meet with you immediately to review assessment day logistics and the Student Tracking Form and obtain the red PISA Storage Envelope. Make sure that you have updated the Student Tracking Form before the meeting. Do not record anything in the Participation columns for students who are absent on assessment day but are eligible to participate in the assessment. The test administrator will record student attendance on the Student Tracking Form during the assessment.

After this brief meeting, escort the assessment team to the assessment location(s) so they can begin setting up. Return prior to the start of the assessment to introduce the team to the students.

### 4.2. Meet with the test administrator(s) after the assessment

After the assessment is completed, the test administrator will need to meet with you briefly to discuss the session. He or she will also need to make copies of the assessment forms and give these to you to store should there be any questions about the assessment or if the original documents are lost or damaged. Please keep these stored in the red PISA Storage Envelope until the end of the school year.

### 4.3. Arrange for a makeup session, if needed

PISA requires a high level of participation of the sampled students. The test administrator(s) will calculate the assessment rate after the assessment and inform you if a makeup session is needed.

If a makeup session needs to be arranged, please select a mutually agreed upon date and time that will maximize the number of students attending the session. It is preferred that the makeup session is held in the same week as the assessment, if possible.

- **Note on Makeup Sessions**

Since only one makeup assessment is held, please make every attempt to ensure that absent students attend.

### 4.4. Store PISA forms

After the assessment, the test administrator will give you copies of the completed forms to put in your red PISA Storage Envelope. We ask that you store this envelope securely until the end of the school year.

**Your help with PISA is very important to its success in ensuring that the data collected for the United States is of the highest quality.**

**The U.S. PISA and the International Project Team appreciate your time and effort.  
Thank you!**

# **APPENDIX A: SCHOOL QUESTIONNAIRE SUPPORT DOCUMENTS**

# PREPARATION FOR THE PISA 2022 FT SCHOOL QUESTIONNAIRE

This document contains 16 questions on the School Questionnaire that involve statistical information from your school.

Answers to these questions can be collected in advance by the school principal, or other staff involved in filling out the School Questionnaire.

The information collected in this document will then be entered into the electronic questionnaire by the principal/the person filling out the questionnaire. You will find the question number in the lower left corner of the electronic questionnaire screen.

## SC016 **About what percentage of your total funding for a typical school year comes from the following sources?**

*(Please write a number on each line. Write “0” (zero) if there are none.)*

|            |  | %           |
|------------|--|-------------|
| SC016Q01TA | Government (includes departments, local, regional, state and national)         | _____01     |

The National Center for Education Statistics (NCES) is authorized to conduct the Program for International Student Assessment (PISA) by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization. All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0755. The time required to complete this information collection is estimated to average up to 240 minutes per school coordinator, including the time to review instructions, gather the data needed, and complete and review the information collection. If you have any comments or concerns regarding the accuracy of the time estimate(s), suggestions for improving the form, or questions about the status of your individual submission of this form, write directly to: The Program for International Student Assessment (PISA) 2022, National Center for Education Statistics (NCES), Potomac Center Plaza, 550 12th Street, SW, Room 4007, Washington, DC 20202.

PISA 2022: Student Records Collection: 4 hours  
 OMB Clearance Number 1850-0755  
 Expiration Date: xx/xx/xxxx

## Preparing the PISA Electronic Student File (E-File)

### Step 1: Identify ALL students at your school who meet the eligibility criteria

Criteria for PISA student eligibility are:

- Enrolled in Grade 7 or higher, AND
- Born between July 1, 2006 and June 30, 2007.

PISA needs accurate information about all students at your school who meet the above criteria for student eligibility. Include all students, even those students who typically may be excluded from other testing programs, such as students with IEPs or 504 plans (SD), English language learners (ELL), or students with limited English proficiency (LEP). Do not include students who are known to be withdrawn on your list. All other eligible students must be added to your list of students.

### Step 2: List each of the eligible students along with their demographic information (see Figure 1 below for an example)

Using the Excel template provided on the MyPISA.us website ([www.MyPISA.us](http://www.MyPISA.us)), list students in your school who are eligible for PISA along with their demographic information.

