 A. You should contact your RRB field office or the system administrator for assistance. You may do this by using the links provided on the website. Q. My PRC Expired. Can I get another PRC?
for assistance. You may do this by using the links provided on the website. Q. My PRC Expired. Can I get another PRC?
A. A PRC will expire if not used within 30 days from the date of the PRC
letter. If you need a PRC extension, contact the PPW system administrator. Once a PRC is assigned, it never changes. The PPW system administrator will extend the expiration for another 30 days by reprinting the PRC letter.

Q.	I am trying to request a PRC and receiving the message that my social security number is already in the PPW system. I don't remember requesting a PRC before. What should I do?	
Α.	If the social security number is already in the system, it means you have requested and been approved for a PRC. If you do not remember receiving a PRC letter, another letter can be released. Contact the PPW system administrator using the link on the web site.	
Q.	I received a PRC. How do I establish an account?	
	You establish an account by clicking on "Box 2 Establish your RRB Internet account AFTER PRC received" in the Benefit Online Services Login Box on the RRB home page. You will be taken to the "Establish Your RRB Internet Account" page. There you will enter your PRC and PIN (social security number). You will create and enter your own password, then click the SUBMIT box. You will receive the following message "YOUR PIN/PASSWORD ACCOUNT HAS NOW BEEN ESTABLISHED".	
[Back	k to top]	
Pass	sword	
Q.	I'm trying to establish an account. Your system won't accept my password. What should I do?	
Α.	Each user should create his or her own unique password. However, all passwords must be in a specific format. Passwords should be between 8 and 15 characters. Passwords can be comprised on A-Z, a-z, 0-9, pound (#) and star (*). If your password is in this format and you are still having problems, contact the System Administrator through the link on the website.	
Q.	I forgot my password. Can I get another one? If so, how?	
Α.	You may request a new password by clicking on the "Request New Password" link on the Benefit Online Services menu page. Or, by clicking on the "Forgot Your Password?" link on the Login page. The system will assign a new password and release it in a letter mailed to the address on our records.	
Q.	I received a new password in the mail and cannot get it to work. What should I do?	
Α.	After receiving a new password, you must click on the "Login Now" link on the Benefit Online Services menu page. You must enter your PIN (social security number) and the new password to login.	
	Another possibility is that the password is not being entered correctly. The password entry is case sensitive and must be an exact match to the password in the letter.	
	I tried to log in and now my account is locked. What should I do?	
Α.	As a security measure, an account gets locked when the wrong password is entered 3 times. If you have locked your account, contact the PPW system administrator for assistance using the link on the web site.	
	Will my password expire?	
	Passwords do not expire. Can I change my password? If so, how?	
	You may change your password as often as you like. To do this, click on the "Change Password" link on the Login Required page. If you are not already logged in, you will be requested to do so before you can change the password.	
[Back	k to top]	
Assi	istance/Comments	
Q.	Who can I contact for assistance?	
Α.	You should contact your RRB field office in person, by phone, or through the link on the website for most general questions. If you are having problems establishing your account or setting up your password, you should contact the System Administrator through the link on the website.
