Appendix D
PIAAC Cycle II
Field Test Assessment Text

Help Text

<p>Thank you for answering those questions.</p>
<p>In the next part of the study, you will be asked to complete a series of exercises. You will be asked to read and answer questions about different topics that involve real life situations. You may find some questions easy and others more difficult, it's all right if you can't do all of them but it is important that you try each one. Here is some paper, a pen/pencil and a calculator in case you would like to use these materials while completing the exercises.</p>
<p>To complete the exercises you will work on this tablet. I will demonstrate how to use the tablet and give you a chance to practice before you begin the exercises.</p>
<p>To select something on the tablet screen, tap it with your finger or the stylus. I will demonstrate how to tap on this shape, first using my finger and then the stylus. Then I will tap on the NEXT arrow at the top of the screen to go on.</p>
<p>Please practice tapping on the shape. Practice using both your finger and the stylus. When you are finished practicing, please hand the tablet back to me.</p>
<p>Sometimes you will be asked to drag and drop something on the screen. I will show you how this works using the stylus. You can also drag and drop it near empty square #2. Note that I can drag the gold square back near its starting location and it will drop back into place.</p>
<p>Please practice dragging and dropping and dropping the squares. Practice using both your finger and the stylus. When you are finished practicing, please hand the tablet back to me.</p>
<p>Sometimes you will be asked to highlight words on the screen. This must be done using the stylus as highlighting with your finger will not work. In the list below, I will show you how to highlight the word "Atlantic" as well as the complete sentence in the note. Then I will tap with the stylus to erase the highlight for "Atlantic."</p>
<p>Please practice highlighting using the stylus. When you are finished practicing, please hand the tablet back to me.</p>
<p>You will complete all of the remaining exercises on your own. Please read and follow the instructions on each screen. Do you have any questions before you begin? I will now give you the tablet.</p>
HELP
<p>Tap on a link or scroll down to find the information you need.</p>
<p>When you are finished, tap on CLOSE to return to the exercise screen.</p>

How to Answer

Tap on a choice:

These questions have only one answer.

Tap on a choice.

The circle will be filled.

To change the answer, tap on a different choice.

Tap on one or more boxes:

These questions may have more than one answer.

Tap on one or more boxes.

A checkmark will appear in the box.

To change the answer, tap again on any box you have selected.

The checkmark will erase.

Tap on a sentence:

Note that you can select more than one sentence.

Tap on any part of a sentence.

The entire sentence will highlight.

To change the answer, tap again on any sentence you have selected.

The highlighting will erase.

Tap on a table

Tap on a cell.

The circle will be filled.

To change the answer, tap on a different cell.

Tap on other information

Follow the directions on the exercise screen.

Tap on the information – for example part of a graph, chart, table or form – and that part will highlight.

To change the answer, tap again on any information you have selected.

The highlight will erase.

Highlight one or more words or sentences:

Note that you can highlight more than one selection on the screen.

Move the pen across the text you want to highlight.

To change the answer, tap on any highlighted word or sentence with the pen.

The highlighting will erase.

Use the keypad

To answer

Tap on the answer box and the keypad will display.

Tap on one or more numbers on the keypad.

Note that you can also tap on the symbols to enter a decimal point, fraction slash, or negative sign.

Tap on OK when you are finished and the numbers will display in the answer box.

To change the answer

Tap on the answer box again.

Erase part or all of your answer using the backspace key.

Enter a new answer.

Tap on OK.

Drag and drop:

Touch and hold a choice.

Drag the choice to a new location and drop it in an empty box.

To change the answer, drag the choice back near its starting location and it will drop back into place.

Remember that you will NOT be able to go back to a question once you have chosen to go on.

Tap on the NEXT arrow to begin.

Performance - Effort

Thank you.

You have completed this set of exercises.

Tap on the NEXT arrow to continue.

Before concluding the study, you will be asked two final questions.

Tap on the NEXT arrow to answer the questions.

You have just seen about XX questions.

How many questions do you think you answered correctly?

Tap on a choice to answer.

Just a few

20% or less

21% – 40%

Around half

41% – 60%

61% – 80%

Almost all

81% – 100%

Please provide a response before continuing.

Try to imagine an actual situation (at work or in some other context) that is highly important to you personally, where you would try your very best to put in as much effort as you could in order to do well.

In this situation, you would mark your effort as a 10, as shown here.

1-10

Compared to the situation you have just imagined, how much effort did you put into these exercises?

Tap on a number to answer.

1-10

Thank you.

You have completed all the exercises.

Please hand the tablet back to the interviewer.

Please provide a response before continuing.