- Student first name
- Student middle name (not required)
- Student last name
- Grade in school (Grade 7 – Grade 12 as applicable)
- Month of birth (M or MM; must be submitted in numeric format, not text (1 or 01 for JAN))
- Year of birth (YYYY: 2006 or 2007)
- Sex (numeric or text (1/2, F/M))

Figure 1: Example of Electronic Student File

| Student First Name | Student Middle Name | Student Last Name | Grade | Month of Birth | Year of Birth | Sex |
|--------------------|---------------------|-------------------|-------|----------------|---------------|-----|
| Ted                |                     | Brooks            | 10    | 12             | 2006          | 2   |
| Jeffery            |                     | Jenkins           | 9     | 11             | 2006          | 2   |
| Rose               |                     | Matthews          | 10    | 7              | 2006          | 1   |
| Jennifer           |                     | Trader            | 12    | 8              | 2006          | 1   |
| Jose               |                     | Rodriguez         | 10    | 3              | 2007          | 2   |
| Roy                |                     | Zastrow           | 9     | 4              | 2007          | 2   |
| Sam                |                     | Walker            | 10    | 5              | 2007          | 2   |
| Julie              |                     | Walters           | 9     | 6              | 2007          | 1   |

## Submitting the PISA Electronic Student File (E-File)

**Step 1: Upload file.** After you have created and saved your student E-File, proceed to [www.MyPISA.us](http://www.MyPISA.us). Once you have logged in, click the 'Submit Student List' link on the left side of the page (Box 1 below). Then click the "Browse" button to locate your file (box 2 below). Once you've located the file and clicked ok, click "Upload"(box 3 below).

Exhibit 1. Submit Student List - initial screen

The screenshot shows the 'Submit Student List' page for Westat High School. The page has a blue header with the IES logo and 'Program for International Student Assessment'. A navigation menu on the left includes 'Home', 'What You Need To Do', 'Provide School Information', 'Submit Student List' (circled in blue with a '1' in a box), 'Prepare for Assessment', 'Assessment Day', 'After the Assessment', 'What You Need To Know', 'Documents', 'Important Websites', and 'Contact Us'. The main content area is titled 'Submit Student List' and contains instructions for schools to submit student lists electronically. It includes links for 'Student E-File Submission', 'Student E-File Template', 'E-filing Instructions', 'Student E-File Annotated Template', and 'Student E-file Quick Checks'. A section titled 'E-file your school's student list' provides instructions on including column headers. Below this, there is a form with a dropdown menu for 'headers:' set to 'Yes', a 'New File' button, a 'Choose File' button (circled in blue with a '2' in a box), and an 'Upload' button (circled in blue with a '3' in a box). At the bottom, there is a disclaimer about the Paperwork Reduction Act of 1995.

**Step 2: Map Columns.** The column headings in your file are shown in rows on the left side of the page. In each row, for each heading on the left, click on the down arrow next to the words in the table that read "Column Contains..." on the right. If there is no appropriate description in the drop-down list for your column heading, select N/A.

## Exhibit 2. Submit Student List – Identify Your Columns

### Submit Student List

**Identify Your Columns**

We need to know what information is in each column of your student data file (E-File). If you provide numbers for each column in your submitted E-File. Click on the down arrows in **Your Column Contains**

[View original file](#)

| Column Heading      | Your Column Contains    |
|---------------------|-------------------------|
| Student First Name  | (Student First Name) ▼  |
| Student Middle Name | (Student Middle Name) ▼ |
| Student Last Name   | (Student Last Name) ▼   |
| Grade               | Grade ▼                 |
| Month of Birth      | (Column Contains ...) ▼ |
| Year of Birth       | (Column Contains ...) ▼ |
| Sex                 | (Column Contains ...) ▼ |

**Step 3: Match Values to PISA Codes.** The next step is matching the values on your file to PISA codes. The values in your columns will again be displayed on the left. Select the corresponding PISA code from the drop down list on the right (see exhibit 3). If there is no appropriate description in the drop-down list for your column heading, select N/A. When you are finished matching your values to PISA codes, click next. Repeat the above instructions to assign male/female codes and click next (see exhibit 4).

## Exhibit 3. Submit Student List - Match your Values to PISA Codes (grade mapping)

### Submit Student List

**Match Your Values to PISA Codes**

PISA also needs to know the values for each of the columns in your E-File. The tables on the next few web pages contain the following information for each column:

- Your Values: The values in your E-File
- PISA Codes: Click on the down arrow and select the PISA Code that best matches Your Values
- Number: The number of students in your E-File with that value
- Percentage: The percentage in your E-File with that value

Use the Previous and Next buttons to navigate from column header to column header.

