

**Identification of behavioral and clinical predictors of early HIV
infection
(Project DETECT)**

Attachment 6a

Phase 1 Enrollment Survey A (English)

Public reporting burden of this collection of information is estimated to average 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-1100)

Privacy Act Statement:

This information is collected under the authority of the Public Health Service Act, Section 301, "Research and Investigation," (42 U.S.C. 241); and Sections 304, 306 and 308(d) which discuss authority to maintain data and provide assurances of confidentiality for health research and related activities (42 U.S.C. 242 b, k, and m(d)). This information is also being collected in conjunction with the provisions of the Government Paperwork Elimination Act and the Paperwork Reduction Act (PRA). This information will only be used by the Centers for Disease Control and Prevention (CDC) staff to: 1) characterize the performance of new HIV tests for detecting established and early HIV infection at the point of care (POC), relative to each other and to currently used gold standard, non-POC tests, and 2) identify behavioral and clinical predictors of early HIV infection.

FP-1 UW Study ID: _____

FP-2 CDC Study ID: _____

FP-3 Visit Date: MM/DD/YYYY

FP-4 HIV status:

HIV-negative/unknown

Established Chronic HIV infection – diagnosis >3 months ago

Newly Diagnosed Chronic HIV infection – diagnosed in last 3 months

Acute HIV infection

HIV-positive, timing unknown

CONSENT

We've already discussed the following two questions with you but would like to document your answers electronically. If you have any questions about what we're asking, please talk to study staff before responding.

CT-1 Do you agree to take part in the study?

Yes

No

CT-2 We ask you to agree to freeze part of the blood and oral fluid specimens you give us at the CDC for future use. We may use these samples for research in the future. Nothing that could be linked to you will be kept with the blood. We are not sure what studies might be done in the future. They might include standard tests as done at hospitals, tests for HIV or other viruses or on your immune system (ability to fight infection). We will not test for genetic problems or use the blood for cloning or commercial purposes.

I give consent for my blood to be stored at CDC for the future use as outlined above.

I DO NOT give consent for my blood to be stored at CDC for future research.

If CT-1 or CT-2 = No, participant has declined participation in the study. Screen will say, "Please pause the survey here and talk to study staff." Study staff will discuss the responses with the participant and address any questions or concerns. If participant does not want to participate, study staff will end the survey and withdraw participant from the study. If participant does want to participate and responded inaccurately for any reason, study staff will help the participant navigate back to these questions and answer them correctly, so the participant can proceed with the remainder of the survey.

SOCIODEMOGRAPHICS 1

In this first set of questions, we would like to know how you describe yourself.

___ ___ Number of times (0 to N)

HT-9 When was the last time you tested for HIV?

MM/YYYY

HT-10 When you last had an HIV test, what was the result?

- Positive
- Negative
- Unknown

[If HT-10 = *Negative/Unknown*:] HT-11 Have you ever tested HIV positive?

- Yes
- No
- Unsure

[If HT-10 = *Positive*:]

HT-12 Was that your first positive HIV test?

- Yes
- No
- Unsure

[If HT-12 = No OR FP-4 indicates positive:]

HT-19 What was your last viral load? If you were told that your viral load was undetectable OR detectable but so low that the test cannot tell you the actual number, please check “Undetectable”.

Undetectable

Detectable

Do not know

PRE-EXPOSURE PROPHYLAXIS

[Ask section of everyone except those HIV Positive with first positive test > 3 months ago.]

This next set of questions is about your experiences taking HIV medicines to prevent yourself from getting HIV. This can also be called Pre-Exposure Prophylaxis or PrEP.

PR-1 In the last 3 months (since [current month/year – 3 months]) have you taken HIV medicines to prevent yourself from getting HIV?

Yes

No

Don't remember

SEXUAL BEHAVIOR

We will now ask you some questions about sexual experiences you've had in the past 3 months. We only want to know about partners you had oral, anal or vaginal sex with since [*insert date from 3 months ago*].

Some questions will ask specifically about your sex partners' HIV status and what you did with partners who were HIV positive, HIV negative, and partners whose HIV status you did not know. We know you can't always be sure of a partner's HIV status. Please try to answer the questions based on what you knew and what your partners told you or did not tell you about their HIV status.

We know that it may be difficult to answer some of these questions if one or more of your sex partners do not identify as male or female, or if they are transgender. Except where we ask specifically about transgender partners, please include these sex partners in your responses to the questions about sex with either men or women, whichever you think is most appropriate.

We also know that how people refer to their genitals can be unique and personal. The following questions may use words that don't perfectly fit how you or your partners refer to your bodies. Please answer the questions about specific sex acts the best that you can.

If SU-1 = Male or Male-to-Female AND SX-1 = "Only men", ask only Male Sex Partners of Men questions.

If SU-1 = Male or Male-to-Female AND SX-1 = "Only women", ask only Female Sex Partners of Men questions.

