RETAIN STAFF ACTIVITY LOGS

INSTRUCTIONS FOR COMPLETING THE RETAIN STAFF ACTIVITY LOG

Mathematica, the national evaluator of RETAIN, is asking you to record how you spend your time over the course of a week on 13 RETAIN activities using the attached log. These activities represent the components of what RETAIN program staff might do on a day-to-day basis. In completing the attached log, please note the following:

- Your participation is voluntary and should take no more than five minutes per day.
- Table 1 provides descriptions of the activities we are interested in tracking. To help you record your time, the table includes examples from your RETAIN program corresponding to these activities.
- At the end of each day from **DATE to DATE**, please use the log to record how much time (in half-hour [30 minute] increments) you spent on each activity. You are not expected to have spent time on all of the activities listed.
- Record time for an activity only if the work was a substantive effort related to that activity. For example, time spent helping a participant developing an individual return to work plan would be recorded as “return to work services” activity, whereas time spent referring a participant to an employment service provider would not (and would instead be recorded as a “case management services” activity).
- The 11th activity in the log is where you should record RETAIN-related travel time. The 12th activity is an ‘Other’ category in which you may record time spent on RETAIN-related work that does not correspond to any of the first 10 activities.
- Do not record time spent on activities unrelated to RETAIN.
- The total hours recorded should sum to the number of hours that you worked that day on RETAIN, including any “after hours” work.
- We will use the information from the completed logs, along with other information that we will collect as part of the national evaluation of RETAIN, to develop an understanding what is happening in your RETAIN program and to estimate the costs of activities on which staff spend their time. It will also help other organizations to replicate your program.
- [Additional instructions proposed by each RETAIN program, if any]
- If you have any questions about how to complete the log, contact us at XXXXXX@mathematica-mpr.com or call XXX-XXX-XXXX.