If there is an error in your data file, exit E-File, correct the problem in your Excel file, and upload the file again.

[View original file](#)

**Grade - Column 1 of 2**

| Your Values | PISA Codes | Number | Percentage |
|-------------|------------|--------|------------|
| 10          | (10) ▼     | 43     | 89.58%     |
| 11          | (11) ▼     | 5      | 10.42%     |

If you need help accessing this website, please contact the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHELP@westat.com](mailto:PISAHELP@westat.com).

Exhibit 4. Submit Student List - Match your Values to PISA Codes (sex mapping)

## Submit Student List

**Match Your Values to PISA Codes**

If there is an error in your data file, exit E-File, correct the problem in your Excel file, and upload the file again.

 [View original file](#)

**Sex - Column 2 of 2**

| Your Values | PISA Codes | Number | Percentage |
|-------------|------------|--------|------------|
| F           | Male       | 28     | 58.33%     |
| M           | Female     | 20     | 41.67%     |

**Step 4: Verify your E-file.** The final step is to verify that the information is correct and submit your file. Check that the distribution of students by grade and sex match the total number of students you submitted. Indicate whether this information is correct and click "Submit." If the information is incorrect click "Incorrect" and then click on the "Submit Student List" link on the left side of the screen. This will save your progress and exit the current e-file. You can access this file again or upload a new corrected file and start over using the same file upload process described in Step 1.

Exhibit 5. Submit Student List –Verify your E-file

## Submit Student List

**Verify Your E-File**

The table below summarizes the information you have provided on your student list students in your E-File, and the total number of students currently enrolled in grade

Record whether the information is correct or incorrect by selecting the appropriate b

 [View original file](#)

|                   | Number | Percentage |
|-------------------|--------|------------|
| Grade             |        |            |
| 10                | 43     | 89.58%     |
| 11                | 5      | 10.42%     |
| Sex               |        |            |
| Male              | 20     | 41.67%     |
| Female            | 28     | 58.33%     |
| Total Enrollment: |        |            |
|                   | 48     |            |

Information is **CORRECT and CURRENT**.  
 Information is **INCORRECT**.

**Online Student Data Checks** - After you click "Submit" a number of online data validation checks are performed by our programs. These checks include checking the number of listed students against statistical estimates, making sure there is an accurate distribution of students by grade based on statistical estimates, checking that all students included are birth-year eligible (born in 2006 or 2007), and checking for any missing data. If the data fail these online checks, you will be presented with a screen that describes the issue, the location of the row(s) in your file that contains the errant data, and will need to correct the file and upload a new version. Exhibit 6 (below) provides an example of a file with missing data. Notice that the affected row is provided for each instance where the check failed. This is designed to help you efficiently locate and ameliorate any issues. Exhibit 7 provides an example of a file where ineligible students were included.

Exhibit 6. Online data checks

The screenshot shows the IES Program for International Student Assessment interface. The header includes the IES logo and the text "Institute of Education Sciences" and "Program for International Student Assessment". The user is logged in as "admin" and can access "Help" or "Log off". The page title is "WESTAT HIGH SCHOOL - 1600 Research Blvd, Rockville, MD - WESTAT PUBLIC SCHOOLS".

The main content area displays the following text:

During the upload process, a series of validation checks are run on your file. Listed below are the failed checks from your uploaded file. **These issues must be fixed in your file, before you can complete the submission process.** Each check gives the row number(s) from the Excel file where the error occurred.

If your columns have been incorrectly assigned, use the **Update Column Mappings** button at the bottom of the page to make corrections. If changes must be made to the data in the file, use the **Start Over** button to upload a new file, after you have made the necessary corrections.

Click the **View Original File** link to review your uploaded file.

