

interested persons to develop and submit data, information, and/or comments for this notice. We have concluded that it is reasonable to extend the comment period for 60 days. FDA believes that this extension allows adequate time for any interested persons to submit data, information, and/or comments.

Dated: December 11, 2020.

Lauren K. Roth,

Acting Principal Associate Commissioner for Policy.

BILLING CODE 4164-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Public Comment Request; Information Collection Request Title: The Maternal, Infant, and Early Childhood Home Visiting Program Performance Measurement Information System, OMB No. 0906-0017, Revision

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In compliance with the requirement for opportunity for public comment on proposed data collection projects of the Paperwork Reduction Act of 1995, HRSA announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on this ICR should be received no later than February 16, 2021.

ADDRESSES: Submit your comments to paperwork@hrsa.gov or mail the HRSA Information Collection Clearance Officer, 14N136B, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email paperwork@hrsa.gov or call Lisa Wright-Solomon, the HRSA Information Collection Clearance Officer at (301) 443-1984.

SUPPLEMENTARY INFORMATION:

Information Collection Request Title: The Maternal, Infant, and Early Childhood Home Visiting Program Performance Measurement Information System, OMB No. 0906-0017, Revision.

Abstract: This clearance request is for continued approval of the Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program Performance Measurement Information System.

The MIECHV Program, administered by HRSA in partnership with the Administration for Children and Families, supports voluntary, evidence-based home visiting services to pregnant women and to parents with young children up to kindergarten entry. States, certain non-profit organizations, and Tribal entities are eligible to receive funding from the MIECHV program and have the flexibility to tailor the program to serve the specific needs of their communities. HRSA is revising the data collection forms for the MIECHV program by making the following changes:

- *Form 1, Table 1:* Update table to include reporting for gender non-conforming participants and unknown/did not report participant gender.
- *Form 1, Tables 3, 4, 6, 7, 8, 9, 10, 11, and 18:* Update tables to include reporting for gender non-conforming participants and unknown/did not report adult participant gender.
- *Form 1, Tables 3, 5, 6, 7, 18, 19, and 20:* Update tables to remove index child gender reporting.
- *Form 1, Table 15:* Change table title to “Home Visits”.
- *Form 1, Table 15:* Update table to collect the number of home visits completed virtually.
- *Form 1, Tables 4, 9, 10, and 18:* Update tables to include reporting for new and continuing adult participants.
- *Form 1, Tables 5, 19, and 20:* Update tables to include reporting for new and continuing index children.
- *Form 1, Table 16:* Add new table to include reporting on father and additional caregiver engagement.
- *Form 1, Tables 16, 17, 18, 19, 20, and 21:* Update table numbers to reflect the addition of Table 16.
- *Form 2, Measure 13:* Change measure name to “Behavioral Concern Inquiries”
- *Form 2, Measure 16:* Update measure to reflect caregiver health insurance coverage status.
- *Form 2:* Add two measures to collect information on substance use screening and referrals.

Need and Proposed Use of the Information: HRSA uses performance information to demonstrate program accountability and continuously monitor and provide oversight to MIECHV Program awardees. The information is also used to provide quality improvement guidance and technical assistance to awardees and help inform the development of early childhood systems at the national, state, and local level. HRSA is seeking to revise demographic, service utilization, and select clinical indicators for participants enrolled in home visiting services. In addition, HRSA will collect a set of standardized performance and outcome indicators that correspond with the statutorily identified benchmark areas.

This information will be used to demonstrate awardees’ compliance with legislative and programmatic requirements. It will also be used to monitor and provide continued oversight for awardee performance and to target technical assistance resources to awardees. In the future, HRSA anticipates that MIECHV funding decisions may be allocated, in part, based on awardee performance, including on benchmark performance areas. This notice is subject to the appropriation of funds, and is a contingency action taken to ensure that, should funds become available for this purpose, information can be collected in a timely manner.

Likely Respondents: MIECHV Program awardees that are states, territories, and, where applicable, nonprofit organizations providing home visiting services within states.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Form 1: Demographic, Service Utilization, and Select Clinical Indicators	56	1	56	560	31,360
Form 2: Performance Indicators and Systems Outcome Measures	56	1	56	221	12,376
Total	56	56	43,736

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Maria G. Button,

Director, Executive Secretariat.
