## Social Security Number Verifications

### Verifying Social Security Numbers

Employers, organizations or third-party submitters can verify Social Security numbers for wage reporting purposes only. Social Security offers three options to verify Social Security numbers:

1. The [Social Security Number Verification Service](#) - This free online service allows registered users to verify that the names and Social Security numbers of hired employees match Social Security's records.
2. The [Consent Based Social Security Number Verification Service](#) - This fee-based Social Security number verification service is available to enrolled private companies, state and local government agencies to provide instant automated verification and can handle large volume requests.

### SSNVS Overview

There are two Internet verification options you can use to verify that your employee names and Social Security numbers (SSN) match Social Security's records. You can:

- Verify up to 10 names and SSNs (per screen) online and receive immediate results. This option is ideal to verify new hires.
- Upload overnight files of up to 250,000 names and SSNs and usually receive results the next government business day. This option is ideal if you want to verify an entire payroll database or if you hire a large number of workers at a time.

While the service is available to all employers and third-party submitters, it can only be used to verify current or former employees and only for wage reporting (Form W-2) purposes.

### Why Should I Verify Names and SSNs Online

- Correct names and SSNs on W-2 wage reports are the keys to the successful processing of your annual wage report submission.
- It's faster and easier to use than submitting your requests paper listings or using Social Security's telephone verification option.
- Results in more accurate wage reports.
- Saves processing costs and reduces the number of W-2c's.
- Allows Social Security to give the proper credit to your employees' earnings record, which will be important information in determining their Social Security benefits in the future.

### SSNVS Attestation

#### Proper Use of Social Security Number Verification Service (SSNVS)

- SSNVS should only be used for the purpose for which it is intended.
- SSA will verify Social Security Numbers (SSNs) solely to ensure the records of current or former employees are correct for the purpose of completing Internal Revenue Service (IRS) Form W-2 (Wage and Tax Statement).
- It is illegal to use the service to verify SSNs of potential new hires or contractors or in the preparation of tax returns.
- It is appropriate to use SSNVS only once an official employee-employer relationship has been established. SSA defines the existence of an employee-employer relationship as when one of the following has occurred:
  - The employer's offer of employment and acceptance by the person being hired (even though he/she has not started working); and/or
  - The future employer's completion of the paperwork to establish the payroll record.
- Company policy concerning the use of SSNVS should be **applied consistently to all workers**, for example:
  - If used for newly hired workers, verify information on all newly hired workers.
  - If used to verify information on other workers, verify the information for all other workers.
- Third party use of SSNVS is strictly limited to organizations that contract with employers to either handle the wage reporting responsibilities or perform an administrative function directly related to annual wage reporting responsibilities of hired employees. It is suggested that contracts between the third-party and the employer stipulate that the functions being performed by the third-party contractor adhere to the proper use of SSNVS. It is not proper to use SSNVS for non-wage reporting purposes, such as identity, credit checks, mortgage applications, etc.
- Anyone who knowingly and willfully uses SSNVS to request or obtain information from SSA under false pretenses **violates Federal law** and may be punished by a fine, imprisonment or both.
- SSA may ban you and/or the company you represent from the use of SSNVS if SSA determines there has been misuse of the service.
- SSA returns all names and SSNs submitted. If the name and SSN do not match our records, SSA advises the following:
  - This response does not imply that you or your employee intentionally provided incorrect information about the employee's name or SSN.
  - This response does not make any statement about your employee's immigration status.
  - This response is not a basis, in and of itself, to take any adverse action against the employee, such as laying off, suspending, firing, or discriminating against the employee.

**If you rely only on the information SSA provides regarding name and SSN verification to justify adverse action against a worker, you may violate State or Federal law and be subject to legal consequences.**

#### Additional Information for Third-Party Submitters

You can use a fee-based application when offering SSNVS to your clients. However, caution should be taken. SSA offers services, like SSNVS, free of charge. Some companies in the private sector offer those same services for a fee and develop misleading brochures and advertisements. To discourage the use of misleading mailings about Social Security and Medicare, Congress enacted specific prohibitions in Section 312 of the Social Security Independence and Program Improvements Act of 1994 that obsoleted the existing provisions. The prohibitions are codified at Title 42 of the U.S. Code, Section 1320-10. You should ensure that you are aware of these legal provisions and conform to their requirements and:

- Be cautious not to suggest to your clients that this service is only available through you;
- Advise all clients that this service is available at no cost from SSA and that this service is not a unique or exclusive arrangement between SSA and your company; and
- Be sure not to give any impression when describing your SSNVS service to your clients that your company has an arrangement that allows direct access to SSA database, program software, etc.

#### User Certification for Use of SSNVS - Please Read Carefully!

I certify that:

- I have read and understand the above section titled "Proper Use of Social Security Number Verification Service (SSNVS)" and the "Federal Privacy Act Statement for Third-Party Submitters";
  - I am verifying SSNs solely to ensure that the records of my clients or my current or former employees are correct for the purposes of Form W-2 reporting;
  - I am authorized, under valid contracts with all outside employees of any individual from whom I will request SSN verification, to transmit employee SSNs and identifying information and to receive the results of SSNVS;
- or
- I have the authority from my employer (or am the owner of the company) to transmit employee SSNs and identifying information and to receive the results of SSNVS.

## Submit a File for SSN Verification - Before You Start

Name: TEST USER

Steps: **1. Before You Start** 2. Submit Your File 3. Confirmation

### 1. Before You Start

The following items below are suggestions to follow before submitting your file for SSN verification.