[View original file](#)

- Firstname:** must not be missing for any records. The following rows have an invalid Firstname value.

| Firstname | Affected Rows |
|-----------|---------------|
|           | 7             |
- Lastname:** must not be missing for any records. The following rows have an invalid Lastname value.

| Lastname | Affected Rows |
|----------|---------------|
|          | 14            |
- Year Of Birth:** must be 2004 for all records. The following rows have an invalid Year Of Birth value.

| Year Of Birth | Affected Rows |
|---------------|---------------|
| 2002          | 18            |
| 2003          | 11            |
- Grade:** must not be missing for any records. The following rows have an invalid Grade value.

| Grade  | Affected Rows |
|--------|---------------|
| 30, 33 |               |
- Sex:** must not be missing for any records. The following rows have an invalid Sex value.

| Sex    | Affected Rows |
|--------|---------------|
| 47, 50 |               |
- The valid birth range is from January 1, 2004 - December 31, 2004

| Year Of Birth | Month Of Birth | Affected Rows |
|---------------|----------------|---------------|
| 2002          | 6              | 18            |
| 2003          | 2              | 11            |

At the bottom of the page, there are two buttons: "Update Column Mappings" and "Start Over".

Along with the file validation checks, the total number of students is compared to the statistical estimate of eligible students. If there is a 10% or more difference in enrollment, which is typical for most every school, international standards for data collection require that we ask school coordinators for a possible reason. Typical reasons include redistricting, the schools being located within a growing or shrinking community, or near an army base. Exhibit 8 provides a screen shot of the enrollment verification check and comment box. **This check does not prohibit you from completing your e-file.** Simply provide a comment in the box and continue.

**Exhibit 7. Online data check – enrollment verification**

### Submit Student List

**Verify Your E-File**

The table below summarizes the information you have provided on your student list (E-File). Please review the information and ensure it is correct. Total Enrollment at the bottom of the table should match the number of students in your E-File, at the grade -1.

Record whether the information is correct or incorrect by selecting the appropriate button at the bottom of the table. If the information is incorrect, you will need to correct your E-File and resubmit it.

[View original file](#)

| Grade                    | Number   | Percentage |
|--------------------------|----------|------------|
| 7                        | 1        | 33.33%     |
| 8                        | 2        | 66.67%     |
| <b>Sex</b>               |          |            |
| Male                     | 2        | 66.67%     |
| Female                   | 1        | 33.33%     |
| <b>Total Enrollment:</b> | <b>3</b> |            |

Total Enrollment should be within 20% of 139. Please provide a reason why the enrollment may be different if it is not. Reasons may include: the school may be located near a military base or an area with a growing population, or perhaps enrollment has changed.

\*Please specify a reason why

Information is **CORRECT and CURRENT.**  
 Information is **INCORRECT.**

If at any time you realize that every eligible student was not listed, you can exit e-filing, correct the file, and upload a new one. If you have any questions or would like to talk with someone about e-filing, please reach out to the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHHELP@westat.com](mailto:PISAHHELP@westat.com).

## MyPISA project website for School Coordinators and schools

The following screenshots show the content for the PISA 2022 Main Study and show the web content of MyPISA.us for schools and school coordinators with text for each screen shown below the screen. The systems for the PISA 2022 main study are not yet active, but will not change other than references to the current round of PISA and updates to the specifics of the main study, such as number of students to be sampled and removal of teacher information pertaining to teacher participation in the questionnaire. MyPISA.us is described in Part B of the main study package.

Updated screenshots and, if necessary, any updated text will be provided in a change request by May 2022. The text displayed below each screenshot in this section is the text as it will appear on MyPISA.us for PISA 2022.

## Welcome to PISA

Welcome and thank you for participating in the Program for International Student Assessment (PISA) 2022!

The PISA 2022 Field Test assessments will occur between September and October 2021.

In PISA, each country or education system is represented by a sample of schools and students selected to reflect its population and educational contexts and provide valid estimates of student achievement.

In the fall of 2021, a random sample of up to 60 age-eligible students in your school will be selected to be assessed. Each assessment will be administered by specially trained PISA staff.

There are a number of activities occurring before, during, and after the assessment. This website is designed to be your all-in-one resource throughout the entire process.

The "What You Need to Do" menu on the left is designed to guide the school coordinator through six different groups of tasks.

