Recipient Death Data

Registry Use Only	OMB No: 0915-0310 Expiration Date: 10/31/2022
Sequence Number:	Public Burden Statement: The purpose of the data collection is to fulfill the legislative mandate to establish and maintain a standardized database of allogeneic marrow and cord blood transplants performed in the United States or using a donor from the United States. The data collected also meets the C.W. Bill Young Cell Transplantation Program requirements to provide relevant scientific information not containing individually identifiable information available to the public in the form of summaries and data sets. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0915-0310 and it is valid until 10/31/2022. This information collection is voluntary under The Stem Cell Therapeutic and Research Act of 2005, Public Law (Pub. L.) 109–129, as amended by the Stem Cell Therapeutic and Research Reauthorization Act of 2015, Public Law 111-264 (the Act) and the Stem Cell Therapeutic and Research Reauthorization Act of 2015, Public Law 114-104. Public reporting burden for this collection of information is estimated to average 0.05 hours per response,
Date Received:	including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or paperwork@hrsa.gov.

Rec	ipient Death	
1.	Date of de	eath: Date estimated
2.	Was caus	se of death confirmed by autopsy?
		Yes – Go to question 3.
		Autopsy pending – Go to question 4.
		No – Go to question 4.
		Unknown – Go to question 4.
	3. <mark>W</mark>	as documentation submitted to the CIBMTR? (autopsy report)
		□ Yes
		□ No
4.	Primary c	ause of death
	☐ Recuri	rence / persistence / progression of disease for which the infusion was performed – Go to question 6 .
	☐ Acute	GVHD – Go to question 6.
	☐ Chroni	c GVHD – Go to question 6.
		Graft rejection or failure – <i>Go to question 6.</i>
		Cytokine release syndrome – Go to question 6.
	Hemorrh	age Diffuse alveolar hemorrhage (DAH) – <i>Go to question 6.</i>
		Gastrointestinal hemorrhage – <i>Go to question 6.</i>
	_	Hemorrhagic cystitis – <i>Go to question 6.</i>
		Intracranial hemorrhage – Go to question 6.
	□	Pulmonary hemorrhage – Go to question 6 .
	□	Other hemorrhage - <i>Go to question 5.</i>
	Infection	
		Bacterial infection – Go to question 6.
		COVID-19 (SARS-CoV-2) – Go to question 6.
		Fungal infection – Go to question 6.
		Infection, organism not identified – <i>Go to question 6.</i>
		Protozoal infection – Go to question 6.
		Viral infection – Go to question 6.
		Other infection – Go to question 5.

IBMTR Center	Number: CIBMTR Research ID:
Malignan	
	New malignancy (post-infusion) – Go to question 6.
□ the <mark>ir</mark>	Prior malignancy (malignancy initially diagnosed prior to infusion, other than the malignancy for which fusion was performed) – Go to question 6.
Organ fa □	ilure (not due to GVHD or infection) Cardiac failure – Go to question 6.
	Central nervous system (CNS) failure – Go to question 6.
	Gastrointestinal (GI) failure (not liver) – Go to question 6.
	Liver failure (not VOD) - Go to question 6.
	Multiple organ failure - Go to question 5.
	Pulmonary failure- Go to question 6.
	Renal failure – Go to question 6.
	Veno-occlusive disease (VOD) / sinusoidal obstruction syndrome (SOS) – Go to question 6.
	Other organ failure - Go to question 5.
Pulmona	ary
	Acute respiratory distress syndrome (ARDS) (other than IPS) – Go to question 6.
	Diffuse alveolar damage (without hemorrhage) – Go to question 6.
	Idiopathic pneumonia syndrome (IPS) – <i>Go to question 6.</i>
	Pneumonitis due to Cytomegalovirus (CMV) – <i>Go to question 6.</i>
	Pneumonitis due to other virus – <i>Go to question 6.</i>
	Other pulmonary syndrome (excluding pulmonary hemorrhage) – Go to question 5 .
Toxicity □	Neurotoxicity (ICANS) – <i>Go to question 6.</i>
	Tumor lysis syndrome – Go to question 6
Vascular	
	Disseminated intravascular coagulation (DIC) – Go to question 6.
	Thromboembolism – Go to question 6.
	nbotic microangiopathy (TMA) (Thrombotic thrombocytopenic purpura (TTP)/Hemolytic ic Syndrome (HUS)) – <i>Go to question 6.</i>
□	Other vascular - Go to question 5.
Other	Accidental death – Go to question 6.
	Suicide – Go to question 6.
	Other cause - Go to question 5.
