

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB#: 0925-0648 Exp., date: 05/2021)

TITLE OF INFORMATION COLLECTION:

Surveys to Support Assessment of the National Institute of Diabetes and Digestive and Kidney Diseases Office of Minority Health Research Coordination’s Research and Training Opportunities for Students (NIDDK)

PURPOSE:

OMHRC is pursuing comprehensive assessments of the student research program: Diversity Summer Research Training Program (DSRTP). The assessment includes a participant survey that focuses on the participant’s education, research experiences, career, and professional accomplishments. This is the first comprehensive assessment of DSRTP. The purpose of this assessments is to assess program outcomes over time, measure impacts on the biomedical workforce pipeline, identify any program challenges, and make recommendations to improve the program. Without this assessment, NIDDK will not have adequate information about program outcomes and opportunities to improve the program in the future. NIDDK will not generalize the results of this study to the entire population.

DESCRIPTION OF RESPONDENTS:

The survey will be sent to all students that participated in the DSRTP program, since the program began. This program supports this goal by providing summer biomedical research opportunities to undergraduate students from disadvantaged backgrounds or underrepresented racial and ethnic groups, and those with disabilities. The respondents will vary in age from 18 to mid-thirties.