- [Provide School Information](#) - verify information about your school. This includes the school's address and principal contact information.
- [Submit Student List](#) - submit a list of all age-eligible students (born on or between July 1, 2005, and June 30, 2006). PISA will use this list to draw a random sample of students to participate in the assessment.
- [Prepare for Assessment](#) - meet with your local PISA representative to prepare for the assessment. The school coordinator will complete paperwork, notify parents about students' participation in PISA, and reserve school space for the staff to use during the visit.
- [Assessment Day](#) - PISA staff will administer the assessments, while the school coordinator will be responsible for making sure that participating students arrive promptly to designated assessment location(s).
- [After the Assessment](#) - retain the PISA Storage Envelope in a secure place until a designated date.

The "What You Need to Know" menu stores informational materials. Clicking on the Documents link will take you to the PISA document catalog, and is also where you can download your list of selected students once sampling is complete. We've collected websites from NCEs and the OECD, as well as videos and slideshows from past PISA cycles so you can be as informed as you would like about PISA.

## What is PISA?

PISA is an international assessment that measures student learning in mathematics, reading, science, and financial literacy. PISA is the largest international assessment and has been administered since 2000 (2000, 2003, 2006, 2009, 2012, 2015, 2018, and now in 2022). It provides information about the knowledge and skills of U.S. students in comparison with students in more than 80 countries and education systems.

PISA is intended to provide a measure of students' overall preparedness for the future, not just their academic achievement. Knowing how U.S. students perform on PISA provides us with valuable information on how our education system compares with education systems of the other countries with whom we collaborate and compete in the world economy.

PISA is sponsored by the Organization for Economic Cooperation and Development (OECD), an intergovernmental organization of industrialized countries. In the United States, PISA is conducted by the National Center for Education Statistics (NCES), within the U.S. Department of Education, and administered by Westat, a research firm located in Rockville, MD.

For more specific information on the upcoming PISA 2022 Field Test data collection, please see the FAQs and study brochure with timeline linked below.

This screen is the Welcome page for the MyPISA.us site. It provides overview information about the survey and navigation to specific areas of the site. The text of the page as it will appear for MyPISA 2022 is shown on the following page.

# Welcome to PISA

## Welcome and thank you for participating in the Program for International Student Assessment (PISA) 2022!

The PISA 2022 assessments will occur in October and November 2022.

In PISA, each country or education system is represented by a sample of schools and students selected to reflect its population and educational contexts and provide valid estimates of student achievement.

In the fall of 2022, a random sample of up to 52 age-eligible students in your school will be selected to be assessed. Each assessment will be administered by specially trained PISA staff.

There are a number of activities occurring before, during, and after the assessment. This website is designed to be your all-in-one resource throughout the entire process.

The "What You Need to Do" menu on the left is designed to guide the school coordinator through six different groups of tasks.

1. [Provide School Information](#) - verify information about your school. This includes the school's address and principal contact information.
2. [Submit Student List](#) - submit a list of all age-eligible students (born between July 1, 2006 and June 30, 2007). PISA will use this list to draw a random sample of students to participate in the assessment.
3. [Prepare for Assessment](#) - meet with your local PISA representative to prepare for the assessment. The school coordinator will complete paperwork, notify parents about students' participation in PISA, and reserve school space for the staff to use during the visit.
4. [Assessment Day](#) - PISA staff will administer the assessments, while the school coordinator will be responsible for making sure that participating students arrive promptly to designated assessment location(s).
5. [After the Assessment](#) - retain the PISA Storage Envelope in a secure place until a designated date.

The "What You Need to Know" menu stores informational materials. Clicking on the Documents link will take you to the PISA document catalog, and is also where you can download your list of selected students once sampling is complete. We've collected websites from NCES and the OECD, as well as videos and slideshows from past PISA cycles so you can be as informed as you would like about PISA.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0755. The time required to complete this information collection is estimated to average 15 minutes per school coordinator, including the time to review instructions, gather the data needed, and complete and review the information collection. If you have any comments or concerns regarding the accuracy of the time estimate(s), suggestions for improving the form, or questions about the status of your individual submission of this form, write directly to: Program for International Student Assessment (PISA), National Center for Education Statistics (NCES), Potomac Center Plaza, 550 12th Street, SW, 4th floor, Washington, DC 20202.

If you need help accessing this website, please contact the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHELP@westat.com](mailto:PISAHELP@westat.com).

