Public Burden Statement: Health centers (section 330 grant funded and Federally Qualified Health Center look-alikes) deliver comprehensive, high quality, cost-effective primary health care to patients regardless of their ability to pay. Section 224(g)-(n) of the Public Health Service (PHS) Act (42 U.S.C. 233(g)-(n)), as amended, authorizes the “deeming” of entities receiving funds under section 330 of the PHS Act as PHS employees for the purposes of receiving Federal Tort Claims Act (FTCA) coverage. The Health Center Program is administered by HRSA’s Bureau of Primary Health Care (BPHC). Health centers submit deeming applications annually to BPHC in the prescribed form and manner in order to obtain deemed PHS employee status, with the associated FTCA coverage.

These forms provide BPHC with the information essential for application evaluation and a deeming determination for the purposes of FTCA coverage. The application information is also used to determine whether a site visit is appropriate to assess issues relating to the health center’s quality of care and to determine technical assistance needs. The OMB control number for this information collection is 0906-0035 and it is valid through XX/XX/202X. This information collection is mandatory under the Health Center Program authorized by section 330 of the Public Health Service (PHS) Act ([42 U.S.C. 254b](#)). Public reporting burden for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer,

5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or [paperwork@hrsa.gov](mailto:paperwork@hrsa.gov).

### REVIEW OF RISK MANAGEMENT SYSTEMS

Applicants must respond to all questions in this section. Health Center FTCA Program risk management requirements are also described in the [Health Center Program Compliance Manual](#), Chapter 21: Federal Tort Claims Act (FTCA) Deeming Requirements.

1(A). I attest that my health center has implemented an ongoing risk management program to reduce the risk of adverse outcomes that could result in medical malpractice or other health or health-related litigation and that this program requires the following:

- i. Risk management across the full range of health center activities (for example, patient management including scheduling, triage, intake, tracking, and follow-up);
- ii. Health care risk management training for health center staff;
- iii. Completion of quarterly risk management assessments by the health center; and
- iv. Annual reporting to the governing board of: completed risk management activities; status of the health center's performance relative to established risk management goals; and proposed risk management activities that relate and/or respond to identified areas of high organizational risk.

Yes ☐ No ☐

If "No", provide an explanation as to any discrepancies from the information identified above.

**[2,000 character comment box]**

1(B). By checking "Yes," below, I also acknowledge that failure to implement an ongoing risk management program and provide documentation of such implementation upon request may result in disapproval of this deeming application and/or other administrative remedies.

Yes ☐

2(A). I attest that my health center has implemented risk management procedures to reduce the risk of adverse outcomes that could result in medical malpractice or other health or health-related litigation. At a minimum, these procedures specifically address the following:

- i. Identifying and mitigating (for example, through clinical protocols, medical staff supervision) the health care areas/activities of highest risk within the health center's HRSA-approved scope of project, including but not limited to tracking referrals, diagnostics, and hospital admissions ordered by health center providers;
- ii. Documenting, analyzing, and addressing clinically-related complaints, "near misses", and sentinel events reported by health center employees, patients, and other individuals;

## REVIEW OF RISK MANAGEMENT SYSTEMS

All questions in this section are required.

- iii. Setting annual risk management goals and tracking progress toward those goals;
- iv. Developing and implementing an annual health care risk management training plan for all staff members that addresses the following identified areas/activities of clinical risk: medical record documentation, follow-up on adverse test results, obstetrical procedures, and infection control, as well as training in Health Insurance Portability and Accountability Act (HIPAA) and other applicable medical record confidentiality requirements; and
- v. Completing an annual risk management report for the governing board and key management staff that addresses the risk management program activities, goals, assessments, trainings, incidents and procedures.

Yes ☐ No ☐

If "No", provide an explanation as to any discrepancies from the information identified above.

**[2,000 character comment box]**

2(B). I also acknowledge that failure to implement and maintain risk management procedures to reduce the risk of adverse outcomes that could result in medical malpractice or other health or health-related litigation, as further described above, may result in disapproval of this deeming application.

Yes ☐

2(C). Upload the risk management procedures that address mitigating risk in tracking of referrals, diagnostics, and hospital admissions ordered by health center providers or initiated by the patient.

[Attachment control named 'Referral Tracking']

[Attachment control named 'Hospitalization Tracking']

[Attachment control named 'Diagnostic Tracking' (must include labs and x-rays)]

3(A). I attest that my health center has developed and implemented an annual health care risk management training plan for staff members based on identified areas/activities of highest clinical risk for the health center. These training plans include detailed information related to the health center's tracking/documentation methods to ensure that trainings have been completed by the appropriate staff, including all clinical staff, at least annually. I attest that the training plans at a minimum also incorporate the following:

- i. Obstetrical procedures (for example, continuing education for electronic fetal monitoring (such as the online course available through ECRI Institute), dystocia drills).

Please note: Health centers that provide obstetrical services through health center providers need to include obstetrical training as part of their risk management training plans to demonstrate compliance. This includes health centers that provide prenatal and postpartum care through health center providers, even if they do not provide labor and delivery services;

## REVIEW OF RISK MANAGEMENT SYSTEMS

All questions in this section are required.

- ii. Infection control and sterilization (for example, Blood Borne Pathogen Exposure protocol, Infection Prevention and Control policies, Hand Hygiene training and monitoring program, dental equipment sterilization);
- iii. HIPAA medical record confidentiality requirements; and
- iv. Specific trainings for groups of providers that perform various services which may lead to potential risk (for example, dental, pharmacy, family practice).

Yes ☐ No ☐

If "No", provide an explanation as to any discrepancies from the information identified above.

[2,000 character comment box]

3(B). Upload the health center's current annual risk management training plans for all staff, including all clinical and non-clinical staff, based on identified areas/activities of highest clinical risk for the health center and that include the items outlined in risk management question 3(A).i-iv of this application. **The risk management training plans should also document completion of all required training.**

**All documents must be from the current or previous calendar year. Any documents dated outside of this period will not be accepted.**
