Customer Survey

We at the U.S. Army Corps of Engineers Regulatory Branch are committed to improving service to our customers and would like to know how well we have been doing. Who are our customers? You are our customers if you submitted a permit application, requested a jurisdictional determination or wetland delineation or scheduled a pre-application meeting with us. Other customers include those of you who receive our Public Notice and/or have commented on a particular project or our work in general because of your interest in the Regulatory Program. To identify how we can better serve you, we need your help. Please take the time to fill out this brief survey. Your honest opinions will help us determine areas in which we need to improve. Thank you for your time and comments! Response to this survey is VOLUNTARY. If you choose not to respond it will not affect any current or future dealings you may have with the USACE in any way.
