

estimated countervailing duties required at the time of entry, or withdrawal from warehouse, for consumption in accordance with 19 CFR

351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP no earlier than 35 days after the date of publication of this notice in the **Federal Register**.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to all parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Dated: April 12, 2021.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XA983]

Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public online meetings.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will convene three Stock Assessment Review (STAR) Panels this year to review new stock assessments for Dover sole, spiny dogfish, lingcod, and vermilion and sunset rockfishes. These STAR Panel meetings are open to the public.

DATES: The STAR Panel meeting (STAR Panel 1) to review new assessments for Dover sole and spiny dogfish will be held Monday, May 3, 2021 through

Friday, May 7, 2021, beginning at 8:30 a.m. Pacific Daylight Time (PDT) and ending at 5:30 p.m. each day, or when business for the day has been completed.

The STAR Panel meeting (STAR Panel 2) to review new assessments for lingcod will be held Monday, July 12, 2021 through Friday, July 16, 2021, beginning at 8:30 a.m. and ending at 5:30 p.m. each day, or when business for the day has been completed.

The STAR Panel meeting (STAR Panel 3) to review a new assessment for vermilion and sunset rockfishes will be held Monday, July 26, 2021 through Friday, July 30, 2021, beginning at 8:30 a.m. and ending at 5:30 p.m. each day, or when business for the day has been completed.

ADDRESSES: The Groundfish STAR panel meetings will be online meetings. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820-2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.

FOR FURTHER INFORMATION CONTACT: Dr. Andi Stephens, NMFS Northwest Fisheries Science Center; telephone: (541) 867-0535; or Mr. John DeVore, Staff Officer, Pacific Fishery Management Council; telephone: (503) 820-2413.

SUPPLEMENTARY INFORMATION: The purpose of the STAR Panels is to review draft 2021 stock assessment documents and any other pertinent information for new benchmark stock assessments for Dover sole, spiny dogfish, lingcod (it is anticipated there will be 2 assessments of West Coast lingcod subpopulations delineated at 40°10' N lat.), and vermilion and sunset rockfishes (it is anticipated this will be a single assessment of vermilion rockfish and sunset rockfish in combination); work with the Stock Assessment Teams to make necessary revisions; and produce STAR Panel reports for use by the Pacific Council family and other interested persons for developing management recommendations for fisheries in 2021 and beyond. No management actions will be decided by the STAR Panels. The STAR Panel participants' role will be development of recommendations and reports for consideration by the Pacific Council at

its virtual June meeting (for Dover sole and spiny dogfish) and its September meeting (for lingcod and vermilion and sunset rockfishes) tentatively scheduled in Spokane, WA.

Although nonemergency issues not contained in the meeting agendas may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent of the STAR Panels to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt, (503) 820-2412, at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 13, 2021.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; 3D Nation Elevation Data Requirements and Benefits Study

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 29, 2021, (86 FR 7542), during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: 3D Nation Requirements and Benefits Elevation Data Study.

OMB Control Number: 0648–0762.

Form Number(s): None.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 800.

Average Hours per Response: 2.

Total Annual Burden Hours: 1,600.

Needs and Uses: This is a request for extension of a currently approved information collection.

NOAA, the U.S. Geological Survey (USGS), and partner mapping agencies are working to improve the technology systems, data, and services that provide information about 3D data and related applications within the United States. By continuing to learn about business uses and associated benefits that would be realized from improved 3D data, the agencies can more effectively prioritize and direct investments that will best serve user needs. The 3D Nation Elevation Data Requirements and Benefits Study [3D Nation Study] is part of the continuing effort to develop and refine future program alternatives that would provide enhanced 3D data to meet many Federal, State, and other national business needs.

In 2017, NOAA and the USGS initiated a 3D Nation Study follow-on to the National Enhanced Elevation Assessment (NEEA) white paper finalized in 2012 (NEEA overview can be found at <https://pubs.usgs.gov/fs/2012/3088/>). The 3D Nation Study incorporates coastal and ocean requirements for elevation data together with terrestrial elevation data needs. The primary tool to gather information is a questionnaire covering a wide range of business uses that depend on 3D data to inform policy, regulation, scientific research, and management decisions. For purposes of the study, 3D data refers to topographic elevation data (precise three-dimensional measurements of the terrestrial terrain) and bathymetric elevation data (three-dimensional surface of the underwater terrain). The 3D Nation Study seeks to understand needs for 3D elevation data in terms of mission critical activities, geographic extents of data needs, accuracy requirements, frequency needed, and anticipated benefits of having the required data. The study also aims to describe 3D elevation data needs in relation to other data types such as the shoreline; characteristics of tides, currents, and waves; and the physical and chemical properties of the water itself.

Because 3D data are collected and used to meet a wide range of mission critical needs, the 3D Nation Study seeks input from managers and data users from a variety of government entities (e.g., Federal, State, local, Tribal) as well as not for profit, academic, and private/commercial entities. The findings will update a baseline of national business needs and associated benefits for 3D data and associated technologies. This baseline enhances the responsiveness of NOAA, USGS, and partner agency programs to stakeholder needs. It is intended to inform the design of directed future programs that balance requirements, benefits, and costs at a national scale. Collected responses are aggregated at the agency, organization, state and national levels. Responses associated with individuals are not distributed. The information collection is conducted using a standardized template. Responses are one-time and voluntary. In-person interviews to clarify questionnaire results may also be arranged. The current version of the study questionnaire is available at the 3D Nation Study information site (<https://my.usgs.gov/confluence/display/3DNationStudy/Questionnaire>).

Affected Public: Federal government, State, local or tribal governments; not-for-profit institutions, academia, business or other for-profit organizations.

Frequency: On occasion, 3–5 year intervals.

Respondent's Obligation: Voluntary.

Legal Authority: Coast and Geodetic Survey Act of 1947 (33 U.S.C. 883a *et seq.*).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0762.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-JE-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XB014]

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will hold a three-day meeting via webinar of its Standing, Reef Fish, Socioeconomic, Mackerel, Shrimp and Ecosystem Scientific and Statistical Committees (SSC).

DATES: The meeting will be held on Monday, May 3, 2021 to Wednesday, May 5, 2021, from 9 a.m. to 5 p.m., EDT.

ADDRESSES: The meeting will take place via webinar; you may register by visiting www.gulfcouncil.org and clicking on the SSC meeting on the calendar.

Council address: Gulf of Mexico Fishery Management Council, 4107 W. Spruce Street, Suite 200, Tampa, FL 33607; telephone: (813) 348–1630.

FOR FURTHER INFORMATION CONTACT: Ryan Rindone, Lead Fishery Biologist, Gulf of Mexico Fishery Management Council; ryan.rindone@gulfcouncil.org, telephone: (813) 348–1630.

SUPPLEMENTARY INFORMATION:

Monday, May 3, 2021; 9 a.m.–5 p.m., EDT

The meeting will begin with Introductions and Adoption of Agenda, Approval of Verbatim Minutes and Meeting Summary from March 30–April 2, 2021, webinar meeting, review of the Scope of Work, and selection of an SSC Representative for the June 21–25, 2021 Gulf Council Meeting.

The Committees will review a presentation on Management Considerations for Using Interim Analyses, followed by the Gulf Red Grouper Updated Indices of Abundance, and the Gulf Penaeid Shrimp Working Groups and Gulf Royal Red Shrimp Index Presentations and Projections. The Committees will discuss the SEDAR 74 workshop participation solicitation and schedule, receive presentations on the Joint Grouper-Tilefish and Red Snapper Individual Fishing Quotas (IFQ) Program Review, and a presentation on the Allocation Review Guidelines.