- Review your file(s) for correct formatting**  
Before submitting your file, we recommend that you ensure the file is error-free and can be sent quickly.
  - We provide the proper file format on the [SSNVS Help](#) page and in the SSNVS Handbook. Reviewing your file for proper formatting may prevent it from being rejected.  
[Submission File Format](#)
  - Do NOT send an Excel Spreadsheet. If you are using Excel, select [Excel Users](#) for more information.
  - Effective 09/24/11, gender is no longer used as part of the SSN verification process. You do not need to make any changes to the file format. If a value is included in position 54 of a file, we will remove it and replace it with a blank prior to the verification attempt. All returned files will have a blank in position 48.
- Zip Your File**  
If you have over 500 Name/SSN requests or a slow connection, the transmission will be faster if the file is zipped (compressed). WinZip and PKZip are examples of acceptable compression packages. This will substantially reduce the time required to transmit your file.

Name: TEST USER

Steps: 1. Before You Start   2. Submit Your File   **3. Confirmation**

#### 3. Confirmation Receipt - Your File Was Received

Your submission was **successful**. Use your browser menu to save or print this acknowledgement of receipt for your records. You will need the confirmation number assigned by SSA to retrieve the results of your submission.

Confirmation Number assigned by SSA: 00x00x00xx0000x

Date: 03/13/2019 04:48 PM Eastern Time   Your file name: SSNVS\_Test\_File.bt   Assigned file name: 14C14E58AA55391D\_76E00010   File size: 1,188 bytes (1.2 Kb)

#### What You Should Do Next:

Check the size of your file. Right click on the file (or tab to it and select Shift + F10) and select *Properties*. The size given in bytes should match the size given on the Confirmation page. If it does not match, there may have been a problem with transmission. Please contact the Employer Reporting Branch at 1-800-772-6270. For TDD/TTY call 1-800-325-0778.

#### What to expect:

You may check your results from the View Status and Retrieval Information link on the SSNVS Main Menu web page. Except for peak submission periods, file results will usually be available the next government business day.

Thank you for submitting your file using Business Services Online.

# Attestation Screen

## SSNVs Attestation

### Proper Use of Social Security Number Verification Service (SSNVs)

- SSNVs should only be used for the purpose for which it is intended.
- SSA will verify Social Security Numbers (SSNs) solely to ensure the records of current or former employees are correct for the purpose of completing Internal Revenue Service (IRS) Form W-2 (Wage and Tax Statement).
- It is illegal to use the service to verify SSNs of potential new hires or contractors or in the preparation of tax returns.
- It is appropriate to use SSNVs only once an official employer-employee relationship has been established. SSA defines the existence of an employer-employee relationship as when one of the following has occurred:
  - The employer's offer of employment and acceptance by the person being hired (even though hire date has not started working); and/or
  - The future employer's completion of the paperwork to establish the payroll record.
- Company policy concerning the use of SSNVs should be **applied consistently to all workers**, for example:
  - if used for newly hired workers, verify information on all newly hired workers.
  - if used to verify information on other workers, verify the information for all other workers.
- Third party use of SSNVs is strictly limited to organizations that contract with employers to either handle the wage reporting responsibilities or perform an administrative function directly related to annual wage reporting responsibilities of hired employees. It is suggested that contracts between the third party and the employer stipulate that the functions being performed by the third party conform to the proper use of SSNVs. It is not proper to use SSNVs for non-wage reporting purposes, such as identity, credit checks, mortgage applications, etc.
- Anyone who knowingly and willfully uses SSNVs to request or obtain information from SSA under false pretenses **violates Federal law** and may be punished by a fine, imprisonment or both.
- SSA may ban you and/or the company you represent from the use of SSNVs if SSA determines there has been misuse of the service.
- SSA returns all names and SSNs submitted. If the name and SSN do not match our records, SSA advises the following:
  - This response does not imply that you or your employee intentionally provided incorrect information about the employee's name or SSN.
  - This response does not make any statement about your employee's immigration status.
  - This response is not a basis, in and of itself, to take any adverse action against the employee, such as laying off, suspending, firing, or discriminating against the employee.

**If you rely only on the information SSA provides regarding name and SSN verification to justify adverse action against a worker, you may violate State or Federal law and be subject to legal consequences.**

### Additional Information for Third-Party Submitters

You can use a fee-based approach when offering SSNVs to your clients. However, caution should be taken. SSA offers services, like SSNVs, free of charge. Some companies in the private sector offer those same services for a fee and develop misleading brochures and advertisements. To discourage the use of misleading mailings about Social Security and Medicare, Congress enacted specific prohibitions in Section 312 of the Social Security Independence and Program Improvements Act of 1994 that prohibited the existing data firms. The prohibitions are codified at Title 42 of the U.S. Code, Section 13200-10. You should ensure that you are aware of these legal provisions and conform to their requirements and:

- Be cautious not to suggest to your clients that this service is only available through you;
- Advise all clients that this service is available at no cost from SSA and that this service is not a unique or exclusive arrangement between SSA and your company; and
- Be sure not to give any impression when describing your SSNVs service to your clients that your company has an arrangement that allows direct access to SSA databases, program software, etc.

### User Certification for Use of SSNVs - Please Read Carefully!

#### I certify that:

- I have read and understand the above section titled "Proper Use of Social Security Number Verification Service (SSNVs)" and the "Federal Privacy Act Statement for Third-Party Submitters".
  - I am verifying SSNs solely to ensure that the records of my clients or my current or former employees are correct for the purposes of Form W-2 reporting.
  - I am authorized, under valid contracts with all outside employees of any individual from whom I will request SSN verification, to transmit employee SSNs and identifying information and to receive the results of SSNVs.
- or
- I have the authority from my employer (or am the owner of the company) to transmit employee SSNs and identifying information and to receive the results of SSNVs.

By selecting the "I Agree" button, you certify that you have read, understand and agree to the user certification of Business Services Online.