**School Type:** Public/Private - **States:** AR, CA, DE, GA, IA, IL, KS, KY, MD, ME, MS, NH, OR, RI, VA, VT

## Submit Student List

PISA collects a list of all students born on or between July 1, 2005 and June 30, 2006, from your school in order to draw a random sample of students to participate in the assessment.

### How to Submit Your Student List

**Student E-File Submission** - Schools are able to submit student lists for sampling electronically through this website. Download the Excel Student E-File Template (below) and import the list of eligible students into the template for submission. The template contains all the necessary fields for sampling.

[Student E-File Template](#)

PISA has also developed other resource documents to use including step-by-step instructions, quick checks for preparing and submitting lists, as well as an annotated e-file template. These documents provide information and answers to many common questions about the e-filing process.

[E-File Instructions](#)  
[Student E-File Annotated Template](#)  
[Student E-File Quick Checks](#)

### E-file your school's student list

It is preferred that you include column headers as the first row in your E-File (see the template above for example). However, E-Files without column headers will be accepted. If you cannot submit your student data with this information in an Excel file, please call or email the PISA help desk at [PISAHELP@westat.com](mailto:PISAHELP@westat.com) or call 1-888-638-2987.

[Edit](#)

**IES** Institute of Education Sciences **Program for International Student Assessment** Admin Help Log off

WESTAT HIGH SCHOOL - 1600 Research Blvd, Rockville, MD - WESTAT PUBLIC SCHOOLS

[Edit Section: Prepare for Assessment Section 1](#)  
 School Type: Public/Private - States: AR, CA, DE, GA, IA, IL, KS, KY, MD, ME, MI, MN, OR, RI, VA, VT

### Prepare for Assessment

To ensure a successful administration of PISA, it is important to make sure everyone involved in the assessment is informed and prepared. The tasks below will help you effectively prepare for PISA.

**Informing your school's administration and staff:**

- Include PISA on the annual school calendar to avoid scheduling conflicts.
- Discuss the importance of PISA with your principal.
- Inform teachers about PISA and why it is important to encourage selected students to do their best.

**Involving teacher support:**

- Share informational materials from PISA at a faculty meeting.
- Place copies of these materials in your faculty lounge.
- Inform teachers that [released PISA assessment items and responses](#) are available on the web.

**Motivating selected students to participate:**

- Notify students of their selection to participate and stress that their participation is important.
- Emphasize to students that each of them will represent hundreds of students across the nation, so it is vital that they participate and do their best.

[Edit Section: Prepare for Assessment Section 2](#)  
 School Type: Public/Private - States: AR, CA, DE, GA, IA, IL, KS, KY, MD, ME, MI, MN, OR, RI, VA, VT

### The Preassessment Call and Virtual Student Meeting

After students have been selected, your local PISA representative will contact you to set up a preassessment call and, if possible, a virtual student meeting. This contact helps prepare schools for the assessment and ensures everything will go smoothly and efficiently.

**Prior to the call:**

- Download the list of selected students, called the Student Tracking Form, from the "Documents" section of this website.
- Review the Student Tracking Form to ensure all student demographic data are correct.
- Identify students who are withdrawn or ineligible.
- Identify students with special education needs (e.g., students with IEP or 504 plans and English language learners).
- Notify parents of selected students of their students' participation (using the sample letters found in the "Documents" section of this website).
- Identify space for assessment sessions to take place.

**During the call:**

- Confirm parents/guardians of selected students have been notified.
- Confirm missing or corrected student demographic data.
- Confirm students that have withdrawn or are ineligible.
- Review the status of students identified as having special education needs (SEN).
- Discuss students who may not be able to participate.
- Discuss distributing Student Invitations and Student FAQs (electronic PDF versions, hardcopy, or both).
- Discuss incentives and distribution.
- Provide any needed logon forms for the School Questionnaires (questionnaires should be completed prior to assessment day).
- Collect and confirm assessment day logistics information.

**Holding a virtual student meeting:**

If possible, the PISA representative will work with you to arrange a virtual student meeting with the students selected for PISA. Prior to the meeting, you will receive Student FAQs and PISA Invitations to distribute to students. During the virtual meeting, the PISA representative will show the PISA student presentation and answer any questions students may have about the assessment.