If SU-1 = Male or Male-to-Female AND SX-1 = "Both men and women", ask Female Sex Partners of Men questions first, followed by Male Sex Partner questions.

If SU-1 = Female or Female-to-Male and SX-1 = "Only men" or "Both men and women", ask Male Sex Partners of Women questions.

If SX-1 = "Nobody" OR SU-1 = Female or Female-to-Male and "Only women", skip all remaining sexual behaviour questions.

Female Sex Partners of Men

The next questions are about women you had vaginal or anal sex with in the past 3 months. "Vaginal sex" means you put your penis in her vagina. "Anal sex" means you put your penis in her butt.

FX-1. In the past 3 months, with how many different women did you have vaginal or anal sex?

___ ___ Number of women (1 to N)

77 I prefer not to answer

FX-2. With how many of these [FX-1] women did you have vaginal or anal sex without using a condom or not using it the whole time?

___ ___ Number of women (0 to N)

I prefer not to answer

Check to make sure $FX-1 \leq FX-2$. If not, then display “The number of women you had sex without using a condom or not using it the whole time cannot be more than the number of women you had vaginal or anal sex with in the past 3 months. Please carefully re-enter your response.”, and loop back to enter the number.

FX-3. In the past 3 months, how many of these [FX-2] women you had vaginal or anal sex without using a condom were:

HIV positive? ___ ___ Number of women (0 to N)

HIV negative? ___ ___ Number of women (0 to N)

Women whose HIV status you did not know? ___ ___ (0 to N)

I prefer not to answer

Check to make sure that the numbers in FX-3 add up to the total N from FX-2. If not, then display “The number of HIV positive, HIV negative and HIV status unknown partners must add up to [FX-2]. Please carefully re-enter your responses.”, and loop back to enter the numbers.

Male Sex Partners of Women

The next questions are about men you had vaginal or anal sex with in the past 3 months.

“Vaginal sex” means he put his penis in your vagina. “Anal sex” means he put his penis in your butt.

FM-1. In the past 3 months, with how many different men did you have vaginal or anal sex?

___ ___ Number of men (1 to N)

I prefer not to answer

FM-2. With how many of these [FM-1] women did you have vaginal or anal sex without using a condom or not using it the whole time?

___ ___ Number of men (0 to N)

I prefer not to answer

Check to make sure $FM-1 \leq FM-2$. If not, then display “The number of men you had sex without using a condom or not using it the whole time cannot be more than the number of men you had vaginal or anal sex with in the past 3 months. Please carefully re-enter your response.”, and loop back to enter the number.

FM-3. In the past 3 months, how many of these [FM-2] men you had vaginal or anal sex without using a condom were:

HIV positive? ___ ___ Number of men (0 to N)

HIV negative? ___ ___ Number of men (0 to N)

Men whose HIV status you did not know? ___ ___ (0 to N)

I prefer not to answer

Check to make sure that the numbers in FM-3 add up to the total N from FM-2. If not, then display “The number of HIV positive, HIV negative and HIV status unknown

partners must add up to [FM-2]. Please carefully re-enter your responses.”, and loop back to enter the numbers.

FM-4. Did any of the [FM-1] men you had sex with in the last 3 months also have sex with men?

- Yes
- No
- Don't know

Male Sex Partners of Men

The next questions are about men you had sex with in the past 3 months. “Oral sex” means you put your penis in his mouth, or he put his penis in your mouth. “Anal sex” means you put your penis in his butt, or he put his penis in your butt.

SX-1. In the past 3 months, with how many different men did you have oral or anal sex?

___ ___ Number of men (1 to N)

I prefer not to answer

SX-2. In the past 3 months, with how many different men did you have anal sex?

___ ___ Number of men (1 to SX-1)

I prefer not to answer

SX-3. In the past 3 months, of the (SX-2) men you had anal sex with, with how many different men did you have anal sex without a condom?

___ ___ Number of men (1 to SX-2)

I prefer not to answer

The next few questions will ask about times you had sex with more than one man in the same encounter. For these questions, a threesome involves sex with you and two other men. Group sex involves sex with you and at least 3 other men. When the question asks about the number of partners you had during a threesome or group sex, please write the total number of different partners you had across all encounters.

GS-1: In the past 3 months, how many times did you have sex with more than one man in the same encounter? (Threesome or group sex)

___ Number of events (times you had sex with more than one man in the same encounter)

I prefer not to answer

[If GS-1 > 0:] GS-2: In the past 3 months, how many times did you have sex with only two other men in the same encounter (a threesome)?

___ Number of events (times you had a threesome) (0 to GS-1)

I prefer not to answer

[If GS-2 > 0:] GS-3: In the past 3 months, in these [GS-2] threesomes, with how many different men did you have anal sex?

