

As part of the COVID-19 Public Education Campaign market research efforts, the Current Events Tracker (CET) is a flexible survey vehicle designed for easy addition or removal of questions as applicable to the current environment. In this round, last week's additional questions are removed; non-substantive additions include a battery on vaccine eligibility; questions to assess the public's perceptions of the vaccine distribution process, and a question regarding intended changes in Valentine's day plans. This request does not impact the total burden hours proposed for the CET in the initial submission.