If you need help accessing this website, please contact the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2397 or email [PISAhelp@ies.ed.gov](mailto:PISAhelp@ies.ed.gov)

This screen provides information and suggestions for preparing for the survey including discussing the survey with school staff, and providing materials. The text of the page as it will appear for MyPISA 2022 is shown on the following page.

# Prepare for Assessment

To ensure a successful administration of PISA, it is important to make sure everyone involved in the assessment is informed and prepared. The tasks below will help you effectively prepare for PISA.

Informing your school's administration and staff:

- Include PISA on the annual school calendar to avoid scheduling conflicts.
- Discuss the importance of PISA with your principal.
- Inform teachers about PISA and why it is important to encourage selected students to do their best.

Enlisting teacher support:

- Share informational materials from PISA at a faculty meeting.
- Place copies of these materials in your faculty lounge.
- Inform teachers that [released PISA assessment items and responses](#) are available on the web.

Motivating selected students to participate:

- Notify students of their selection to participate and stress that their participation is important.
- Emphasize to students that each of them will represent hundreds of students across the nation, so it is vital that they participate and do their best.

## The Preassessment Visit

After students have been selected, your local PISA representative will contact you to set up a preassessment visit (PAV). This visit helps prepare schools for the assessment and ensures everything will go smoothly and efficiently.

Prior to the PAV:

- Download the list of selected students, called the Student Tracking Form, from the "Documents" section of this website.
- Review the Student Tracking Form to ensure all student demographic data are correct.
- Identify students who are withdrawn or ineligible.
- Identify students with special education needs (e.g., students with IEP or 504 plans and English language learners).
- Notify parents of selected students of their students' participation (using the sample letters found in the "Documents" section of this website).
- Identify space for assessment sessions to take place.

During the PAV the PISA representative will:

- If previously scheduled, the PISA representative will also plan to meet with selected students to show the PISA student presentation and answer any questions they may have about the assessment. The PISA representative will distribute the Student FAQs and invitations during this meeting, or provide them to you to distribute.
- Confirm parents/guardians of selected students have been notified.
- Confirm missing or corrected student demographic data.
- Confirm students that have withdrawn or are ineligible.
- Review the status of students identified as having special education needs (SEN).
- Discuss students who may not be able to participate.
- Discuss distributing Student Invitations and Student FAQs.
- Discuss incentives and distribution.
- Provide any needed logon forms for the School Questionnaires (questionnaires should be completed prior to assessment day).

- Preview the testing location(s).
- Collect and confirm logistics information.

If you need help accessing this website, please contact the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHELP@westat.com](mailto:PISAHELP@westat.com).

The screenshot shows the MyPISA.us website interface. At the top left is the Institute of Education Sciences logo. The main header is blue with the text 'Program for International Student Assessment'. On the right of the header are links for 'admin', 'Help', and 'Log off'. A left-hand navigation menu lists various options like 'Home', 'Change School', 'School Central System', 'Admin Section', 'School Report', 'What You Need To Do', 'Provide School Information', 'Submit Student List', 'Prepare for Assessment', 'Assessment Day', 'After the Assessment', 'What You Need To Know', 'Documents', 'Important Websites', and 'Contact Us'. The main content area is titled 'Assessment Day' and contains the following text:

WESTAT HIGH SCHOOL - 3600 Research Blvd, Rockville, MD - WESTAT PUBLIC SCHOOLS  
[Edit Content](#)  
 School Type: Public/Private - States: AR, CA, DE, GA, IA, IL, KS, KY, MD, ME, MS, NM, OR, RI, VA, VT

### Assessment Day

On assessment day, the PISA team will:

- Arrive at the school at least 1 hour before the assessment to set up and prepare.
- Meet with you regarding absent students.
- Collect a dated copy of the parent notification letter.
- Confirm completion of the School Questionnaire.
- Administer the assessment.
- Conduct a short postassessment meeting.

As discussed during the preassessment call, you will need to ensure that parents, teachers and students have been notified of the assessment. Your assistance is also important to ensure that students attend the session(s). During the assessment, administrators, teachers, and other school staff are invited to observe the PISA sessions.

Following the assessment, the PISA representative will meet with the school coordinator for a short meeting. There will also be some paperwork to finalize, which includes preparing copies of important documents to be left at the school.

As part of PISA's pledge of confidentiality, before departing, the PISA team will leave all documents with student names and identifying information at the school in the PISA Storage Envelope.

