Share your military service information with USAJOBS

The VA has partnered with the Department of Defense to gather your military service information. We can collect it for you and automatically add it to your USAJOBS profile.

When you click **Continue to the VA**, we'll send you to the VA website. The VA will ask you to sign in and give us permission to access your information. Even if you don't have a VA account, we can still get your military service information.

Based on your answers to the previous military questions, we will get the following information and add it to your profile.

Help

Why should I give USAJOBS access to my military information?

- Save time-we can automatically update your service information, so you don't have to spend time finding or entering it manually.
- Update your eligibility-we can automatically verify if you're eligible for a special Veteran hiring preference or authority based on your service information.
- Avoid mistakes-the VA and the Department of Defense have your most up-to-date service history.

Why should I share my disability rating?

If you were released from active duty and you have an Honorable or General discharge and you have a service-connected disability:

- You are eligible for a 10-point preference.
- You may also be eligible for the [Veteran's Recruitment Appointment \(VRA\)](#) or the [30% or More Disabled](#) hiring authorities.

Being eligible for these special hiring authorities or preferences can broaden your job options with the Federal Government.

Participants will sign into their VA account or access their service and disability rating using ID.me.

The screenshot shows the VA.gov sign-in interface. At the top, it features the VA logo and the U.S. Department of Veterans Affairs seal. The main heading is "Sign in to VA.gov" with the subtext "Sign in using your preferred VA related account". There are three primary sign-in buttons: "Sign in with DSLogon" (dark blue), "Sign in with My HealtheVet" (medium blue), and "ID.me Sign in with ID.me" (green). To the right of these buttons, there is a section titled "Having trouble signing in?" with two links: "Get answers to Frequently Asked Questions" and "Submit a request to get help signing in". Below the sign-in buttons, there is an "OR" separator and a section titled "Don't have these accounts?" with a button "ID.me Create an ID.me account". At the bottom, it says "Use your email, Google, or Facebook".

Participants will compare this information to the information on their DD214, DD215 (if they have one) and their VA Disability Letter (if they have a disability rating from the VA).

The screenshot shows the "My VA Information" page on USAJOBS. The page has a header with "USAJOBS FAKE" and navigation links for "Home", "Profile", "Documents", and "Preferences". The main content area is titled "My VA Information" and is divided into two sections: "Military service" and "Service Connected Disability".

How do I know if the information is correct?

We pull the military and disability information from the VA, which is the authoritative source of this information. To make sure the information is correct:

- Compare the military service information with your DD214 and DD215 (if you have one).
- Compare the service-connected disability information with your letter from the VA.

If you don't have a service-connected disability, the disability information will not appear.

What if my information does not match my military service documentation?

This may happen if your military service or disability information changed since you received your current DD214 and DD215 (if you have one) and VA letter.

If your information does not match your DD214 or VA letter, click **No, it doesn't match**. You'll have the option to enter your military information in a form.

What if my disability rating says "No information found"?

It means we couldn't find any data about your service-connected disability in the VA system. [Click "No, it doesn't match"](#).
