- ICR title has been updated to reflect the DD-3112 form will be used for various public health emergencies and no longer exclusive to COVID-19 related use.

1. Need for the Information Collection

The principal purpose of the DD form 3112, “Personnel Accountability and Assessment Notification for a Public Health Emergency,” is to collect information used to protect the health and safety of individuals working in, residing on, or assigned to DoD installations, facilities, field operations, and commands, and to protect the DoD mission. When authorized by DoD, this form may be used to provide information about individuals who are infected or otherwise impacted by a public health emergency or similar occurrence or when there is an isolated incident in which an individual learns they have been exposed to a contagious disease. or hazardous substance/agent. The form will also be used to document personnel accountability for and status of DoD-affiliated personnel in a natural or man-made disaster, or when directed by the Secretary of Defense. Such events could include severe weather events, acts of terrorism or severe destruction. The collection of this information is necessary to support the DoD in protecting the health and safety of DoD-affiliated individuals and maintain the DoD mission.

The information collected via the DD-3112 will inform decisions made about the status of DoD facilities and spaces that Affected Individuals have entered. This information may be used to make decisions to protect the health and safety of DoD personnel and facilities. It may also be used to notify other individuals who may have contacted the Affected Individual. be used to make informed decisions about the status of the DoD facility and office space that subject individuals exposed to communicable diseases or hazardous substances/agents have entered. This information may be used to make Health Protection Condition (HPCON) level decisions. It may also be used to notify other individuals who may have been in contact with the subject individual(s).

The collection of this information is authorized by the following authorities:

- 10 U.S.C. 113, Secretary of Defense
- 10 U.S.C. 136, Under Secretary of Defense for Personnel and Readiness
- 10 U.S.C. 7013, Secretary of the Army
- 10 U.S.C. 8013, Secretary of the Navy
- 10 U.S.C. 9013, Secretary of the Air Force
- 10 U.S.C. 2672, Protection of Buildings, Grounds, Property, and Persons

- DoD Instruction 3001.02, Personnel Accountability in Conjunction with Natural or Manmade Disasters
- DoD Instruction 6200.03, Public Health Emergency Management (PHEM) Within the DoD
- DoD Instruction 6055.17, and DoD Emergency Management (EM) Program

2. Use of the Information

Information will be collected using the DD-3112 when a public health emergency has been declared or the health protection condition level has increased at a particular DoD installation or facility. The collection will be made through a DoD Form in a PDF fillable format that may be posted on a DoD website or e-mailed to the individual filling out the form. It may be converted into a web portal. The form is concerning a particular individual who has access to DoD installations/facilities and may have been exposed to a communicable disease. The public respondents of the DD-3112 include government contractors, Contracting Officer Representatives, DoD employee dependents, as well as any other residents or visitors to DoD facilities. It may be filled out by the affected individual, or someone on their behalf, such as a supervisor, agency representative, contracting officer representative, or DoD sponsor (if the affected individual is a visitor), etc. Once the form is completed, it will be delivered back to the requesting agency; which could be done via e-mail or if a web-based portal was created based on the form, through that portal. In certain circumstances, the receiving agency may complete the form over the phone. The format and delivery method will depend on what makes the most sense for the particular DoD installation/facility given the circumstances of the situation.

The DD-3112 will be widely disseminated to DoD employees for use at the component and proponent level. The form will be accessible at <https://www.esd.whs.mil/Directives/forms/>. Once completed, respondents submit the form to the appropriate office within their DoD component via email (respondents also have the option to submit their responses by telephone, however this submission method is not expected to be widely utilized. Once the DD-3112 forms have been received by the DoD Component, they will be reviewed by the decision making authorities for the DoD installation/facility to include the public health emergency officer. They will be saved electronically in a shared folder only accessible by those who need to know the information provided.

The information collected will allow for informed decisions to be made by installation commanders, public health emergency officers, senior DoD officials, military housing/facilities managers and supervisors about the status of the DoD facility and office space that the exposed respondent has entered.