If you need help accessing this website, please contact the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHELP@westat.com](mailto:PISAHELP@westat.com)

This page lists the activities of the PISA assessment team on assessment day. References to completion of the teacher questionnaire will be removed. The text of the page as it will appear for MyPISA 2022 is shown below.

## Assessment Day

On assessment day, the PISA team will:

- Arrive at the school at least 1 hour before the assessment to set up and prepare.
- Meet with you regarding absent students.
- Collect a dated copy of the parent notification letter.
- Confirm completion of School Questionnaires.
- Administer the assessment.
- Conduct a short postassessment meeting.

As discussed during the preassessment visit, you will need to ensure that parents and students have been notified of the assessment. Your assistance is also important to ensure that students attend the session(s). During the assessment, administrators, teachers, and other school staff are invited to observe the PISA sessions.

Following the assessment, the PISA representative will meet with the school coordinator for a short meeting. There will also be some paperwork to finalize, which includes preparing copies of important documents to be left at the school.

As part of PISA's pledge of confidentiality, before departing, the PISA team will leave all documents with student names and identifying information at the school in the PISA Storage Envelope.

If you need help accessing this website, please contact the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHELP@westat.com](mailto:PISAHELP@westat.com).

## MyPISA.us - After the Assessment

The screenshot shows the MyPISA.us interface. At the top left is the IES Institute of Education Sciences logo. The main header is blue with the text 'Program for International Student Assessment'. On the right of the header are links for 'admin 88', 'Help', and 'Log off'. A left sidebar contains navigation links: Home, Change School, School Control System, Admin Section, School Report, What You Need To Do (highlighted), Provide School Information, Submit Student List, Prepare for Assessment, Assessment Day, After the Assessment, What You Need To Know, Documents, Important Websites, and Contact Us. The main content area is titled 'WESTAT HIGH SCHOOL - 1409 Research Blvd, Rockville, MD - WESTAT PUBLIC SCHOOLS' and includes an 'Edit Content' link. Below this is the 'After the Assessment' section, which contains a thank-you message, instructions on handling the PISA Storage Envelope, a 'PISA Scoring and Reporting' section listing the types of data provided (average scores, proficiency levels, trends, school characteristics, and group achievement), a note about the 2018 results release date, and an 'Exploring Education Policy Issues' section with links to NCEP data and reports. A footer note provides contact information for the PISA help desk.

This screen provides information about post-assessment activities such as scoring of assessment data and reporting plans. If the PISA 2018 results are available the links will be updated for PISA 2018. The text of the page as it will appear for MyPISA 2022 is shown on the following page.

# After the Assessment

On behalf of PISA, we would like to extend a special thanks to the staff and students at your school. Your participation and support have made this data collection a success!

Your school should keep the contents of the PISA Storage Envelope until the date specified on the label, at which point they should be destroyed. The best way to destroy any sensitive PISA materials is to shred them.

## PISA Scoring and Reporting

PISA scores the assessment data and links it to background information collected from the student and school questionnaires to provide a more complete picture of what our students know and can do at age 15. PISA results include:

- average scale scores for each subject area for all participating countries, including the U.S. and the OECD countries on average;
- percentages of students reaching PISA proficiency levels for all participating countries, including the U.S. and the OECD countries on average;
- trends in U.S. performance over time for each subject area;
- school characteristics for populations of students; and
- academic achievement of groups within those populations (e.g., male students or Hispanic students).

PISA 2018 results were released to the public this past December, 2019. The results for PISA 2022 will be released in 2023. PISA reports results for the nation. It does not provide individual scores for the students or schools assessed. Click on the following link to access the PISA 2018 U.S. results on the National Center for Education Statistics' website: [PISA 2018 U.S. Results](#)

## Exploring Education Policy Issues

NCES grants members of the education research community permission to use PISA data. To explore and analyze PISA data, visit the [International Data Explorer](#).

PISA reports are widely disseminated. For a look at these reports visit the NCES website at <http://nces.ed.gov/surveys/pisa/>.

If you need help accessing this website, please contact the PISA help desk by phone between 8 a.m. and 8 p.m. Eastern Standard Time at 1-888-638-2597 or email [PISAHELP@westat.com](mailto:PISAHELP@westat.com).
