

**Non-Substantive Change Request to OMB Approved Information Collection
Justification for Change Memo
Injection Drug Use Surveillance Project (IDU-SP)
OMB # 0920-1325**

Summary of Changes

We are requesting a change in the information collection request (ICR) for the Injection Drug Use Surveillance Project OMB # 0920-1325 (exp. 02/29/2024). We are requesting changes to the survey which include wording changes, changing response items, deleting two survey items, adding a few questions, modifying skip patterns, and separating a question into smaller questions. These requested changes are minor and do not impact or change the project's methodology, purpose, or the estimated burden.

Please see the following three documents attached for your review:

1. Original OMB approved survey
2. Original OMB approved survey in track changes which correspond with changes described in Excel file.
3. Excel table that provides a crosswalk of the approved and proposed changes to the survey. The table specifically lists the original survey items, changes to survey items, and respective justifications/reasons for changes.
