Title: Rural Community Development Initiative.

OMB Number: 0575–0180.

Expiration Date of Approval: July 31, 2021.

Type of Request: Revision of a currently approved information collection.

Abstract: RHS, an Agency within the USDA Rural Development mission area, will administer the RCDI grant program through their Community Facilities Division. The intent of the RCDI grant program is to develop the capacity and ability of rural area recipients to undertake projects through a program of technical assistance provided by qualified intermediary organizations. The eligible recipients are nonprofit organizations, low-income rural communities, or federally recognized Indian tribes. The intermediary may be a qualified private, nonprofit, or public (including tribal) organization. The intermediary is the applicant. The intermediary must have been organized a minimum of 3 years at the time of application. The intermediary will be required to provide matching funds, in the form of cash or committed funding, in an amount at least equal to the RCDI grant.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1.34 hours per response.

Respondents: Intermediaries and recipients.

Estimated Number of Respondents: 90.

Estimated Number of Responses per Respondent: 34.78.

Estimated Number of Responses: 3,130.

Estimated Total Annual Burden on Respondents: 4,194.

Copies of this information collection can be obtained from Pamela Bennett, Rural Development Innovation Center, Regulations Management Division, at (202) 720–9639. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

SUPPLEMENTARY INFORMATION:

A. Background

Under the PRA and its implementing regulations (5 CFR part 1320), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor (e.g., contractually-required information collection by a third-party). "Collection of information," within the meaning of the PRA, includes agency requests that pose identical questions to, or impose reporting or recording keeping obligations on, ten or more persons, regardless of whether response to such request is mandatory or voluntary. See 5 CFR 1320.3(c); see also 44 U.S.C. 3502(3). Before seeking clearance from OMB, agencies are generally required, among other things, to publish a 60-day notice in the **Federal Register** concerning any proposed information collection—including extension of a previously-approved collection—and provide an opportunity for comment. See 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

B. Proposed Renewal of Information Collection Request

The Access Board is providing notice of its intent to seek renewal of its existing generic clearance for the collection of qualitative feedback with regard to agency services delivered by its Office of Technical and Information Services (OTIS) and Architectural Barriers Act (ABA) compliance and enforcement program. To date, we have found the feedback garnered through qualitative customer satisfaction surveys (and similar information collections) to be beneficial, by providing useful insights in experiences, perceptions, opinions, and expectations regarding Access Board services or focusing attention on areas in need of improvement. We thus intend to seek approval to continue our current efforts to solicit qualitative customer feedback by seeking input from customers across our agency programs and services. Online surveys will be used unless the customer contacts the agency by phone for technical assistance or an individual otherwise expresses a preference for another survey format (i.e., fillable form in portable document format or paper survey). In addition, paper surveys may be used to garner feedback from participants at in-person trainings or similar events.

OMB Control Number: 3014–0011.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Type of Request: Extension without change.

Abstract: The proposed information collection activity facilitates collection of qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Federal Government’s commitment to improving service delivery. By qualitative feedback we mean information collections that provide useful insights on perceptions and opinions but are not statistical surveys

that yield quantitative results that can be generalized to the population of study. This feedback will provide insight into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training, or changes in operations might improve delivery of services. These collections will allow for ongoing, collaborative, and actionable communications between the Access Board and its customers and stakeholders.

Respondents/Affected Public: Individuals and Households; Businesses and Organizations; State, Local or Tribal Government.

Burden Estimates: In the table below (Table 1), the Access Board provides estimates for the annual reporting burden for the information collections proposed under this renewed generic information collection request. (The Access Board does not anticipate incurring any capital or other direct costs associated with this information collection. Nor will there be any costs to respondents, other than their time.)

TABLE 1—ESTIMATED ANNUAL BURDEN HOURS

Type of collection	Number of respondents	Frequency of response (per year)	Average response time (mins.)	Total burden (hours)
Customer feedback surveys—Office of Technical and Information Services	3,830	1	4	255
Customer feedback survey: ABA Compliance and enforcement program	40	1	4	3
Totals	3,870	n/a	n/a	258

(Note: Total burden hours per collection rounded to the nearest full hour.)

Request for Comment: The Access Board seeks comment on any aspect of the proposed renewal of its existing generic clearance for the collection of qualitative feedback on agency service delivery, including (a) whether the proposed collection of information is necessary for the Access Board’s performance; (b) the accuracy of the estimated burden; (c) ways for the Access Board to enhance the quality, utility, and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. Comments will be summarized and included in our request for OMB’s approval of renewal of our existing generic clearance.

Gretchen Jacobs,

Interim Executive Director.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to request an extension of the current OMB clearance for the Quarterly Survey of Plant Capacity Utilization (SPC). The SPC is conducted quarterly, collecting from manufacturing plants and publishers, the value of actual production, the value of production that could have been achieved if operating at “full production” levels, and the value of production that could have been achieved if operating at “national emergency” levels. The survey also collects data on work patterns by shift. These data include hours in operations, production workers, and plant hours worked.
