

Federal Communications Commission

Explanation of Non-Substantive Change to OMB Control Number: 3060-1271:

- COVID-19 Telehealth Program Post-Program Report Template
-

Purpose of this Submission: This submission is being made for a proposed non-substantive update to an existing information collection pursuant to 44 U.S.C. § 3507. The Commission submits the COVID-19 Telehealth Program Post-Program Report Template (Template) to be included as part of the existing information collection, which was approved by the Office of Management and Budget (OMB) on October 7, 2020.

Request: We request that the Template be included in the 3060-1271 Information Collection approved by OMB on October 7, 2020. Although the Template requirements were approved by OMB in October, the Template itself was not included with the submission because it was still in the drafting process. There are no changes to the information collection, the Template requirements or other forms associated with this collection. We only request that the recently drafted Template be uploaded to the existing information collection so there is a complete inventory of the forms associated with this collection.

Attachment 1: COVID-19 Telehealth Program Post-Program Report Template