___ Total number of men with whom you had anal sex during a threesome (0 to SX-2)

I prefer not to answer

[If $GS-3 > 0$:] GS-4: In the past 3 months, of the [GS-3] men you had anal sex with during threesomes, with how many different men did you have anal sex without a condom?

___ Total number of men with whom you had anal sex without a condom (0 to SX-3)

I prefer not to answer

[If $GS-4 > 0$:] GS-5: Of the [GS-4] men with whom you had anal sex without condoms during threesomes, how many were:

___ HIV-Positive

___ HIV-Negative

___ Didn't know his/their HIV status

[If $GS-1 > 0$ & $GS-2 < GS-1$:] GS-6: In the past 3 months, how many times did you have sex with 3 or more other men in the same encounter (group sex)?

___ Number of events (times you had sex with three or more other men) (0 to GS-1)

I prefer not to answer

[If $GS-6 > 0$:] GS-7: In the past 3 months, in these [GS-6] times you had group sex (sex with 3 or more other men), with how many different men did you have anal sex?

___ Total number of men with whom you had anal sex during group sex (0 to SX-2)

I prefer not to answer

[If $GS-7 > 0$:] GS-8: In the past 3 months, of the [GS-7] men you had anal sex with during group sex, with how many different men did you have anal sex without a condom?

___ Total number of men with whom you had anal sex without a condom (0 to SX-3)

I prefer not to answer

[If $GS-8 > 0$:] GS-9: Of the [GS-8] men with whom you had anal sex without condoms during group sex, how many were:

___ HIV-Positive

___ HIV-Negative

___ Didn't know his/their HIV status

In the next section we will ask you more about the SX-2 men you had anal sex with.

Partner-Specific Questions

If $SX-2 = 1$ ask Partner 1 questions

If $SX-2 = 2$ ask Partner 1 and Partner 2 questions

If $SX-2 = 3$ ask Partner 1, Partner 2 and Partner 3 questions

If $SX-2 \geq 4$ ask Partner 1, Partner 2, Partner 3 and Questions for ≥ 4 partners

SX-4 Please enter a nickname or initials for the [insert number from SX-2 if < 3 , or insert 3] most recent men you had anal sex with since [insert date from 3 months ago].

We do not want to know the names of your partners. Please choose a nickname or initials that you will remember and that will best help you identify that person.

Questions for ≥ 4 male sex partners

The next questions are about the [(SX-2) – 3] men you had anal sex with in the past 3 months other than [*insert nicknames from SX-4*].

SX-37 Were any of the [(SX-2)-3] men you had anal sex with in the past 3 months someone that you feel or felt committed to (someone you might call your boyfriend, significant other, life partner, or husband)?

- Yes
- No
- Don't know

[*If SX-37 = Yes:*] SX-38 How many of the men you had anal sex with in the past 3 months were someone that you feel or felt committed to (someone you might call your boyfriend, significant other, life partner, or husband)?

___ Number of partners

SX-39 If you had to further describe the type of sex partners for the other [(SX-2)-3] men you had anal sex with in the past 3 months, which of the following would you choose? Pick only one description for each partner, then place a number next to each partner type description. If none of your [(SX-2)-3] partners fit that description use a zero (0).

- ___ a primary sexual partner
- ___ you have sex with on a regular basis, *<i>but who is not a main or primary partner</i>*
- ___ you have had sexual contact with more than once, *<i>but not on a regular basis</i>*, and who you normally socialize with
- ___ you have had sexual contact with more than once, *<i>but not on a regular basis</i>*, and who you don't socialize with
- ___ you had sexual contact with only 1 time, but could find again if necessary
- ___ you had never met before you had had sexual contact and never plan to see again
- ___ you gave sex to for money or other goods or someone who gave you sex for money or other goods

Check to make sure that the numbers in SX-39 add up to (SX-2) - 3. If not, then display "The number of partners must add up to [(SX-2) - 3]. Please carefully re-enter your responses.", and loop back to enter the numbers.

SX-40. With how many of these [(SX-2) – 3] men did you have anal sex **without using a condom or not using it the whole time**?

___ ___ Number of men (0 to N)

Check to make sure $SX-40 \leq (SX-2) - 3$. If not, then display “The number of other men you had anal sex without using a condom cannot be more than the total number of men you had anal sex with in the past 3 months. Please carefully re-enter your response.”, and loop back to enter the number.

SX-41. In the past 3 months, how many of these [SX-40] men that you had anal sex without using a condom were:

HIV positive? ___ ___ Number of men (0 to N)

HIV negative? ___ ___ Number of men (0 to N)

Men whose HIV status you did not know? ___ Number of men (0 to N)

Check to make sure that the numbers in SX-41 add up to the total N from SX-40. If not, then display “The number of HIV positive, HIV negative and HIV status unknown partners must add up to [SX-40]. Please carefully re-enter your responses.”, and loop back to enter the numbers.
