Bureau of Indian Education School Reopening Plans

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of public meetings.

SUMMARY: The Bureau of Indian Education (BIE) is seeking stakeholder input on its plans to rely upon the latest U.S. Department of Education (ED) and the Centers for Disease Control and Prevention (CDC) guidance regarding reopening its K–12 schools, residential facilities, and post-secondary schools for safe delivery of in-person and hybrid instruction and determine if BIE schools should include additional guidelines.

DATES: Public meetings addressing K–12 and residential facilities will be held from 4 p.m. to 5 p.m. Eastern Time (ET) on May 10, 2021. Public meetings addressing post-secondary institutions will be held 4 p.m. to 5 p.m. ET on May 11, 2021. Written comments must be received by 11:59 p.m. ET, May 14, 2021.

SUPPLEMENTARY INFORMATION: BIE is working on reopening schools for safe delivery of in-person and hybrid instruction based on the latest guidance

from the U.S. Department of Education and the Centers for Disease Control and invites stakeholders to provide input regarding additional needs and resources to ensure the safety and wellbeing of students at BIE schools. Among the items BIE is specifically considering as it undertakes reopening schools are:

- What is needed to ensure student safety when using commercial transportation services before students travel to a residential facility and when they travel home?
- Would you recommend that students be vaccinated before arriving on campus if vaccinations are available?
- What are your recommendations to serve students that plan to attend residential facilities and post-secondary institutions from communities with high rates of COVID–19?
- Are there any recommendations for grades K–12 and residential facilities not already addressed by ED and CDC reopening guidance that requires additional clarification or guidance by BIE?

BIE-operated schools include three categories, each of which BIE will plan for separately:

1. Schools serving grades K–12;
2. BIE residential facilities; and
3. Post-secondary institutions

(specifically, Haskell Indian Nations University and Southwest Indian Polytechnic Institute (SIPI)).

The intended purpose of this stakeholder engagement is to ensure that BIE is meeting the needs of its students, schools, and Tribal communities during the COVID–19 Pandemic recovery. BIE has invited Tribes to Tribal consultation sessions by letter.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to

comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

On November 20, 2020, we published in the **Federal Register** (85 FR 74374) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on January 19, 2021. We received no comments to that notice.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback, we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. Requests under this generic clearance will be submitted to OMB via Form DI-4011, "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery."

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.
