

Supporting Statement for VA Form 28-1905m,  
**Request and Authorization for Supplies (Chapter 31 – Veteran Readiness and  
Employment)**  
OMB #2900-0061

**A. JUSTIFICATION:**

- 1. Explain the circumstances that make the collection of information necessary. Identify legal or administrative requirements that necessitate the collection of information.**

The Department of Veterans Affairs (VA) through its Veterans Benefits Administration (VBA) administers an integrated program of benefits and services, established by law, for Veterans, service personnel, and their dependents and/or beneficiaries. Title 38 United States Code (U.S.C.) 5101(a) provides that a specific claim in the form provided by the Secretary must be filed for benefits to be paid to any individual under the laws administered by the Secretary. Additionally, 38 U.S.C. 501(a) provides VA the authority to collect this information. VA Form (VAF) 28-1905m, Request and Authorization for Supplies (Chapter 31 – Veteran Readiness and Employment), collects information that the Veteran Readiness and Employment (VR&E) program needs to determine whether specific supplies and/or equipment can be provided to a claimant under 38 U.S.C. 3104(a)(7).

- 2. Indicate how, by whom, and for what purposes the information is to be used; indicate actual use the agency has made of the information received from current collection.**

A claimant uses VAF 28-1905m to request supplies or equipment be provided as part of a rehabilitation program under 38 U.S.C. Chapter 31. The training facility the claimant attends, or the employer for whom the claimant works, may also need to complete the form when the facility or employer requires specific types of supplies or equipment. The VR&E program subsequently uses the information on this form to approve the purchase of appropriate supplies and equipment for claimants.

- 3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.**

VA Form 28-1905m is available on the One-VA website in a fillable electronic format. VBA is currently hosting this form on a secure server and does not currently have the technology in place to allow for the complete electronic submission of the form. Validation edits are performed to assure data integrity. There currently is no utility process in place that will allow the data submitted on the form to be incorporated with an existing centralized legacy database.

- 4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

**Request and Authorization for Supplies (Chapter 31 – Veteran Readiness and  
Employment)**  
OMB #2900-0061

Program reviews were conducted to identify potential areas of duplication; however, none were found to exist. There is no known Department or Agency which maintains the necessary information, nor is it available from other sources within our Department.

**5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden.**

The collection of information does not involve small businesses or entities.

**6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently as well as any technical or legal obstacles to reducing burden.**

A claimant uses VAF 28-1905m to request supplies or equipment be provided as part of a rehabilitation program under 38 U.S.C. Chapter 31. The training facility the claimant attends, or the employer for whom the claimant works, may also need to complete the form when the facility or employer requires specific types of supplies or equipment under 38 U.S.C. 3104(a)(7). The VR&E program subsequently uses the information on this form to approve the purchase of appropriate supplies and equipment for claimants. Without the information gathered on this form, it is likely that inappropriate supplies or equipment may be provided which would negatively impact both the VA and the claimant.

**7. Explain any special circumstances that would cause an information collection to be conducted more often than quarterly or require respondents to prepare written responses to a collection of information in fewer than 30 days after receipt of it; submit more than an original and two copies of any document; retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years; in connection with a statistical survey that is not designed to produce valid and reliable results that can be generalized to the universe of study and require the use of a statistical data classification that has not been reviewed and approved by OMB.**

There is no special circumstance requiring collection in a manner inconsistent with 5 CFR 1320.6 guidelines.

**8. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the sponsor's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the sponsor in responses to these comments. Specifically address comments received on cost and hour burden.**

The 60-Day Federal Register Notice was published on April 8, 2021 and is located on page 18,376. No comments were received.

**9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.**

No payments or gifts to respondents have been made under this collection of information.

**10. Describe any assurance of privacy to the extent permitted by law provided to respondents and the basis for the assurance in statute, regulation, or agency policy.**

The records are maintained in the appropriate Privacy Act System of Records identified as “Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records-VA (58VA21/22/28),” published at 74 FR 29275 on June 19, 2009, and last amended at 84 FR 4138 (February 14, 2019).

**11. Provide additional justification for any questions of a sensitive nature (Information that, with a reasonable degree of medical certainty, is likely to have a serious adverse effect on an individual's mental or physical health if revealed to him or her), such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private; include specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.**

There are no questions of a sensitive nature.

**12. Estimate of the hour burden of the collection of information:**

- a. Number of Respondents is estimated at 28,000 per year.
- b. Frequency of Response is on occasion. .
- c. Annual burden hours are 14,000 hours.
- d. The estimated completion time for each form is 30 minutes.
- e. The respondent population for VAF 28-1905m is composed of VR&E claimants who are requesting that supplies and/or equipment be provided as part of their rehabilitation plan. VA cannot make further assumptions about the population of respondents because of the variability of factors such as the educational background and wage potential of respondents. Therefore, VBA used general wage data to estimate the respondents’ costs associated with completing the information collection.

The Bureau of Labor Statistics (BLS) gathers information on full-time wage and salary workers. According to the latest available BLS data, the mean hourly wage is \$27.07 based on the BLS wage code – “00-0000 All Occupations.” This information was taken from the following website: [https://www.bls.gov/oes/current/oes\\_nat.htm](https://www.bls.gov/oes/current/oes_nat.htm).

Legally, respondents may not pay a person or business for assistance in completing the information collection. Therefore, there are no expected overhead costs for completing the information collection. VBA estimates the total cost to all respondents to be \$378,980 (14,000 burden hours x \$27.07 per hour).

**13. Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).**

This submission does not involve any recordkeeping costs.

**14. Provide estimates of annual cost to the Federal Government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operation expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.**

Overhead costs are 100% of salary and are the same as the wage listed above and the amounts are included in the total.

Printing and production costs approximates the cost of printing this information collection per year. (Processing/Analyzing Cost total divided by \$90).

Note: The hourly wage information above is based on the hourly 2021 General Schedule (Base) Pay ([https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/salary-tables/pdf/2020/GS\\_h.pdf](https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/salary-tables/pdf/2020/GS_h.pdf)). This rate does not include any locality adjustment as applicable.

The processing time estimates above are based on the actual amount of time employees of each grade level spend to process to completion a claim received on this form. The within-grade step (3) of each employee represents the average experience of employees within each grade.

**15. Explain the reason for any burden hour changes since the last submission.**

The VR&E program experienced an increase in rehabilitation plans developed since the last submission and VAF 28-1905m is used during the rehabilitation planning process. This increase in plans results in an increase in the use of VAF 28-1905m.

The individual respondent burden decreased from one hour to 30 minutes. This decrease is associated with VAF 28-1905m only being used for the initial request of the supplies/equipment as opposed to also being used for receipt confirmation upon the supplies/equipment being delivered. A new form, VAF 28-1905r, is being developed for the purpose of verifying that the supplies/equipment have been received. Additionally, the items on VAF 28-1905m were reviewed and it was determined that the average claimant could complete the items in 30 minutes or less.

**16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

The information collection is not for publication or tabulation use.

**17. If seeking approval to omit the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

We are not seeking approval to omit the expiration date for OMB approval.
